RE: Permit No. 18689

State Fish and Game Department
518 Front Street
Boise, Idaho

Gentlemen:

The report of our field engineer on examination for beneficial use under Permit No. 18689 in the name of Mrs. Mary M. Hood, seems to indicate that this permit has been taken over by the Fish and Game Department.

This is for water from Warm Springs Creek, diverted in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 15, Township 16 North, Range 12 East, B.M., for irrigation and domestic use on land in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 16, Township 16 North, Range 12 East, B.M.

Please advise us if you have an assignment of this permit from Mrs. Hood. If so, it should be sent to this department for recording before final action is taken in the matter of issuing the license.

Department of Reclamation

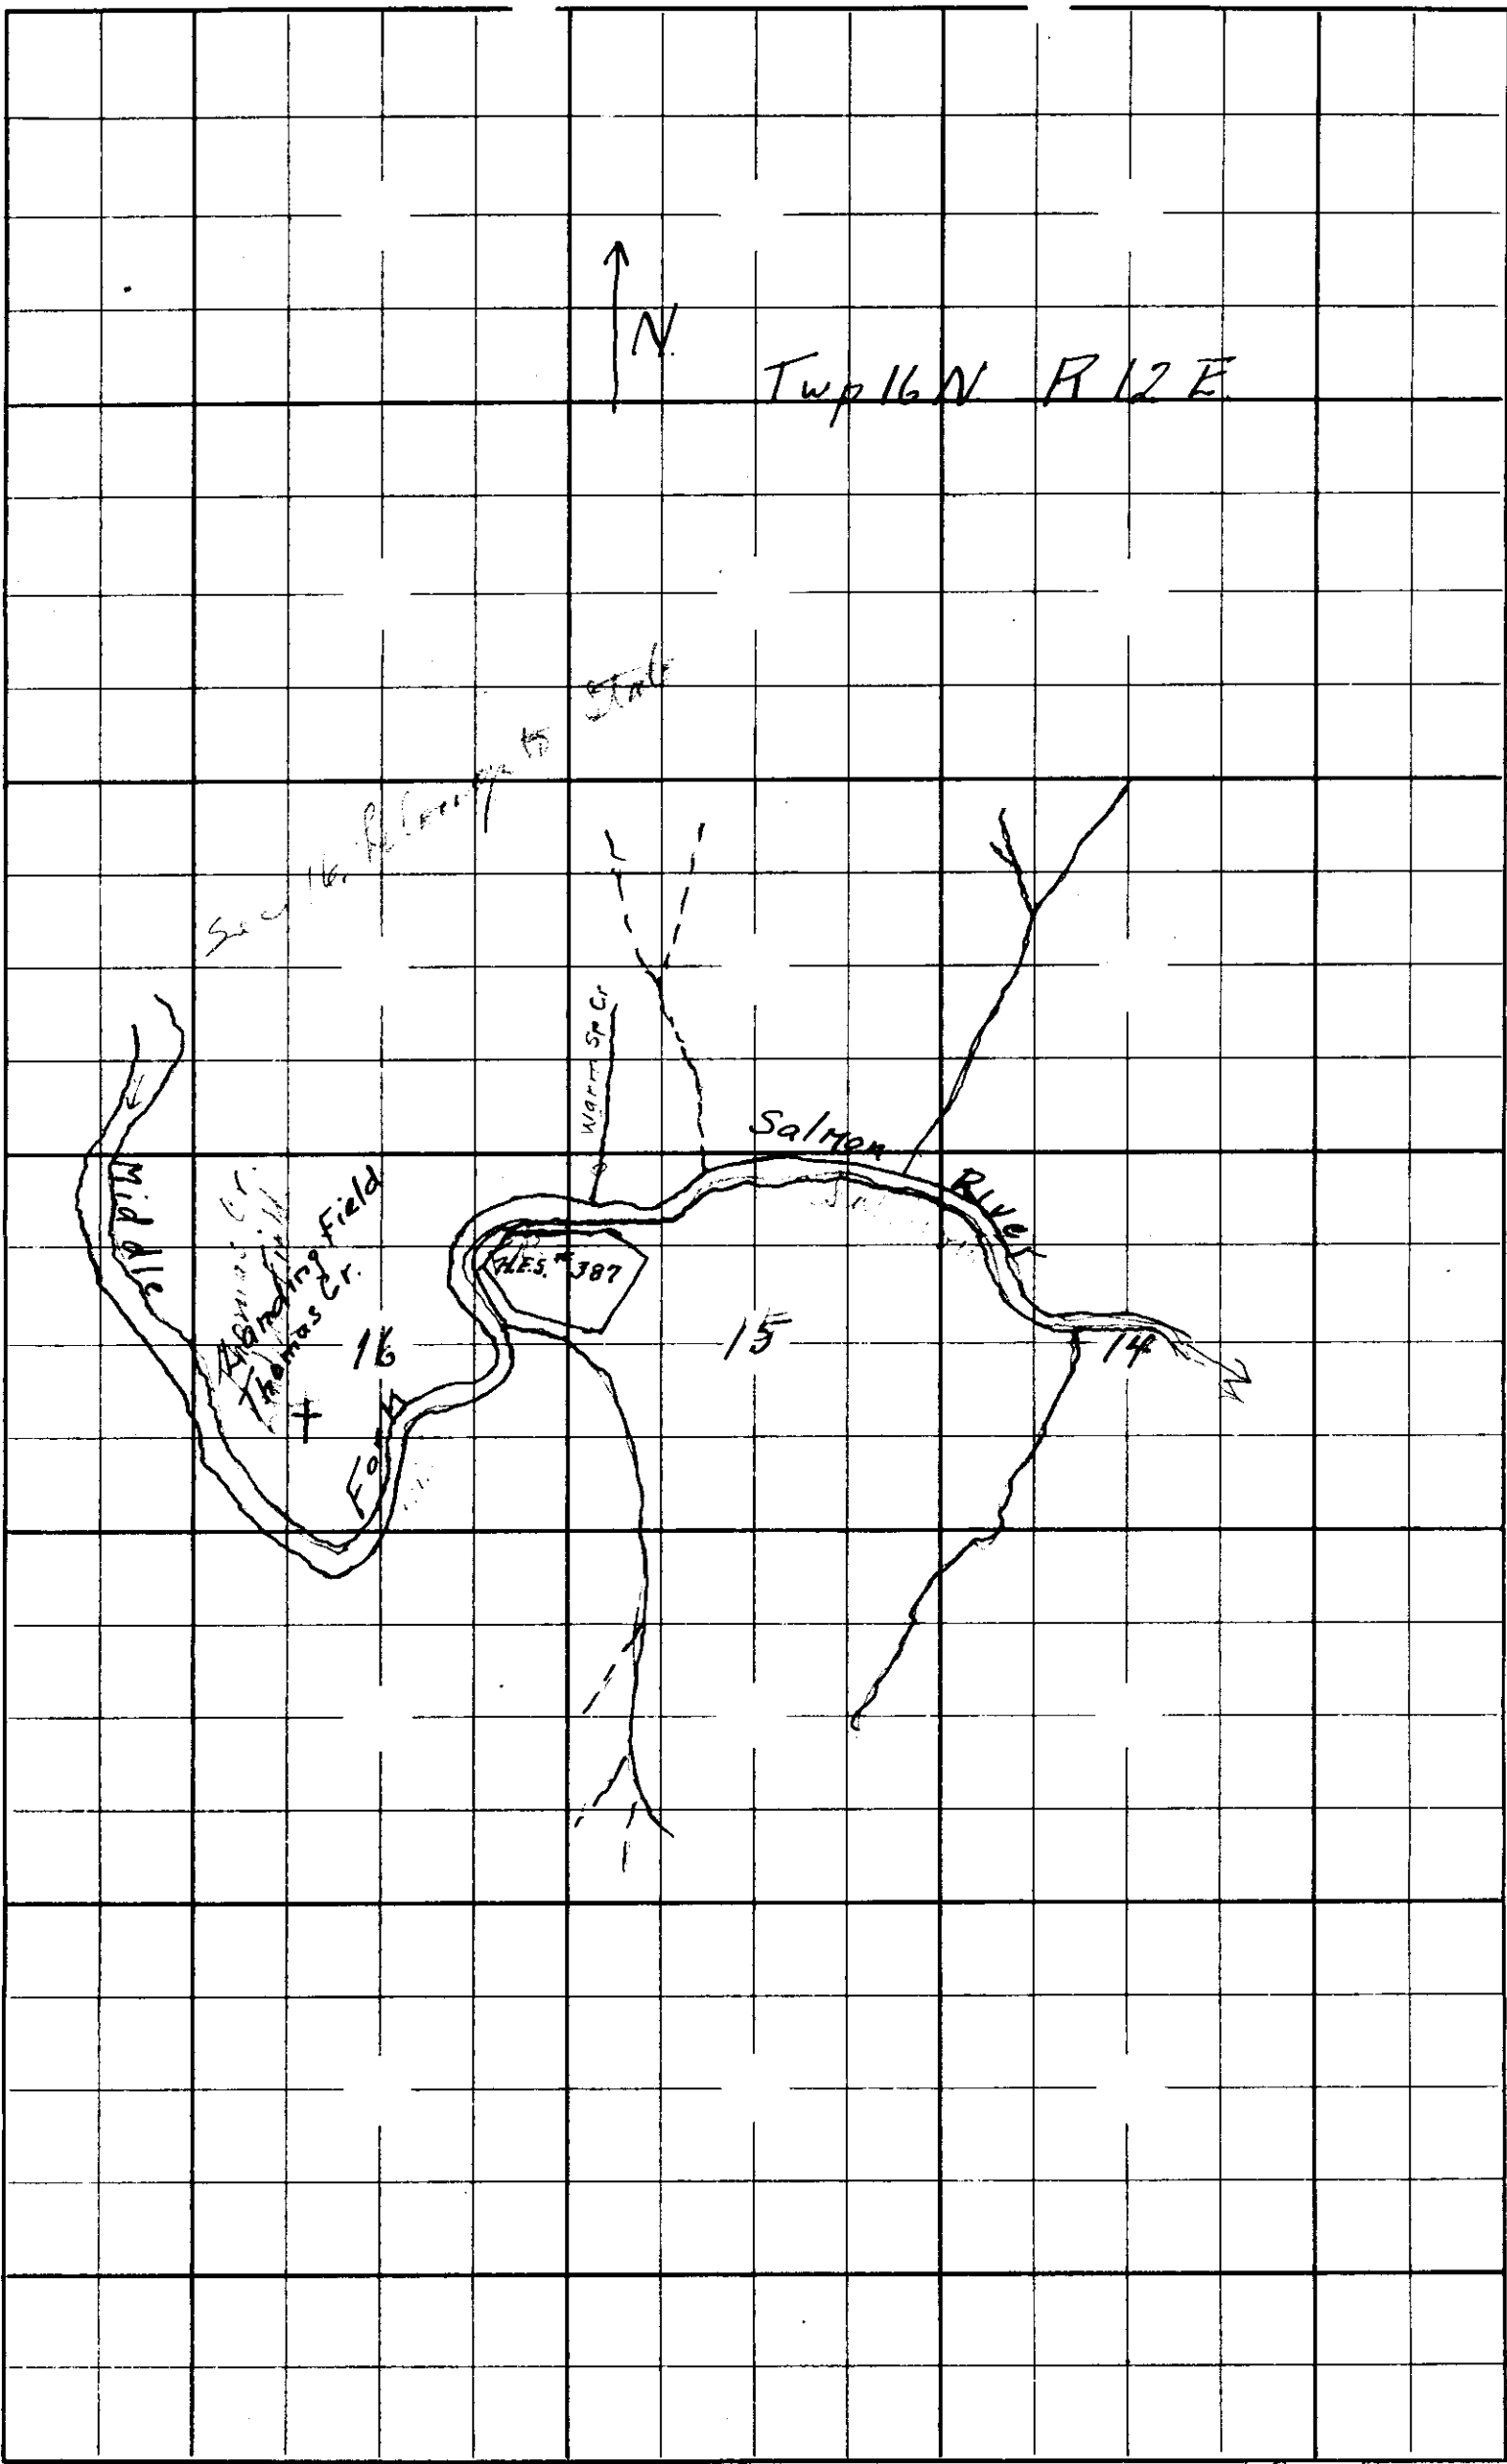

From a corner established by the State Game Dept. which is supposed to be the corner of Sec 8-9-15-16 could not find original corner. From said corner N 70° E 1/4 to Hot Springs, there is no headgate only a dirt check. The ditch is 12 inches wide & 10 in deep. runs from point of diversion 1180 ft South westerly at which point a two in pipe leads in to house which is used for household use, the ditch continues to run South westerly 25 ft at which point the water is used for irrigation. When Mary Hood lived here water they had the school Sec. No leased from the State land office, they disposed of same and the Idaho State Game Dept brought the said section back and they are using the water. The woman died at time of investigation.

Dear Mrs. Hood:

We are in receipt of your letter of March 11th regarding the inspection to be made by our field engineer, Fred A. Tolman. The statutes require that an inspection be made by our engineer before a license can be issued. He will call on you sometime next summer. He has been in your territory several times on inspections.

Very truly yours,

Dear Madam:

Permit #18689

I have your letter of the 4th with
regard to the papers sent in recently.

You mention the necessity of having
your Engineer inspect the works. Is it possible
that your office does not realize how difficult
and what an expense such a trip would be. This
time of year, and until the last of June at any
rate, it would be necessary for him to ride by
horse for two days in order to reach the ranch
or else make the trip by plane. In the summer,
he would have to make a long drive and then use
a horse for a day. We are always twelve miles
from the nearest road.

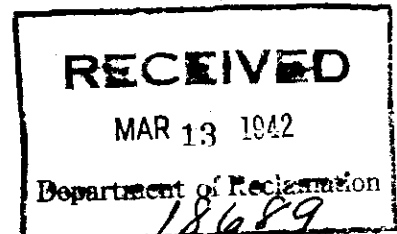

Of course if the project were one of
size and importance instead of what it is - merely
for personal use on a small scale, the expense
might be justified, but Mr. Hood and I cannot see
where it is necessary where you have the affidavits
of two realisable, uninterested persons to the effect
that the project is completed that it would be either
necessary or patriotic to waste the money on such a
trip.

Please give this matter your consideration
before taking any further steps.

Sincerely,

May M. Hood

Mrs. Mary M. Hood
Challis, Idaho

Dear Mrs. Hood:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Cascade News, all in connection with Beneficial Use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof. Upon receipt of your check, a license will be issued.

Very truly yours,
E. V. BERG.

Dear Mrs. Hood :

We are enclosing the necessary papers to fill out so that the notice may be published in a Valley County newspaper for the proof of Beneficial Use on the above numbered permit which has been recorded in your name. The publication must be made in the County in which the point of diversion lies, but proof may be made before a Notary Public in Challis--any Notary of your choice. Better allow five weeks before the date set to make proof at Challis to allow for transit in mail and the four weeks for publication. We will fill in the priority date, as it must be determined from the date set for proof.

Dear Mrs. Hood:

Our letter of March 5th stated that the proof to be made was for Beneficial Use and the inclosed forms were for Beneficial Use intention.

Before answering your letter of February 22nd, we obtained an opinion from the Attorney Generals' office to the effect that you could not sign for your husband's proof, he must sign himself--regardless of the time or place.

Dear Madam:

Re: 18689

I have your letter of the 5th and have talked with one Notary Public here and he agrees with me that my having Power of Attorney from my husband, recorded in Ada County as No. 183530, should entitle me to sign the Beneficial Use proof. However, he says that he believes it is customary in these water cases to have some witnesses so I cannot set the date until I hear from you as to whether this is necessary so I may have the witnesses on some certain date. Will you please let me know what the rules are with regard to this so I may send you the notice for publication.

We have realized that we should have signed these papers some time ago but as we have been living where it was impossible to get to a Notary, we had to let the time pass.

I asked you in my previous letter just what proof was necessary to be made and you evidently overlooked this. Will you please let me know now so I may be prepared?

Thanking you for your courtesy, I am

Dear Mrs. Hood:

Beneficial Use proof should have been made on or before May 10, 1940. Mr. Hood may declare his intention to make proof at any time it is convenient to appear before a Notary Public, but he must sign the depositions himself.

We are inclosing the proper forms to be used. The longer he waits the more his priority date will be moved up. His priority date was August 25, 1938--he will have lost a year by May 10, 1941 or a priority date of 1939.

Gentlemen:

Some time ago we received a notice from you to the effect that Mr. Hood must appear before a Notary in order to complete the proof of his work done under your Permit No. 18689. He has been unable to set any time so the notices might be published as he is seldom where there is a Notary. However, I have his Power of Attorney and am now in Challis for several months. So you may make publication at this time and set the date at which time I shall appear before John Boyd of Challis to make this proof.

Will you please tell me what it would be necessary for me to do at that time as I know nothing about such things. I do know the work is completed and can swear to such fact. Also what fees will it be necessary to pay to the State at that time so I may have the money ready. The notices will have to be published in the Cascade paper, I believe, so please let me know just what date you insert.

I thank you for your patience in this matter and hope we can get it settled soon.

Sincerely,

Dear Sir:

We once more remind you that your Beneficial Use
proof under Permit No. 18689, which was due May 10th last,
has not been made.

This department had some correspondence with you last May
in regard to the notice required to be published for four
weeks prior to making this proof, and our last letter, dated
May 29th, still remains unanswered.

Your original date of priority was August 26, 1938, but as
we have previously informed you, it will have to be set forward
the length of time that elapses between May 10, 1940, and
the date beneficial use proof is actually made.

Re: Permit No. 12000

Mr. Milton Hood,
Cassida, Idaho.

Dear Sir:-

We are this morning in receipt of your authorization to publish in the Cassida News your notice of intention to make beneficial use of water under the above numbered permit.

However, you have failed to answer our inquiry as to the place where this water will be used, the name of the Rotary Public, and the date all of which is necessary before the notice can be published.

We know it is difficult for mail to reach you, so we are sending copies of this letter to Cassida and Pomeroy both, so as to avoid any misunderstanding.

In setting the date, better make it at least forty days ahead of the time you wish to use the water so that there will be ample time for the four weeks publication.

As this permit was due on May 15th, it is already past due and of course your permit will have to be stopped up the length of time that elapses between May 15th and the date your permit is actually made. For this reason it is important that the matter be given your prompt attention.

Mr. F. A. Mark,

Boise, Idaho.

Dear Mr. Mark:-

We have before us your letter of May 9th, enclosing certain papers in connection with beneficial use proof under the above numbered permit in the name of Milton Hood, of Canada, Idaho.

These notices are incomplete, in that they do not give the name of the Notary Public, nor do they name the date or place, for the taking of the depositions; neither is the authorization to publish the notice in the Canada News signed by the applicant.

The final date for making this proof is May 10th, as per letter addressed to Mr. Hood on March 8th. However, the law provides that if the proof is made within thirty days after this final date, the priority may be retained.

For that reason it is important that this additional data reach this office immediately, as the publication must start with next week's issue of the paper, if the four weeks' publication is to be completed prior to June 10th; otherwise, the date of priority will have to be set forward the length of time the proof is past due.

We are sending a copy of this letter to Mr. Hood, hoping to expedite matters, and are enclosing him another form of authorization for his signature.

I have tried to call you at your office, as suggested in your letter, but was told that you were out of town today.

PROOF OF COMPLETION OF WORKS

Milton Hood
Cascade, Idaho

Boise, Idaho, **September 7, 1939**

Dear Sir:—

Under the terms of your permit No. **18689** you are required to complete your diversion works on or before **November 10, 1939**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
