LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. The department provided the proper forms to you in our proof due notice dated July 31, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable Proof of Beneficial Use or an acceptable Request for Extension of Time showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty (60) days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief

Re: Permit No. 75-07526

Dear Permit Holder:

Thank you for your note informing the Department you had sold the property irrigated in connection with the above referenced water right.

You should be aware, however, that a water right permit is personal property and does not automatically transfer when the property is sold. Therefore, if the new property owner is irrigating the property under this permit, it will be necessary for you to complete the enclosed assignment form. The new property owner will then become the owner of the water right as well. The new owner will then need to proceed with the water right process by filing a proof of beneficial use.

If, however, the new property owner is not irrigating the property under this permit, you will need to complete the enclosed relinquishment form. This will relinquish the permit back to the state and will be of no further force nor effect. In essence, the permit will no longer exist. You should also be aware, however, that the Director of the Department has recently issued a moratorium on all new permits because of the current drought situation. You or the new property owner would not be able to obtain a new permit at this time.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

RE: PERMIT NO. 75-07526

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
