REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof
of beneficial use for a water right permit

Department of Water Resources

RECEIVED
MAY 14 1990

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right ^{Department of Water Resources} of Section 42-204, Idaho Code.

Permit No. 75-7455

Name(s) of Permit Holder: Robert E Masters

Post Office Address: RR# 2 Box 24 - Shoup, ID 83469

Telephone No. No Phone

Date Proof Is Due: 7-1-90

Describe what work has been completed toward the development of this water right: We have dug ditches
(This must be filled out! If no work has been completed, show "none".)

& Layed 4" pipe & Elect wire From House To Wheel
House (for generator) Wheel House is now under const-
uction. We have purchased turbine & generator. Once
Wheel House is complete, we can hook up entire system
Costing \$ 5500.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

We were short of funds due to a divorce. With all
of the expense & time that were involved in
my divorce & I was handicapped for several months

Permit holder(s) request an extension to 7-1-, 1991.
(1 yr. minimum)

X Robert E. Masters
(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

SEP 27 1990

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to July 1, 1991.

Signed this 11th day of September, 1990.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 75-7455, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: SEE ATTACHED SHEET FOR CONDITIONS e thru iii.

Witness my hand this 28th day of June, 1988.

P. Keith Higgins
Director

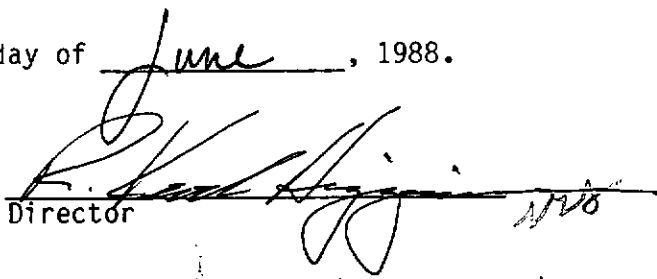

RECORDED

OCT 04 1988

ATTACHMENT TO CONDITIONS OF APPROVAL
For Permit No. 75-7455

- e. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
- f. The permit holder shall either install a measuring device or a flow measurement port or provide a certified measurement or computation of flow based upon system design to be prepared by a professional engineer.
- g. This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.
- h. Water used under this permit if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
- i. The water right acquired under this permit for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- j. The Director retains jurisdiction of this permit in order to limit the use of water for hydropower generation purposes to a specific term of years as required by Section 42-203B(7), Idaho Code.
- k. This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.
- l. Use of water under this permit shall be non-consumptive.
- m. A separate stream alteration permit from the IDWR is required for any activity in the stream channel other than construction and/or maintenance of the diversion structure. If your proposed construction or operation involves construction of an outfall or any other work in the stream channel other than a water diversion, you must contact the Department and obtain a Stream Channel Alteration permit prior to the start of construction.

Witness my hand this 28th day of June, 1988.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 75-07455

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

Dear Mr. Masters:

Re: Permit No. 75-7455

Returned is the proof of beneficial use form along with a copy of your permit. Note that the permit has been issued for the diversion and use of water under this permit for power purposes.

Before the department can accept the proof of beneficial use form, item 6. — the total rate of diversion must to be indicated and, if the rate is over 0.04 cfs, a license exam fee of \$50 is required.

Note that the proof of beneficial use form must be returned by July 1, 1991, to keep the permit in good standing.

If you have any questions, please contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 75-07455

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Dear Mr. Masters:

Re: Permit No. 75-7455

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to July 1, 1991.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

Also enclosed is an assignment form. To change the ownership of the permit, this document is needed. I have partially completed it. Please review the information, sign it before a Notary Public and return to this office.

Contact me if you have any questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Mr. Masters:

Re: Permit No. 75-7455 and License No. 75-7423

As you requested, enclosed is a copy of the you permit. I am also sending a copy of the license No. 75-7423 issued for domestic and stockwater uses.

Returned is the proof of beneficial use form submitted with both water right numbers on it. The proof has already been submitted for the licensed right and it appears that an extension is needed for the permit which is for power use.

Before the department can take action on the extension request, please sign it by the red "X", then return it promptly.

If you have any questions, please contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 75-07455

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1990.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 75-07455

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please be advised that your application for permit has been approved because we no longer wait for approval from the Federal Energy Regulatory Commission (FERC) or the Idaho Public Utilities Commission (PUC) when the flow is less than 25 cfs and the power to be generated is less than 500 HP. However, you may still need to obtain approval from FERC and/or PUC.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port, or to provide a certified measurement or computation of flow based upon the design of the system to be prepared by a professional engineer.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

RE: Application for Permit No. 75-7455

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 75-7455. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Recorder-Herald. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Water Rights Supervisor

Route 2, Box 24
Shoup, Idaho 83469

Dear Mr. Masters:

Our office has received and reviewed your application for a hydro-power permit. Before we can continue processing your application, we will need some additional information.

I have had a new application typed, which is enclosed for your review. The items which need your attention include items 3, 4, 5, 9 and 13. Items 3 and 9 deal with the legal description of points of diversion and place of use. If you do not feel comfortable determining these, you may indicate on the map (item 13) the location of your diversion point (SW1/4SE1/4NW1/4, Sec. 7, T. 22N, R. 19E, per field exam done 8/87) and where you plan to build the power house. I can then complete the legal description if you wish.

Items 4 and 5 deal with the amount of water you will divert through your system. A field inspection of your water system was completed by a Department representative last August. At that time, the capacity of your pipeline was measured at 0.19 cfs or 85 gallons per minute. This figure may be a valid number for the maximum amount of water to apply to the hydro plant. You must determine if this is what you believe your system will use. The fee for filing the application is based upon this amount of water so it is important that you determine it correctly.

Item 8a deals with your projected power generating capacity. You have stated in your application "50 lbs of head expected". We will need to know the amount of head in feet. Head is measured by finding the difference in elevation from the point of diversion to the point where the power house will be placed. If you have not surveyed this, you may be able to get a rough estimate from the map. (Each contour line equals 20' of elevation.)

Once you have determined the flow and head of the system, you can then calculate the expected power output of the system. I have included a sheet with some formulas you can use to determine the KW of your project.

OCT 04 1988

Mr. Masters
March 17, 1988
Page 2

Finally, since hydro-power is a special water use in Idaho, some additional information can be required. At this time, to proceed with your application, we will need you to complete the Residency form enclosed. Please complete this form (must be notarized) and send it along with the signed application for permit.

If more information is required in the future, we will ask for it in writing. Our office will hold further action on the application for 30 days or until you submit the completed application and fee (the application will be returned if fee is not enclosed with application). Your prompt attention is appreciated. If you need any more assistance, please contact our office.

Sincerely,

Eric S. Verner
Sr. Resource Agent
