INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Hamilton,

I talked to you on the phone concerning a water right on Warm Springs Creek. You advised to send down the information on the property and you would look up the rights and send back to me.

The property I would like the information on is The Riggins Hot Springs Inc. Riggins, Idaho. Section 14, Township 24 N, Range 2 E BM, Idaho County.

Stream, Warm Springs Creek.

If the rights are recorded in name of persons, it could be under, A. Casner, Basil Wiggins, Bob Salters, or Charles Wunch, who have been owners in the past years.

Would like to know volume of water filed on and other particulars of the rights.

Sincerely,

Martha Heath

RE: Permit No. 18656

Mr. A. A. Casner, Vice President
Riggins Hot Springs, Inc.
Riggins, Idaho

Dear Mr. Casner:

We return your application for amendment to the point of diversion in Permit No. 18656, which has been approved by the State Reclamation Engineer and recorded in this department.

We also enclose License and Certificate of Water Right, issued under this permit, confirming the right of the Riggins Hot Springs, Inc., to the use of 0.34 second foot of water from Mill or Warm Springs Creek, with priority of July 19, 1938, and point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 14, Township 24 North, Range 2 East, B.M., for irrigation and domestic use on Lots 4 and 5 of said Section 14.

We also enclose departmental receipt No. 24851 for the \$5.00 license fee.

Mr. A. A. Casner, Vice-President
Riggins Hot Springs, Inc.
Riggins, Idaho

Dear Mr. Casner:

In reply to the enclosed letter, we are in receipt of a check from Alma Wiggins, for the \$5.00 fee referred to therein for the issuance of a license on Permit No. 18656.

However, in checking this permit farther, we note that the point of diversion is described as being in the NE¹₄ NE¹₄ Section 14, Township 24 North, Range 2 East, B.M., which is evidently the point of diversion from Allison Creek. However, your proof is made from Mill Creek or Warm Springs Creek with point of diversion located in the SE¹₄ SE¹₄ Section 14, Township 24 North, Range 2 East, B.M.

It will therefore be necessary for you to amend the permit before license is issued, and we enclose a form of application for amendment herewith.

Dear Mr. Casner:

We are in receipt of your reply to office letter addressed you in regard to ~~My~~ ~~MM~~ Section 23, Township 24 North, Range 2 East, B.M., and shall include this in the proofs of beneficial use submitted under Permit No. 18676.

This completes your proof, but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Riggins Hot Springs, Inc.
C/o A. A. Conner, President
Riggins, Idaho

Boise, Idaho, June 1, 1951

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 18656

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before August 10, 1951. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Gentlemen:

We acknowledge receipt of your letter of February 18th, 1944, in reply to notice of cancellation of the above numbered permit, and note your request for an extension of time within which to complete your works, on account of your inability to obtain the necessary materials.

The 1945 legislature passed a bill in provision for extension under certain conditions, and we enclose a summary of this bill herein.

We also enclose a form of application for such extension, which you may execute and return to this department.

You will note that this law calls for the publication for two weeks of a notice of such application for extension, which notice will be made out in this department, in form similar to the enclosed.

We also enclose for your signature form No. 11, which is your authorization for us to have the notice published at your expense in a newspaper to be designated by you in the county where the water is located. This should be returned to this Department along with your application for extension.

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. **18656**.....

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof **MUST** be on or before **August 10, 1943**. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

JAMES SPOFFORD

Riggins, Idaho

Dear Mr. Casner:

I wish to acknowledge receipt of your letter of January 23 asking for an extension of time for completion of work under your Permit #18656.

In checking our records we note that your original application only asks for two and one-half years within which to make proof of completion of work, whereas the statutes allow up to a maximum of five years if necessary. We are, therefore, including an application for extension of time which you may execute for the length of time which you think you will require up to the limit of time, which would be until August 10, 1943. This application should then be returned to the department for approval.

Yours truly,

Roy W. Thompson
Deputy Commissioner of Reclamation
