NOTICE OF EXISTING
WATER PERMIT

Notice is hereby given that Jo Ann C. Coffin, in care of Leroy Coffin, Route 1, Homedale, Idaho, has received an approved Permit No. 30470-77-2146 issued by the Idaho Department of Water Administration authorizing the diversion of 0.04 cubic feet per second of water from Lick Creek, tributary to Big Creek. The priority to be established under this permit is April 23, 1962, and the permit was approved April 25, 1962.

Water is to be diverted by ditch from a point within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2, Twp. 20 N, Rge. 9 E, B.M., Valley County, to be used for irrigation and domestic purposes in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 2, Twp. 20 N, Rge. 9 E, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on December 28, 1971. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication this notice.

Dear Mr. Coffin:

We acknowledge receipt of your affidavits submitted as proof of beneficial use for the above referenced permits.

The legal notices for these permits are to be published in the Star News at McCall, Idaho, on January 6 and January 13, 1972. You will be required to submit affidavits of publication to this office. The affidavits may be obtained from the above mentioned newspaper upon payment of the bill for publication; the newspaper will bill you direct.

After you have submitted the affidavits from the newspaper, the Department will schedule a field examination. Upon completion of the field examination, licenses can be issued for these permits. We are herewith returning the modification orders for these permits for your records.

If you have any questions or if we may be of assistance at any time, please contact us.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Re: Permit No. 30470 (New No. 77-2146)

Mr. John C. Coffin
Big Creek -via-
Cascade, Idaho 83611

Dear Mr. Coffin:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dorian Clay
Appropriation Examiner

Re: Permit No. 30470

John C. Coffin
Route #1
Boise, Idaho

Dear Mr. Coffin:

Under the terms of your Permit No. 30470 you are required to complete your diversion works on or before April 25, 1967. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer
