Mr. Joe Davis

Dear Mr. Davis:

As I recently promised you, the Lick Creek water filing records show that your filing, Permit No. 16923, was duly examined, and you were given a license for 0.20 second foot, or ten miner's inches of the waters of Lick Creek.

In regard to other filings, upon this stream, there has been only one permit (that of N. A. Edwards, Permit No. 14518) other than your own; and that one was examined, as you know, and was awarded 0.14 second foot or seven miner's inches.

Should you desire an additional amount of water it will be necessary for you to make a new filing in the same manner as before.

Dear Sir:-

We are in receipt of your letter of the 7th inst., enclosing depositions of holder and witnesses, also, the affidavit of publication, for proof of beneficial use of water under the above permit. These have been checked and are in proper form and will be placed on file here without final action until the examination and report can be made by our field engineer. You will then be further advised as to fees due before issuing the license.

The fees, I might add, will be \$2.00 for each legal subdivision of forty acres, or fraction, irrigated as shown by the engineer's report.

Very truly yours,

Re: Permit No. 16923.

Mr. Joe Davis
Warren, Idaho

Dear Sir:-

We are herewith returning you the notices heretofore received from you in the matter of proof of beneficial use of water under your above permit. You will notice that, on April 27th, you mailed notice to publish the proof in the Cascade News so the blank received by us today, dated June 25th, is not necessary.

If you are ready now to proceed with this proof, you should complete Form 10 as to the date you wish to make proof, allowing time for the required five publications of the notice, the name of the place where your proof will be made and the name of the notary public, or other officer, before whom proof will be made. It will be necessary for us to have this information before notice can be sent to the paper for publication.

Very truly yours,
R. W. FARIS
Commissioner of Reclamation.

Re: Permit No. 16923.

Jon Davis,
Warren, Idaho.

Dear Sir:-

Referring to your letter of the 27th ult., just received, would say that, in view of the fact that you intend to get a court decree to establish your priority, I would suggest that you defer publication of notice of proof under your permit until a later date. Your notices and correspondence will be placed on file here under your permit number.

Very truly yours,
R. W. FARIS

Re: Permit No. 16923.

Mr. Joe Davis
Warren, Idaho

Dear Sir:-

Referring to your letter of the 31st ult. would say that the only way you could establish an earlier priority than the date of receipt of your application in this office would be by court decree. The record of your permit shows the application to have been received here July 6, 1928, hence your priority under the permit could not date prior to that time, regardless of the fact that you had used the water in 1924.

The license will be issued for the amount of water actually used, allowing an inch to the acre for the land actually irrigated, as shown by the report of our field engineer.

The depositions of the holder and witnesses for proof of beneficial use of water under Permit 14518 are already in and the field examination will be made later in the season.

We are enclosing you herewith a blank notice of proof filled out with the exception of the date. If you will insert the date upon which it will be convenient for yourself and two witnesses to appear before the notary public and fill out the deposition blanks which will be furnished him later and return the notice to us, a copy will be mailed to the paper to be designated by you in blank form No. 11, also enclosed. The notice is required to be published for a period of four weeks prior to the date of making proof. Notice must be published in some paper published in the county in which the land is located.

Very truly yours,
GEO. N. CARTER

Dear Sir,

Find enclosed, Notice of
Proof applications of water
to Beneficial use. As I have
been using this water since
(1924) for Irrigation Purposes,
I would like to know if
that would establish my
prior right over Mr.
Edwards, re permit.

As his proof of Beneficial use
of water was extended to Feb
3rd 1931 which has not been
applied to according to permit No.
14518. over 16923

He has used this water for
but only about one acre an (10) years.
As I have complied to the provisions
of my Permit, before I asked
for my Permit, as there will
be a field man in this
section, Wouldn't it be
advisable to have look this
thing over, then we can fix
the date for notice of publication.
