BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT
NO. 75-7088 and 75-7089 IN THE NAME OF
LARS AND/OR RANDI GRIMSRUD

MEMORANDUM DECISION
AND ORDER

On May 19, 1977, the Department of Water Resources received two applications for permit from Lars and/or Randi Grimsrud, to appropriate water from unnamed springs, tributary to Eli Creek, Salmon River and Sinks, to be diverted at several points within Sec. 9, Twp. 20N, Rge. 22E, B.M., Lemhi County, to be used for irrigation and domestic purposes.

Notice of these applications were caused to be published in the Recorder-Herald on May 2 and May 9, 1977, and subsequently were protested by George L. and Althea R. Hyde. A conference in the matter was held in Salmon, Idaho, on September 20, 1977. The applicants were present and represented by Sherman F. Furey, Jr., Attorney at Law, Salmon, Idaho. The protestants were present and represented by Fred Snook of the Firm Snook and Snook of Salmon, Idaho.

Information pertinent to the matter was presented on behalf of both the applicants and protestants and in addition, a field review of the proposed development was made by all interested parties present at the conference. At that time, any springs agreed to be tributary to Eli Creek were removed from the applications. The Department was later notified by Fred Snook on behalf of his clients, Mr. and Mrs. George Hyde, that they have no objection to the development of the two springs located east and north of the Grimsrud house, since they are not part of the Eli Creek Drainage.

Pursuant to the request of the parties involved, the Department has now taken the matter under consideration and after having reviewed all of the pertinent information in the Department's official files the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. The protestants in this matter claim to have water rights dating back to 1878 established by diversion and beneficial use.

2. The Department's files contain no recorded water rights on Eli Creek.

3. All of the springs in question are within the Eli Creek Drainage but there is no surface continuity and, therefore, the available information is

insufficient to show that any of the springs are actually tributary to Eli Creek.

3. At the time of the field review, the amount of water flowing from the springs was insufficient to supply the amounts requested in these applications.

CONCLUSIONS OF LAW

1. It has not been determined that the appropriation of water under application no. 75-7088 and 75-7089 will reduce the amount of water available to existing water rights.

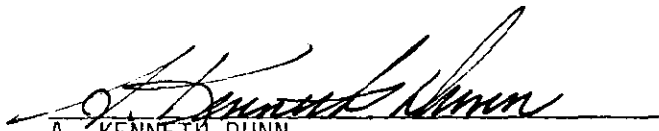

2. The applicant is entitled to a permit from the Department of Water Resources, and the five-year period requested to develop the amount of water indicated in the applications.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Application for Permit No's. 75-7088 and 75-7089 are APPROVED subject to the following conditions:

1. The water right is subject to all prior existing water rights to the extent that water would normally leave the applicant's property to fill any such rights.
2. Proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before March 1, 1983.

Dated this 8 day of March, 1978.

Re: Lars and/or ~~Baoli~~ Grimsrud
Application #74-7088 75-7088
Mr. and Mrs. George Hyde

Dear Mr. Carlson:

I just reviewed with my clients, Mr. Snook's letter of October 14 addressed to you.

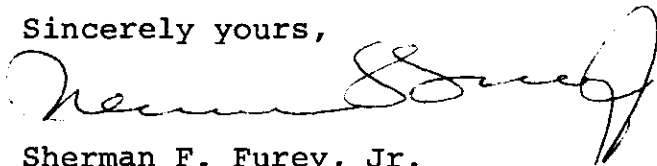

We agree with Mr. Snook's statement that the two springs located east and/or north of the Grimsrud home are not part of the Eli Creek Drainage.

I believe we agree also that there are two springs near the Grimsrud boundary which are tributary to Eli Creek. We assume, in making this statement, that we are talking about the springs which were pointed out by the Grimsruds as being springs that they did not claim the day that we all examined the property.

We would join with Mr. Snook in requesting that you rule on whether or not the remaining springs are tributary to Eli Creek and we urge again that the aerial photos together with your observations made on the ground on September 20, 1977 clearly establish that the springs in question are not tributary to Eli Creek.

We also join Mr. Snook in requesting that you make your decision on this matter without a second formal hearing, assuming that this is agreeable with you.

Sincerely yours,

Sherman F. Furey, Jr.

15-7088

Dear Mr. Carlson:

In reply to your letter of October 12, and Mr. Furey's letter of October 3, please be advised that our clients have authorized us to inform you of the following:

The Hydes have no objection to the two spring locations that are located East and/or North of the Grimsrud home which said springs are definitely not part of the Eli Creek Drainage.

It is my understanding from our meeting, that the Grimsruds did not contest the two major springs that obviously are part of the Eli Creek Drainage. However, the Hydes would request a determination on whether or not the remaining springs are part of the Eli Creek Drainage.

I do not believe we have any further evidence to present and perhaps Mr. Furey and I could stipulate that you could proceed to make a ruling on the matter without the necessity of a second formal hearing.

Sincerely yours,

FRED SNOOK

Salmon, Idaho 83467

Dear Mr. Snook:

It was my understanding from the conference we held in Salmon, Idaho, on September 20, 1977, concerning the above referenced applications for permit that we would be advised by the protestants what action they wished to take concerning the protest they have filed against these applications.

I assume the protestants do not wish to have a formal hearing in this matter, but unless we hear from them in the near future, it will be necessary for the Department to schedule such a hearing to resolve the protest we have on file.

Please advise us at your earliest convenience.

Very truly yours,

Dear Mr. Carlson:

As I recall counsel for the Hydes advised at the conclusion of the hearing in the above matter that if the Hydes wished to pursue their objections further that he would so advise you within ten days of that date (September 20).

Not having received a copy of any such follow-up letter from Mr. Snook I assume that the Hydes have decided not to pursue the matter. If I am correct in the above I assume that we will shortly be receiving notification from your office that the protest filed by the Hydes either has been withdrawn by them or denied by your office.

Very truly yours,

NOTICE OF CONFERENCE
AND/OR HEARING

On May 19, 1977, Lars and/or Randi Grimsrud, filed with the Department of Water Resources applications to appropriate the public waters of the State of Idaho. On June 17, 1977, the Department received a protest from Fred H. Snook, Attorney at Law, on behalf of George L. and Althea R. Hyde.

The Department has set the matter of protest for conference and/or hearing for Tuesday, September 20, 1977, at 11:00 a.m., in the Commissioner's Room of the Lemhi County Courthouse, Salmon, Idaho.

Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 19th day of September, 1977.

Dear Mr. Grimsrud:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 75-7089. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

RONALD D. CARLSON

RE: Applications for Permit No. 75-7088 and 75-7089 GRIMSRUD

Mr. Fred H. Snook
Attorney at Law
P.O. Box 1227
Salmon, Idaho 83467

Dear Mr. Snook:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

COMES NOW, GEORGE L..HYDE And ALTHEA R. HYDE, husband and wife, and hereby file their protest in conection with the above described application for water permit. The reason for this protest is that the said George L. Hyde and Althea R. Hyde for many years have had and now have the right to the use of all of the water of Eli Creek and its tributaries including any unnamed springs in connection therewith, and therefore the granting of this application would interfere with the water rights of the said George L. Hyde and Althea R. Hyde. Therefore, we respectfully request that said application be denied.
