We are in the process of issuing licenses for all of the above numbered permits.

As a result of changes in our procedures, we need additional information in order to determine the annual water requirement for each of these permits. If you have any idea as to what the annual use might be for each of these permits this will be sufficient. You might advise us of the number of camping sites in the park and an estimated consumption rate for that camp site, on those permits which are to be used for campgrounds.

Dear Mr. Bolt:

On May 17, 1968, the Department of Reclamation conducted a field examination in connection with the above referenced permit. It was determined during the examination that the point of diversion and the place of use as described in the permit was other than that of the actual place of beneficial use and the point of diversion.

Therefore, before we can issue a license under this permit we will require that you file an application for amendment to the point of diversion and the place of use. A correction notice would then be published for two consecutive weekly issues at your expense. We are enclosing an application for amendment which has partially been completed for your use in this matter.

Please review the intent of the amendment and if you agree, sign the application and return it with a \$5.00 fee. Also enclosed is the department's form 11, authorization for the department to publish the correction notice at your expense. Sign the form 11 and return it with the amendment. We will then proceed with the advertising and the final issuance of the license.

Your assistance in this matter is appreciated.

Very truly yours,

Donald W. McBeldowney

Dear Mr. Iverson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the CASCADE NEWS, all submitted in proof of completion of works and beneficial use on Permit No. 31435, 31436, 31437 & 31462.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. s, as noted above. The proofs are to be made at 10:00 o'clock A.M., on the 12th day of October, 1964, before Jay J. Garret, Intermountain State Bank, Cascade, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Cascade News
Cascade, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Sir:

Under the terms of your Permit No. ³¹⁴³⁵~~31436~~ you are required to make proofs of completion of works and application of water to beneficial use on or before **October 16, 1964.**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.
