Dear Mr. Fernandez:

The Department cannot accept a claim to a water right from a surface water source unless the beneficial use of water occurred prior to May 20, 1971. We are, therefore, returning your claim and money order for \$20.00, along with an application for permit which is the correct form for you to file on proposed developments of surface water.

We have taken the liberty of completing the application from information provided on the claim. Please review the information and initial any changes you make. Under Item 9.a. of the application, please indicate who owns the property at the point of diversion. Should it be someone other than yourself, complete Item 9.c.

You should be aware that the application, if approved, will provide a five year period for you to complete development of the spring. Once the spring has been developed and the water beneficially used, you need to file with the Department a beneficial use card which can be obtained from our office upon request.

Please feel free to contact me should you have any questions concerning the matter.

Respectfully submitted,

ERNEST M. CARLSEN
Water Resource Analyst
