License of Water Right No. 75-7028 Priority June 5, 1972 Amount 0.04 cfs

THIS IS TO CERTIFY, that Buster C. &/or Marjorie J. Light

of Salmon, Idaho, has complied with the terms and conditions of Permit No. 75-7028 issued pursuant to Application for Permit dated June 5, 1972, and has submitted proof to the Department of Water Resources on July 15, 1977, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 0.23 cfs of water from an unnamed spring, tributary to Hot Springs Creek, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from April 1 to November 1	at 0.04 cfs	and 6 acre feet
	from to	at cfs	and
	from to	at cfs	and

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 6 acre feet per year, said waters to be diverted within the SW¼NW¼, Sec. 3, Twp. 20N Rge. 22E, B.M., in the County of Lemhi

MICROFILMED

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION

OF THE

STATE OF IDAHO

In the Matter of Application for Permit No. 75-7028 in the name of BUSTER C. &/or MARJORIE J. LIGHT	MEMORANDUM DECISION AND ORDER

On June 5, 1972, Buster C. &/or Marjorie J. Light applied to the Department of Water Administration for a permit to appropriate 0.14 cubic feet per second of water from an unnamed stream within the SW¼NW¼ of Sec. 3, Twp. 20 N, Rge. 22 E, B. M., Lemhi County, to be used from April 1 to November 1 for irrigation purposes.

Notice of the application was published in the Recorder-Herald at Salmon, Idaho, on June 15 and June 22, 1972. The Department received protests against the issuance of a permit from John W. Brown, Stephen Bistline and Mr. & Mrs. H. E. Foge.

A conference was held to consider the protests against said application on August 16, 1972, at Salmon, Idaho. The applicants were represented by Mr. Jack Slavin for J. C. Herndon; the protestants were in attendance and represented themselves.

The protestants claim a water right based upon diversion and application to beneficial use of all of the water in the stream, even during the spring run-off. An agreement between the protestants and the applicants could not be reached at the conference, and the protestants would not withdraw their protests as they felt they might prejudice their position in a court determination of the water rights on the stream.

The Department does not have jurisdiction to determine the extent of a water right that has been established by diversion and application to beneficial use. Since the amount of water, the period of use, and the date of priority is not known on a right claimed by the protestants as having been established by diversion and application to beneficial use, Application 75-7028 must be considered on its own merits.

Having considered all information available to the Department, the Director of the Department of Water Administration finds that the protests against Application for Permit No. 75-7028 should be set aside without prejudice; and,

IT IS, THEREFORE, HEREBY ORDERED that Application for Permit No. 75-7028 be APPROVED subject to the following conditions:

1. That said permit be and is subject to all prior water rights.

2. That proof of construction of works and application of water to beneficial use be submitted to the Department on or before September 1, 1977.

3. That the permit holder permanently install and maintain a measuring device of a type approved by the Department as part of the diverting works.

Dated this 19th day of September, 1972.

Dear Mr. or Mrs. Light:

A representative of this Department made an examination of the works covered by your Permit No. 75-7028 on May, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 0.04 cfs Source: unnamed stream

The maximum quantity diverted shall not exceed 6 acre feet per year.

Point of diversion: SW¼NW¼, Sec. 3, Twp. 20N, Rge. 22E, B. M.

Beneficial use: Irrigation of 2 acres within the SW¼NW¼, Sec. 3, Twp. 20N, Rge. 22E, B. M.

Priority date established: June 5, 1972

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

Dear Mr. & Mrs. Light:

One of the conditions of approval of your water Permit No. 75-7028 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. & Mrs. Light:

Enclosed is a copy of your approved Application for Permit No. 75-7028 along with a copy of the Memorandum Decision and Order. We direct your attention to the conditions of approval.

Be sure to note that a special condition requiring you to install and maintain a measuring device as part of the diverting works has been placed upon your permit. We have enclosed a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR

RE: Application for Permit No. 75-7028

28-1972

A conference was held on August 16, 1972, at Salmon, Idaho, to consider the protest against the above referenced application.

The applicants, Buster C. and Marjorie J. Light, were represented by themselves. The protestants, John W. Brown, Virginia Brown, Mr. and Mrs. H. E. Foge, and Steven Bistline, were represented by themselves.

During the informal conference the discussion centered around an apparent hostile attitude of the applicant toward controlling the surface water resource of the area. The stream in question flows only during spring runoff or for a short time after a violent summer storm. The protestants do not have recorded water rights and are claiming only a long time use right. It soon became apparent that an agreement could not be reached in an informal conference and the protestants, as counciled by Steve Bistline, Attorney, intended to pursue a court determination of the use right.

Because the protestant's rights are not recorded and the general attitude and lack of accord between protestant and applicant, I stated that the Department's only course would be to dismiss the protest without prejudice and to consider the application only on its own merits. The protestants appeared to be satisfied with this procedure.

OF THE

STATE OF IDAHO

In the Matter of Protests Against Approval of Application for Permit No. 75-7028 in the name of BUSTER C. &/or MARJORIE J. LIGHT	NOTICE OF CONFERENCE AND/OR HEARING

On June 5, 1972, Buster C. &/or Marjorie J. Light filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. The Department has received protests against the approval of said application from Mr. & Mrs. H. E. Foge and John W. & Virginia Brown.

The Department has set the matter of protests for conference and/or hearing for Wednesday, August 16, 1972, at 1:00 p.m., in the Conference Room of the Federal Services Building (across from the post office) at Salmon, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 26 day of July, 1972.

Dear Mr. Brown:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG

I wrote you the last week in June to protest an application for a water and informing you that I would be glad to show you the area and to direct any further correspondence to John Brown. You sent a letter directly to me and me did not receive it until well passed the time for entering protests.

We requested to send you the number of the application which I will remedy now

The name is Butler C. & Marjorie J. Light Application # 75-7028.

Since that application was submitted, Mr. Light has closed of the water and has informed everyone

that he alone has the rights to these waters.

I would greatly appreciate an answer and some action before the water leases running for the year.

Re: Application for Permit No. 75-7028 - Light

Dear Mr. Young:

This is responsive to your letter of June 30th to Mr. John Brown, and you are to consider it as an official protest, as requested by the second paragraph of your letter. The protest is based upon the singular proposition that there is not that much water in existence. For over twenty years Mr. Brown has irrigated with the water in question, having under cultivation and irrigation over 100 acres. In the months of July and August every year the water dwindles down to less than enough to provide one hundred miner's inches of water.

Since Mr. Brown wrote you on the 28th day of June, he and I discussed the situation with Mr. Saxon, at the Salmon office, who very thoroughly explained the whole situation to us. After that we talked with Mr. Light, and the whole situation seems to be now better understood and ironed out. We now understand that Mr. Light's application for a permit does not presume to be prior to Mr. Brown's prior appropriation. We also understand that the only way to perfect upon waters is by court decree. This has been discussed with Mr. Light, and apparently the procedure which will now be followed will be the bringing or an appropriate action in District Court, wherein Mr. Light and Mr. Fogey will both join with Mr. Brown as plaintiffs.

Mr. Brown's prior appropriation of one hudnred inches is recognized by both Mr. Light and Mr. Fogey, both of whom have purchased acreages from Mr. Brown, and it is agreeable that, subject to Mr. Brown's first and prior requirements for one hundred inches, Mr. Light will be second in line with seven, and Mr. Fogey with three and one-half. It is my understanding that Mr. Light

75 7028

understands the advantage of perfecting his claim through Mr. Brown's (and fifty years or more of predecessors' use) appropriation, and getting a decree rather than a permit.

Very sincerely,

Stephen Bistline

Dear Sir:

The reason we protested the water permit for Buster C. Light no. 75-7028 is. We owned 320 acers of land in sec. 3 T 30 N. 17 E That is being irrigated by this water. We sold Mr. Light 20 acers of land + told him he had a right to use water. but not a first water right above us. Also we sold Bert + Peggy Foge 10 acers + they should have a water right to,

We have sold the rest of the land now to Steve Bustline in Sand Point, Idaho. 75 7028

So Joe + Mr. Light + we have agreed to go to Court and settle the water rights in a quiet title. We have given the letter we received from you to Mr. Bastline, so you should hear from him about this also.

Dear Mr. Poge:

We are in receipt of your letter regarding a protest of application for a water right. We cannot, however, consider this to be an official protest as you have not indicated the application you are protesting, nor the reason that you feel that this application would affect your existing water rights. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
