Dear Sir:

I am in receipt of your letter of 8 November 1991 concerning Flow Measurement Port.

I thought that I included a diagram of my pump installation with a concrete pit 8 foot deep and pipe risers at 40 feet a part.

In talking to the people at the Water Resources office in Idaho Falls, they thought that if I enclosed a diagram of my installation that your people could use a riser to measure the flow.

The main line is 6 inch P.V.C. Pipe four foot deep and I hope I do not have to dig a 6 foot hole and make preparations for your Flow Meter Port. If the measurement can be made with a main line riser, it would help the situation a lot.

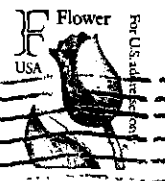

Please let me know if this is possible. Thank you.

Re: Permit No. 75-07492

Dear Rita Fleck:

In answer to your letter of 31 August 1991, it is my intention at this time, to have this project ready for inspection by 27 September 1991.

The main line and riser valves are in place, the pump house is complete and the pump should be installed by 15 September. The power company has been notified and should have me power by 15 September 1991. The electric switch gear has been ordered and should be on the job by 15 September also.

I do have one problem though. I did not know how to install a flow part in my installation (see plan included). Could it be possible to use riser valve to check the flow? Any instructions on this would be greatly appreciated.

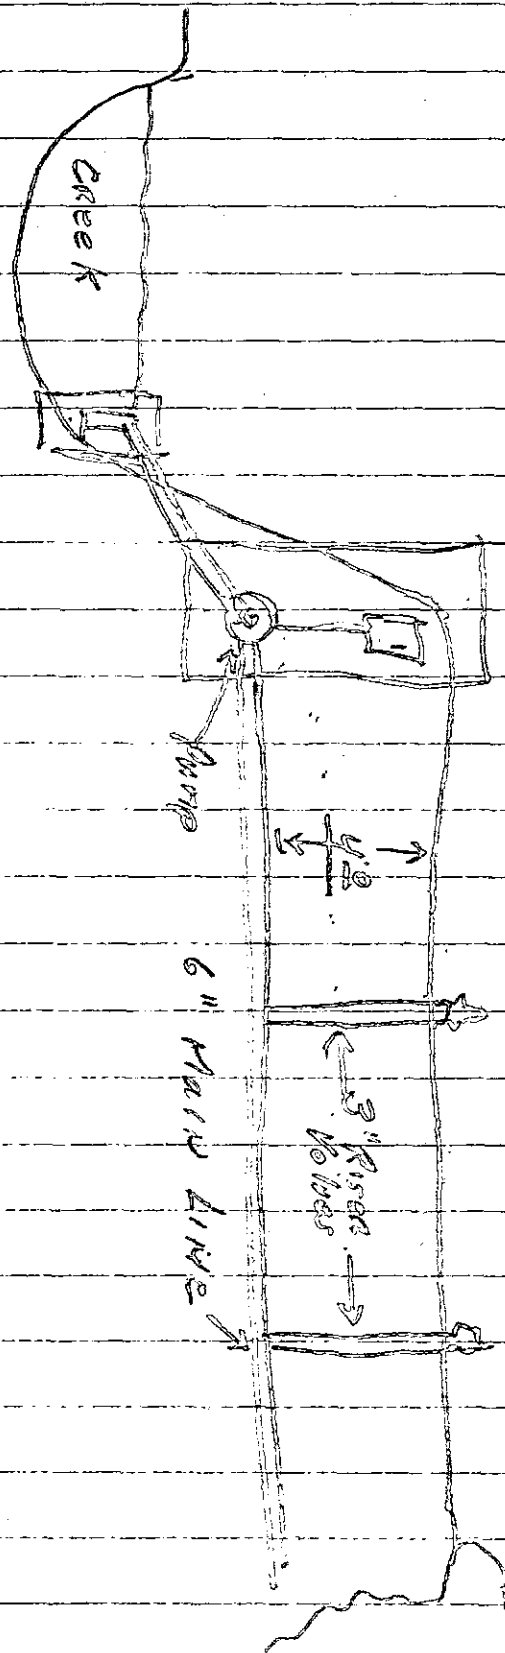

Thank you.

PROOF DUE NOTICE

RE: PERMIT NO. 75-07492

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time to our letters of August 31 and November 7, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

RE: Application for Permit No. 75-7492

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Recorder-Herald. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
