Dear Mr. Iverson:

We are in the process of issuing licenses for all of the above numbered permits.

As a result of changes in our procedures, we need additional information in order to determine the annual water requirement for each of these permits. If you have any idea as to what the annual use might be for each of these permits this will be sufficient. You might advise us of the number of camping sites in the park and an estimated consumption rate for that camp site, on those permits which are to be used for campgrounds.
