NOTICE FOR PUBLICATION

Notice of Proof Application of Water to Beneficial Use.

Notice is hereby given that at 9:00 a. m. on the 14th day of June, 1934, at Salmon, County of Lemhi, State of Idaho, before J. A. Herndon, notary public, proof will be submitted of the application to beneficial use of 2.4 cubic feet per second of the waters of Brush creek in accordance with the terms and conditions of Permit No. 16899 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person holding said permit is George D. Crandall, Meyers Cove, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 2.4 cubic feet per second.

The place where said water is used is 25 acres of lots 6 and 7 and 50 acres of lots 2 and 3, Sec. 27, Twp. 19 N., R. 14 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. 16899.

The source of supply from which such water is diverted is Brush creek, which is a tributary of Middle Fork of the Salmon River, Valley County, Idaho.

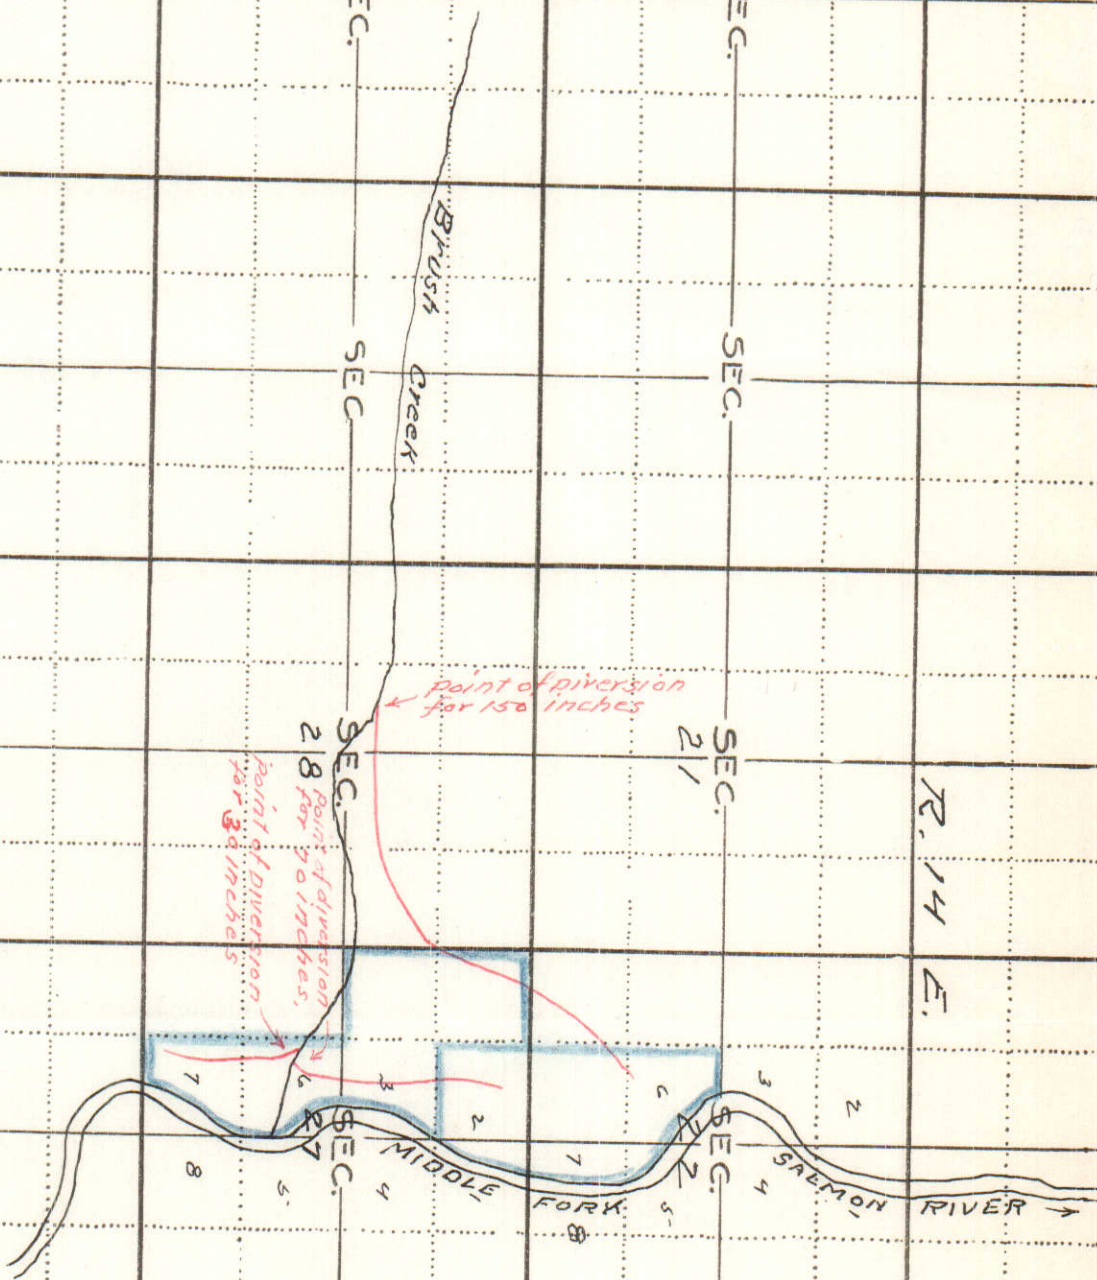

The date of the priority which said user is prepared to establish is June 5, 1928.

MR. J. A. HERRNDON, Agent
Salmon,
Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact Mr. Crandall at the time set for examination so that he may show him over the grounds. After his report is on file in this office the permit holder will be further notified as to fees due before the issuance of his license.

Dear Sir:

This will acknowledge receipt of Mr. Grandall's notice for publication in connection with beneficial use proof under the above permit. He failed to designate the newspaper in which he desired publication and we are, therefore, taking the liberty of having it published in the Recorder Herald in Salmon, Idaho. A copy of the notice has gone forward with proper instructions for its publication once a week for four consecutive weeks prior to June 14th which is the date set for offering proof.

About June 5th we will mail the necessary depositions so that you will have them in ample time for this proof. After the depositions have been properly executed, please mail them to this office with an affidavit of publication from the newspaper.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 9:00 a. m. on the 14th day of June, 19 34,
at Salmon, County of Lemhi, State of Idaho,
before J. A. Herndon, Notary Public, proof will be submitted
of the application to beneficial use of 2.4 cubic feet per second of the
waters of Brush Creek in accordance with the terms and conditions of
Permit No. 16899 heretofore issued by the Commissioner of Reclamation
of the State of Idaho.

The name and postoffice address of the person ~~authorized~~ holding said permit ~~is~~ is
George D. Grandall, Meyers Cove, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 2.4 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) 25 acres of lots 6 and 7 and 50 acres of lots 2 and 3, Sec. 27, Twp.
19 N., R. 14 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use
is private ditch.

The right to take water from such works is based upon Permit No. 16899

The source of supply from which such water is diverted is Brush Creek, which is a tributary
of Middle Fork of the Salmon River, Valley County, Idaho.

The date of the priority which said user is prepared to establish is June 5, 1933.

RE: PERMIT NO. 16899

MR. GEORGE D. CRANDALL
Myers Cove,
Idaho

Dear Sir:

Further reference is made to the matter of an extension of time in which to apply the water claimed under the above mentioned permit to beneficial use.

When you received notice from this department some six weeks ago to the effect that proof would be due under your permit on June 14, 1933, you replied by saying that you would not be able to offer this proof by that date, and you asked for an extension of time. We responded by mailing a blank with a letter informing you that you should go before a notary public, make out the application blank, and return it to this department before June 14. You did not return the blank, and shortly afterward you mailed a notice for publication, we presumed with the idea of going ahead with your proof at that time. Since there was not sufficient time for the publication prior to the date when your proof would be due, we mailed another blank to you and attempted to explain the situation. There now remains only a few days until the date when your proof will be due, and therefore if you are to obtain an extension of time under this permit, your application must be in this office before that date.

There is no reason why you cannot have an extension of time under the permit, since the law provides that one may have six years from the date when proof of completion of works is due until the time when the water must be applied to beneficial use. At the time of the approval of your permit you asked for only two years in addition to the time asked for completion of works in which to make beneficial use of the water.

If you do not obtain this extension you will suffer a loss of priority.

RE: PERMIT NO. 16899

MR. GEORGE D. GRANDALL
Meyers Cove, Idaho

Dear Sir:

We have your letter of May 8 accompanied by your notice for publication of proof of application of water to beneficial use in connection with the above permit. A short time ago we had a letter from you in response to our notice that beneficial use proof would be due on your permit on June 14, to the effect that you would be unable to make proof within the time specified in the permit, and that you would therefore like to have this date postponed. Since you asked for only two years in which to apply the water to beneficial use a further extension can be granted under your permit. We mailed the blank upon which you should make application for an extension of time several days ago, but you did not return it.

Since you mailed us the notice for publication, you evidently changed your mind regarding the extension of time, and are now desirous of offering this proof at the present time. As you know there is not sufficient time for the publication before June 14, and therefore as you did not make application for an extension of time your proof would be late and there would necessarily be some loss of priority. There is still ample time in which to make application for this extension, and we are enclosing another blank for that purpose with the idea that you might have lost the first one we mailed to you. It is our suggestion that you go before a notary public or some other official who is empowered to administer oaths and make out this application and return it prior to June 14. It is suggested that you ask for at least one year's extension.

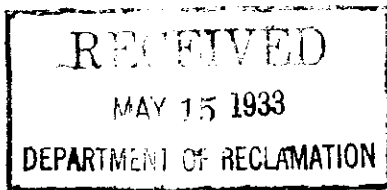

Should you comply with this suggestion there is nothing to prevent you from offering proof before the date when such proof would be due. If, on the other hand, you did not offer the proof until the date when it would be due under the extension of time your priority would still be protected.

With reference to your statement concerning the location of Brush Creek and lands you are irrigating under this permit being in Valley County instead of Lemhi County, it is our suggestion that you make an affidavit to the effect that the lands and the creek were incorrectly described as being in Lemhi County at the time when you made your application for permit, and that you desire to have the record corrected to show the true location.

Very truly yours,

Attention Mr. R. W. Faris

Dear Sir:

I am returning herewith a filled in "Notice for Publication of Proof of Application of Water to Beneficial Use", covering Permit No. 16899.

You will note that I have set the date for final proof on July 15, 1933 which will allow the required 60 days to elapse from your receipt of this inclosure.

In checking over my various documents concerning this water right ei. (Application for Permit No 23865, and Permit No 16899), I note that Brush Creek, the stream from which the water is diverted, and Lots 2, 3, 6, and 7 of Sec. 27, Twp. 19 N, R 14 E, B.M., the land upon which the water is used, is described as being in Lemhi County. My Post Office address is Meyers Cove which is in Lemhi Co, but the property referred to is on the West side of the Middle Fork and hence in Valley County.

RE: PERMIT NO. 16899

MR. C. D. GRANDALL
Meyers Cove,
Idaho

Dear Sir:

We are in receipt of your communication of the 5th inst. in which you acknowledge receipt of our notice to the effect that proof of application of water to beneficial use will be due on your permit on June 14, 1933. You say that you will be unable to offer this proof until some time in June due to the fact that you will be unable to get across the river until that time.

At the time your permit was granted you asked for only two years in which to apply the water to beneficial use. The statutes provide that a permit holder may have six years from the date when the proof of completion of works is due in which to prove beneficial use. Therefore you are entitled to an extension of four years more if you desire it. We accordingly are enclosing a blank upon which you may make application for such extension.

Should you get an extension of time for two years, there would be nothing to prevent you from offering proof at an earlier date providing you wished to do so.

This blank should be properly made out before a notary public and returned to this office before June 14.

Dear Sir:-

Referring to your letter of the 9th inst. would say that it was an oversight in this office in mail-out the notice for proof of completion of works under the above permit, as the proof had already been made and accepted. These notices are mailed out the first of every month and this one had not been taken off the list when made. We were under the impression that the holder had been advised of this fact, but we find no copy of a letter mailed to him. We regret very much that the oversight occurred and has caused the holder so much anxiety.
