Mr. H. W. Farks
Forest Ranger
Warren, Idaho

Dear Mr. Farks:

I am sending this letter to you to be forwarded to Mr. Dahlgreen because I am not certain of the address for Mr. Dahlgreen.

Enclosed is an inspection form to be used in making the inspection on permit 20345. If you see Mr. Dahlgreen and explain how you made out the one for Mr. Irish that would help him on this one.

The point of diversion, or where the ditch takes out from each one of the creeks should be marked on the map and the distance from the mouth of the creek given.

The amount of land irrigated from each stream should be given in acres and also shown on the map.

Tell what is produced by use of the water, whether it is hay, grain or pasture or just lawn and garden.

If any of it is used for household such as cooking and drinking or any other uses tell about it.

Give a general description and measurements of the dam in each creek such as height, width etc. Also give the width and depth of the ditches and tell whether they are flat ditches or have lots of fall so that water runs fast.

We will greatly appreciate it if you can make the necessary report and sign your name to it.

Yours truly,

Dear Sir:

Your letter of 4/16/57 is received.

However, the Jess Tayler ranch is on the Big Creek District and I will not have an opportunity to get in there this spring. So I contacted the Ranger Allen Dahlgren, who was recently transferred to the Big Creek District in regard to this job. He said, "if you would let him know what information you needed he would be glad to do the job for you at his first opportunity".

Sincerely yours,

Dear Mr. Stowell:

Following up on your promise to make an inspection for me in the primitive area.

Enclosed is a report form to be used in making an inspection in connection with Mr. Taylor's Permit.

A map has been drawn out to help with the inspection; do not hesitate to show points of diversion as they are and location of land irrigated. In other words, if map is wrong make corrections, preferably in red.

Give a general description of dam in each creek and ditch leading from it, give dimensions as much as possible. Estimate the acreage irrigated as near as possible.

Locate points of diversions or dams with relation to distance from mouth of stream if there are no survey markers and I presume there are none.

Be sure to sign the report.

Dear Mr. Taylor:

We have filed the depositions of yourself and your two witnesses also the affidavit of publication in the Cascade News all in proof of Beneficial Use on Permit No. 20345.

This completes your proof but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bernard J. Rotzler, 49 years, Route 4, Boise, Idaho, plastering contractor.

Ques. 2. Are you acquainted with Jess R. Taylor, the holder of Permit No. 20345? How long have you known him and where does he reside?

Ans. Have known him for 20 years. He resides at Big Creek, Idaho, except that he has a mailing address at Manitou Street, Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20345, and are you familiar with its provisions and conditions?

Ans. I have read said Permit and am familiar with it.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From Pioneer Creek, Rush Creek and Cliff Creek, tributary of Big Creek, Valley County, Idaho. Diverted in Section 3, T. 20 N., R. 13 E. B. M., Valley County, through headgates and ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen approximately 2.0 c.f.s. being handled by these works, but they could easily handle more.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Dear Sir:

Under the terms of your permit No. 20345 you are required to complete your diversion works and make proof of beneficial use on or before March 21, 1953.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is March 21, 1953, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

Dear Sir:

Under the terms of your permit No. 20345 you are required to complete your diversion works and make proof of beneficial use on or before March 21, 1950.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is March 21, 1950, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.
