**NOTICE OF APPLICATION FOR
WATER RIGHT**

The Following application (s) have
been filed to appropriate the public
waters of the State of Idaho:

75-07658
CAPPS, CINDY L
HC 61 BOX 161A
SALMON, ID 83467
Source: MCKIM CREEK
Tributary: SALMON RIVER
Diversion Pt: NWNWSW Sec 16 T
17NR 20E in LEMHI County.
Use: DOMESTIC (0.040 CFS)
Total Diversion: (0.040 CFS)
Date Filed: 6/17/1998

In: LEMHI County
T17NR20ES16NWSW

Any protest against the proposed
application must be filed with the De-
partment of Water Resources, 900 N
Skyline Dr., Ste A, Idaho Falls, ID, 83402,
together with a protest fee of \$25.00 on
or before JULY 20, 1998. To be consid-
ered by the Department in its decision
to grant or deny any part of the pro-
posed application. The protestant must
also send a copy of the protest to the
applicant.

MORATORIUM ORDER

The Director of the Department of Water Resources ("Director"), having responsibility for the administration of the appropriation of water in the State of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state, and the conservation of the water resources of the state, enters the following Findings of Fact, Conclusions of Law, and Final Order.

FINDINGS OF FACT

1. On April 30, 1993, the Director issued an Amended Moratorium Order that stopped the approval of certain applications seeking to appropriate surface water within the Salmon and Clearwater River Basins in Idaho.
2. On December 13, 1993, the United States filed Notices of Claim in the Snake River Basin Adjudication ("SRBA") for federal reserved water rights for the Selway-Bitterroot, Gospel-Hump, and Frank Church-River Of No Return wilderness area designations. On February 27, 1997, a motion to amend the Notices of Claim for all three wilderness area designations was filed with the District Court of the Fifth Judicial District of the State of Idaho (the "SRBA district court") to change the claimed priority dates.
3. As amended, pertinent portions of the claim filed in the SRBA for a federal reserved water right for the Selway-Bitterroot Wilderness are as follows:

Identification Number: A31-11191
Name of Claimant: United States of America

MICROFILMED
FEB 22 2000

Date of Priority: September 3, 1964, except for Magruder Corridor that has priority date of July 23, 1980

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Selway-Bitterroot Wilderness. This claim is intended to also include those sources of water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Lochsa and Selway Rivers.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Selway-Bitterroot Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Selway-Bitterroot Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, September 3, 1964.

4. As amended, pertinent portions of the claims filed in the SRBA for federal reserved water rights for the Gospel-Hump Wilderness are as follows:

Identification Numbers: 77-12774, 82-11120

Name of Claimant: United States of America

Date of Priority: February 24, 1978

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Gospel-Hump Wilderness. This claim is intended to also include those sources of

water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Salmon River.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Gospel Hump Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Gospel-Hump Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, February 24, 1978.

5. As amended, pertinent portions of the claims filed in the SRBA for federal reserved water rights for the Frank Church-River of No Return Wilderness are as follows:

Identification Numbers: A75-13605, A77-12775

Name of Claimant: United States of America

Date of Priority: July 23, 1980

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Frank Church-River of No Return Wilderness. This claim is intended to also include those sources of water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Salmon River.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Frank Church-River of No Return Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Frank Church-River of No Return Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, July 23, 1980.

6. On December 18, 1997, the SRBA district court issued *Order Granting and Denying United States' Motions for Summary Judgment on Reserved Water Rights* for claims made by the United States under the Wilderness Act, Multiple-Use Sustained-Yield Act ("MUSYA"), and Hells Canyon National Recreation Area Act ("HCNRA"), referred to herein as "1997 SRBA Reserved Rights Order." In this order, the SRBA district court ruled that: "The United States is entitled to a federal reserved water right for all unappropriated flows in the Frank Church-River of No Return, the Selway-Bitterroot, and the Gospel-Hump wilderness areas." (1997 SRBA Reserved Rights Order, p. 5). The SRBA district court emphasized its ruling by stating: "The amount of water minimally sufficient to fulfill Congressional intent is the total amount of unappropriated water within each [wilderness] area, such that none is ever available for future appropriation." (1997 SRBA Reserved Rights Order, p. 15, emphasis added).

7. On July 24, 1998, the SRBA district court issued *Memorandum Decision Granting, In Part, and Denying, In Part, the United States' Motion for Summary Judgment on Reserved Water Rights Claims* for claims made by the United States under the Wild and Scenic Rivers Act, referred to herein as "1998 SRBA Wild and Scenic Decision." In this decision, the SRBA district court ruled that under the Central Idaho Wilderness Act, the United States " ... reserved land north and south of the Mainstem of the Salmon River as wilderness, thereby reserving all unappropriated flows of water in the Mainstem" referring back to the 1997 SRBA Reserved Rights Order in a footnote. (1998 SRBA Wild and Scenic Decision, p. 7, emphasis added). The SRBA district court noted that "Congress declared that the Mainstem of the Salmon River [that segment of the main Salmon River designated as a component of the Wild and Scenic Rivers System] would be administered solely under the Wild and Scenic Rivers Act, not the Wilderness Act." However, the SRBA district court did not describe any limitation on the reservation of unappropriated flows, nor did the court distinguish between that segment of the main Salmon River designated as Wild and Scenic and that segment adjacent to the Gospel-Hump and Frank Church-River of No Return Wilderness Areas that lies downstream of the Wild and Scenic designation.

8. On October 1, 1999, the Supreme Court of the State of Idaho issued 1999 Opinion No. 113 in the case of *Potlatch Corp. et al. v. United States of America* affirming the 1997 SRBA Reserved Rights Order granting the United States reserved water rights for all unappropriated water in the Frank Church-River of No Return, the Selway-Bitterroot, and the Gospel-Hump Wilderness Areas.

9. As of the date of this Order, there are approximately 60 pending applications for permits to appropriate surface water and ground water in the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas, and areas tributary to the wilderness areas. In addition, approximately 90 permits to appropriate water have been issued in these areas for which proof of beneficial use has not yet been submitted.

10. Although the SRBA district court has not issued final decrees for federal reserved water rights in the Selway-Bitterroot, the Gospel-Hump, and the Frank Church-River of No Return Wilderness Areas, the Supreme Court's decision of October 1, 1999, once final, will preclude future appropriations of water within the wilderness areas and in areas tributary to the wilderness areas.

CONCLUSIONS OF LAW

1. The Director is responsible for the allocation of water for new uses in Idaho. Section 42-203A(5), Idaho Code, reads in pertinent part as follows:

... In all applications whether protested or not protested, where the proposed use is such (a) that it will reduce the quantity of water under existing water rights, or (b) that the water supply itself is insufficient for the purpose for which it is sought to be appropriated, or (c) where it appears to the satisfaction of the director that such application is not made in good faith, is made for delay or speculative purposes, or (d) that the applicant has not sufficient financial resources with which to complete the work involved therein, or (e) that it will conflict with the local public interest, where the local public interest is defined as the affairs of the people in the area directly affected by the proposed use, or (f) that it is contrary to conservation of water resources within the state of Idaho; the director of the department of water resources may reject such application and refuse issuance of a permit therefor, or may partially approve and grant a permit for a smaller quantity of water than applied for, or may grant a permit upon conditions. (emphasis added)

2. The Director is authorized under the provisions of Section 42-1805(7), Idaho Code, as follows:

MICROFILMED

FEB 22 2000

After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of the minimum flow provisions of the state water plan.

3. The claims filed by the United States in the SRBA for federal reserved water rights for all unappropriated water in the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas did not limit the claimed amount to unappropriated water arising solely within the wilderness areas as of the date the wilderness areas were reserved, nor did the claims include subordination to existing permits to appropriate water having junior priority dates for private holdings within the wilderness areas. Neither the 1997 SRBA Reserved Rights Order nor the Idaho Supreme Court decision affirming the 1997 SRBA Reserved Rights Order limited the federal reserved water rights to unappropriated water arising solely within the boundaries of the wilderness areas. Therefore, both the SRBA district court and the Idaho Supreme Court have included unappropriated water flowing into the wilderness areas, either above or below land surface, as part of the unappropriated water "in" or "within" the wilderness areas.

4. Neither the 1997 SRBA Reserved Rights Order, the 1998 SRBA Wild and Scenic Decision, nor the Idaho Supreme Court decision affirming the 1997 SRBA Reserved Rights Order excluded portions of the Middle Fork of the Salmon River, the South Fork of the Salmon River, or Big Creek lying upstream of the wilderness area boundaries, or clearly excluded the Mainstem of the Salmon River, from being considered as sources for unappropriated water "in" or "within" the wilderness areas as of the date the wilderness areas were reserved.

5. Although petitions for rehearing are pending before the Idaho Supreme Court, a moratorium on the granting of new permits to appropriate surface water or ground water and on continued development under existing permits is necessary. A moratorium will preserve the status quo until final decrees are issued for federal reserved water rights and limit the potential for resources being expended to develop water rights for which no unappropriated water may be available.

6. Because this moratorium order is issued to preserve the status quo, the order should take effect immediately upon issuance to protect the public interest in accordance with the provisions of Section 67-5247, Idaho Code.

ORDER

IT IS, THEREFORE, HEREBY ORDERED that the prior Amended Moratorium Order of the Director issued on April 30, 1993, remains in effect and the requirements listed below also apply.

IT IS FURTHER HEREBY ORDERED that a moratorium is established on the processing of applications for permits to appropriate surface water or ground water within and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church-River of No Return Wilderness Area, subject to the following conditions:

1. This moratorium order shall be in effect on and after its entry and shall remain in effect until withdrawn or modified by order of the Director, except as provided herein.
2. This moratorium order applies to all applications for permit, previously filed or to be filed, and all existing permits for which proof of beneficial use has not been filed with the Department, seeking to appropriate surface water or ground water within the Salmon River Basin upstream from the location where the Salmon River leaves the Gospel-Hump Wilderness Area in Section 3, T24N, R4E, B.M. and in the Clearwater River Basin upstream from the location where the Selway River leaves the Selway-Bitterroot Wilderness Area in Section 7, T31N, R10E, B.M. The wilderness areas and tributary areas affected by this moratorium order are depicted on the attached map.
3. This moratorium order does not apply to any application proposing a non-consumptive use of water.
4. This moratorium order does not prevent the Director from reviewing an application that otherwise would not be approved under terms of this moratorium on a case by case basis, if the Director determines that the use of the water pursuant to the application would have no effect on other water rights due to:
 - (a) the location of use; or
 - (b) the effect on other water rights would be offset through mitigation provided by the applicant.

MICROFILMED

FEB 22 2000

5. The holders of all existing permits to appropriate water within the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas, and within areas tributary to those wilderness areas, shall upon receipt of this moratorium order immediately stop further development under the permit, and within sixty (60) days of receipt of this order do one of the following:

- (a) file proof of beneficial use documenting the extent of diversion and beneficial use of water that was completed prior to receiving this moratorium order; or
- (b) request a stay in the development period under the permit, in accordance with Section 42-204, Idaho Code, until the conditions that resulted in this order have been alleviated, if such should ever occur.

Dated this 26th day of October, 1999.

PROOF OF BENEFICIAL USE

Department of Water Resources
Eastern Region

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 75-07658 Telephone No. NONE

2. Name(s) of Permit Holder(s): CINDY L. CAPPS

3. Mailing Address: HC-61 Box 161A Salmon ID 83467

4. Source of Water: McKim Cr. If **GROUNDWATER** (well), Date Drilled: mo. / yr.

a. Well Driller: N/A Drilling Permit Number: - -

b. **OPTIONAL:**
Pump Horsepower: Pressure (psi): Dynamic pumping level (ft):

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): 1 Stockwater (No. and type of stock):

Irrigation (No. of acres): Other:

6. Total rate of diversion and/or volume for which proof is submitted: .04 cfs OR acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No X

Has the measuring device been installed? Yes or No

Flow Measurement Port: Is a flow measurement port required? Yes or No X

Has the measurement port been installed? Yes or No

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: SAME AS ABOVE Telephone Number:

Address:

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 75-07658

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208) 525-7161.

Sincerely,

Kari Lynn Townsend
Secretary

Stick postage stamps to article to cover First-Class postage, certified mail fee, and charges for any selected optional services (See front).

1. If you want this receipt postmarked, stick the gummed stub to the right of the return address leaving the receipt attached, and present the article at a post office service window or hand it to your rural carrier (no extra charge).

2. If you do not want this receipt postmarked, stick the gummed stub to the right of the return address of the article, date, detach, and retain the receipt, and mail the article.

3. If you want a return receipt, write the certified mail number and your name and address on a return receipt card, Form 3811, and attach it to the front of the article by means of the gummed ends if space permits. Otherwise, affix to back of article. Endorse front of article **RETURN RECEIPT REQUESTED** adjacent to the number.

4. If you want delivery restricted to the addressee, or to an authorized agent of the addressee, endorse **RESTRICTED DELIVERY** on the front of the article.

5. Enter fees for the services requested in the appropriate spaces on the front of this receipt. If return receipt is requested, check the applicable blocks in item 1 of Form 3811.

6. Save this receipt and present it if you make an inquiry.

Is your RETURN ADDRESS completed on the reverse side?

SENDER:

- Complete items 1 and/or 2 for additional services.
- Complete items 3, a, and b.
- Print your name and address on the reverse of this form so that we can return this card to you.
- Attach this form to the front of the mailpiece, or on the back if space does not permit.

CERTIFIED MAIL

RE: Procedures Available upon Issuance of Final Moratorium Order

Dear Applicant or Permit Holder:

The accompanying "Final Order" by the Director of the Department of Water Resources establishes a moratorium on the processing of applications for permits to appropriate surface water or ground water within and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church-River of No Return Wilderness Area. The order is issued pursuant to Section 67-5246, Idaho Code, and is effective as of October 25, 1999.

This letter provides a statement of the available procedures pursuant to Section 67-5246, Idaho Code, and provides the time limits for filing a petition for reconsideration of the order. The statement is required by the Department's Rule of Procedure 740.02.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of the order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be deemed denied by operation of law pursuant to Section 67-5246(4), Idaho Code.

A party may not be required to comply with a final order unless the party has been served with or has actual knowledge of the order. If the order is mailed to the last known address of a party, the service is deemed to be sufficient.

OPPORTUNITY TO REQUEST HEARING

The department did not conduct a hearing prior to issuance of the accompanying order. Section 42-1701A(3) provides, in pertinent part, as follows:

MICROFILMED

FEB 22 2000

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the department of water resources or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of (a) the service date of the final order, (b) an order denying petition for reconsideration, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

For questions regarding the moratorium order please contact Glen Saxton, Water Allocation Bureau Chief, or me at (208) 327-7900.

Sincerely,

Norman C. Young
Administrator

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 75-07658

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream. **MICROFILMED**

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

SEP 29 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 75-07658

To Whom It May Concern:

The Department of Water Resources (IDWR) is preparing to issue a water appropriation permit for the above application. Before proceeding, IDWR would appreciate receiving your comments, if any, on the proposed diversion and use of surface water. I have enclosed copies of the application for your review. Please respond with your comments by September 2. If I have not heard from you by then, I will assume you have no comment and will proceed with issuing the permit.

If you have any questions, you may contact me directly at (208) 327-7944 or by electronic mail at czimmerm@idwr.state.id.us.

Respectfully,

Cindy Zimmerman
Water Resource Agent
