CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 75A.
6. Domestic use is for 1 home.
7. Domestic use does not include lawn, garden, landscape, or other types of irrigation.

RE: WATER RIGHT NO. 75-07522

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

RECORDED

MAR 26 1997

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or

iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have questions, please contact me at (208) 327-7946.

Sincerely,

RE: Telecon/License Recommendations

On this date, Mr. and Mrs. King called in response to my letters. They explained they had been in Southern Utah for the past several months and just returned yesterday.

They verified that the well is not used and does not have a pump in it. They plan to put a pump in at a later time and use it for a home. I explained that use of the well for one home would not require a water right filing, but that their current permit for groundwater could not be retained for future development. I told them that if they did not return a relinquishment form for the groundwater permit, the department would issue an order voiding the permit for lack of beneficial use. They opted to have the department take care of the paperwork.

As for the spring, it is the only source for culinary use in the mobile home (at this point, they pack water in buckets filled at the spigot). I told the King's that I would document our conversation for the file and that a license would be issued for the use of the spring for the mobile home.

Adjustments to the field examiner's recommendations for the spring are as follows:

H. RECOMMENDATIONS

1. Recommended Amounts

Domestic	1/1 - 12/31	0.01 cfs	0.6 afa

The license will be issued in-house use only; the rate of diversion and volume are calculated accordingly. The photo of the trailer clearly indicates no lawn watering occurring. The King's confirmed the use inside the trailer.

RE: Permit Nos. 75-07522 & 75-07523

Dear Mr. and Mrs. King:

We are in the process of reviewing the above referenced permits for licensing. When our field examiner conducted his inspection, he took photographs (copies of which are enclosed) documenting his visit to the property.

The examiner located a 6" well (shown on one photograph along with disconnected electrical wiring). Is this well used for in-house use in the trailer (shown in the photograph under the well photo). If so, when was the well first used for domestic use in the trailer?

Finally, the other permit is for a spring tributary to Pollard Creek. The examiner found that a water system had been installed but did not appear to be maintained. He found no connection between the spring and the trailer and was unable to locate any water source at the second home (see photo and examiner's notes). Is spring water used for this home, and if so, please describe the delivery system.

If in fact no water is beneficially used by either home from either the well (Permit No. 75-07523) or the spring (Permit No. 75-07522), you could help us clear our records by signing and returning one or both of the enclosed relinquishment forms.

If you have any questions concerning these matters, please give me a call. I will withhold taking action on these rights until I receive either the relinquishment(s) or information confirming beneficial use of water.

Sincerely,

A handwritten signature in cursive script that reads 'Sharla Curtis'.

E. NARRATIVE/REMARKS/COMMENTS

ON 9/27/95 A FIELD EXAM WAS CONDUCTED ON PERMIT # 75-07522; NO BENEFICIAL USE OF WATER FOR IRRIGATION WAS FOUND. A WATER SYSTEM HAS BEEN INSTALLED BUT DOES NOT APPEAR TO BE PROPERLY MAINTAINED. (SEE PHOTOS). NO CONNECTION BETWEEN SPRING/STORAGE TANK AND POSSIBLE PLACE OF DOMESTIC USE (TRAILER) COULD BE FOUND.

SINCE WATER SYSTEM HAS BEEN DEVELOPED BUT NO BENEFICIAL USE FOR IRRIGATION HAS BEEN DEVELOPED IT IS MY RECOMMENDATION THAT THE IRRIGATION PORTION OF THIS PERMIT BE DENIED.

THE SPIGOT PRODUCED 59 GALLONS IN 47 SECONDS.

$$\frac{47}{5} = 9.4 \text{ SEC/GAL} \quad \frac{60 \text{ SEC/MIN}}{9.4 \text{ SEC/GAL}} = \frac{6.386 \text{ PM}}{448.8} = 0.014 \text{ CFS}$$

RECOMMEND DOMESTIC USE BE ALLOWED.

SPRING MAY BE STILL EXPERIENCING LOW FLOW DUE TO LAST 7 YRS OF DROUGHT.

NO OCCUPATION ^{AT} EITHER HOUSE OR TRAILER.

RE: PERMIT NO. 75-07522

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

LAPSE NOTICE

RE: PERMIT NO. 75-07522

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 75-07522

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 75-07522

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

Dear Skip:

Department personnel have reviewed the Lanni application to divert 0.09 cfs from Ditch Creek (tributary of Hughes Creek) for domestic and irrigation; the Gattung application to divert 0.5 cfs of Williams Creek into a pond; and the Amacher application to divert 0.11 cfs from a spring which is a tributary to Pollard Creek for irrigation and domestic use. We have no objections to the issuance of these permits. In reference to Mr. Gattung's application, please refer to our comment letter sent to Charlie Mullins on June 28 which I have enclosed.

RE: Application for Permit No. 75-7522 & 75-7523

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Recorder-Herald on SEPTEMBER 6 & 13, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
