State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 75-7027 Priority June 5, 1972 Amount 1.38 cfs

THIS IS TO CERTIFY, that BLAINE COOK
of Salmon, Idaho, has complied with the terms and conditions of Permit
No. 75-7027 issued pursuant to Application for Permit dated June 5, 1972,
and has submitted proof to the Department of Water Resources on August 9, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.87 cfs of water from Little Fourth of July Creek,
tributary to Fourth of July Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>1.38</u> cfs and	<u>207</u> acre feet
	from _____ to _____	_____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.38 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
207 acre feet per year, said waters to be diverted within the Lot 1 (2 pts), Lot 2 (2 pts),
Lot 3 (2pts), Lot 4, Sec. 19, Twp. 24N, Rge. 22E,
SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, in the County of Lemhi
Twp. 24N, Rge. 21E, B.M.

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals

ORDER

WHEREAS, on June 5, 1972, Blaine Cook applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 4.00 cubic feet per second of water from the Little Fourth of July Creek, tributary to the Fourth of July Creek, to be diverted from Lot 1 (2 pts.), Sec. 19, Twp. 24N, Rge. 22E, Lot 2 (2 pts.), Lot 3, Lot 4, Sec. 19, Twp. 24N, Rge. 22E, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, Twp. 24N, Rge. 21E, B.M., Lemhi County, to be used for irrigation purposes; and,

WHEREAS, on October 18, 1972, the Department approved said application and issued Permit No. 75-7027 with the conditions that proof of construction of works and application of water to beneficial use be submitted to the Department on or before October 1, 1977, and that measuring devices of a type approved by the Department shall be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on March 9, 1976, the Department received a request that the measuring device requirement be removed from said permit; and,

WHEREAS, it has been determined by the Department that a measuring device is not required at this time for a determination of the quantity of water appropriated under said permit;

IT IS, THEREFORE, HEREBY ORDERED that the condition of approval that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works, be and is, REMOVED from Permit No. 75-7027.

RECOMMENDED

CONDITIONS OF APPROVAL

☒ A measuring device of a type approved by this Department shall be permanently installed and maintained as part of the diverting works.

☐ Measuring devices of a type approved by this Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.

☐ Use of water under this permit is supplemental to all existing water rights with the same purpose and place of use.

☒ Maximum rate of diversion shall not exceed 1.38 c.f.s.

☐ Settling ponds shall be installed which are capable of reducing the silt load in the return water to such a level that the quality of the waters of _____ Creek will not be impaired for other beneficial uses.

☐ Return water shall be treated to insure that the effluent meets (interstate) (intrastate) stream water quality standards.

☐ Use of water under this permit is subject to control by the watermaster of State Water District No. _____, _____ River.

☐ The proposed well shall not be drilled within _____ feet of another well.

☐ The issuance of this permit in no way grants any right-of-way or easement across the land of another person.

☐ The permit shall not be assigned or sold without first securing the written approval of the Department of Water Administration.

☐ This permit cannot be assigned, mortgaged, or conveyed without complying with Section 42-208, Idaho Code.

☐ Other: _____

is hereby given that Cook, P. O. Box 27, Salt Lake City, Utah, has on 6/5/72 submitted Application No. 13374 for a permit to appropriate 40 cfs of water per second of water from the Little Fourth of July Creek, tributary to Salmon River, by means of headgates and ditches within Lot 1 (2 points), Lot 2 (2 points), Lot 3 (2 points), Lot 4, Sec. 19, T. 24N., R. 21E., SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, T. 24N., R. 21E., SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, T. 24N., R. 21E., E. M., Lemhi County to be used from Apr. 1 to Nov. 1 for the irrigation of 80 acres within the E $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, T. 24N., R. 21E., W $\frac{1}{4}$ W $\frac{1}{4}$, Sec. 19, T. 24N., R. 21E., E. M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of this permit must be filed with the Idaho Department of Water Administration, 240 South Holmes, Idaho Falls, Idaho, 83401, on or before July 3, 1972.

See reverse side for pygmy current meter measurements.
 $Q = 1.87 \text{ cfs}$ (capacity of creek at time of measurement)
 $V = 69 \text{ ac} \times 3.0 \text{ AF/ac} = 207 \text{ AF/yr}$ $1.9835 \times 215 \times 1.38 = 588.50 \text{ AF/yr}$

SYSTEM DESCRIPTION:
Surface water is diverted thru 10 ditches by means of small concrete dams. Water is diverted from ditches with concrete dams for the flood irrigation of approx 69 ac. Water not used flows back into the creek as each lateral ditch feeds back into the creek further downstream.

REMARKS:
System shown & described by Blaine Cook
I recommend that the measuring device requirement be repealed as there are 10 separate points of diversion along the creek for efficient utilization of water.

Examiner's Signature Anthony R. Kozlowski Date 2/6/79

Re: Permit No. 75-7027

Mr. Blaine Cook
Box 127
Salmon, Idaho 83467

Dear Mr. Cook:

We recently notified you that the proof of beneficial use is now due on your Permit No. 75-7027 for your use of the water from Little Fourth of July Creek.

Apparently, you responded to that notice by sending us a copy of the Order that removed the measuring device requirement from your permit. You must, however, also complete the proof of beneficial use affidavit if your project has been constructed, or you must request an extension of time before October 1, 1977 to prevent the lapsing of your permit.

We have enclosed another proof of beneficial use form for your use or in the case that you have not finished your project, we have enclosed an extension of time request form.

If you have any questions, do not hesitate to contact us.

Sincerely,

BOBBY D. FLEENOR

Re: Permit No. 75-7027

Blaine Cook
Box 127
Salmon, ID 83467

Dear Mr. Cook:

One of the conditions of approval of your water Permit No. 75-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

FROM: Bill Rhoads *BR*
TO: Ron Carlson
RE: Application for Permit No. 75-7027 BLAINE COOK
DATE: April 23, 1976

On April 21, 1976, I met with Mr. Cook to examine the diversion systems located on Little Fourth of July Creek.

The reason for the survey was to gather evidence for proper determination of the need and kind of measuring devices. My observations are as follows:

- 1.- There are seven on-stream diversions.
2. Mr. Cook's upstream property boundary begins at the forest boundary and takes in all irrigable lands downstream to the junction with Fourth of July Creek.
3. Measuring devices placed at the upstream and downstream points would prove unreliable as there are many spring areas feeding the creek in between the points. Because of the steep terrain and gravel soils, return flows are rapidly produced and then waters are reused in subsequent stream diversions.
4. Seven weirs to measure water for the irrigation of 70 acres might be considered an excessive requirement.
5. I believe Mr. Cook would be willing to have a registered engineer measure and certify the flow at the diversions.
6. Department personnel at the time of the water right exam could measure the diversion flows.

Re: Permit No. 75-7027

Dear Mr. Fleenor:

Just received your letter and will try to clarify what I did not fully explain in my first letter.

After the irrigation season starts, there is generally no run-off from Little Fourth of July Creek into Big (or main) Fourth of July Creek. In other words, Little Fourth drainage is small and we use all of Little Fourth of July Creek water for what land there is irrigated. In fact, we run low in the latter part of the season and do not have near enough. The water users downstream from Little Fourth of July Creek depend entirely on water from Big Fourth of July Creek during the irrigation season. These are the reasons I would like to have one of your representatives inspect the area a time or two during the season so you will know the situation.

Sincerely yours,

BLAINE COOK

Boise, Idaho 83720
(208) 384-2215

March 16, 1976

Blaine Cook
Box 127
Salmon, Idaho 83467

Dear Mr. Cook:

Your recent letter points out the problem of installing ten measuring devices on your proposed project for the irrigation of 69 acres of land.

You must also understand how difficult it would be for your use of water to be measured if no device is installed. Our records indicate that there are other water users on the Fourth of July Creek downstream from your points of diversion. Therefore, we feel that since installations of v-notch or similar weirs are not expensive, that these devices should remain as a requirement of your permit.

Proof of beneficial use of the water is not due until October 1, 1977. Following that proof of beneficial use, an examiner from the Department will visit your project. If you have any questions, please let us know.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Re: Permit No. 75-7027

Dear Mr. Fleenor:

Reference is made to your letter of October 20, 1972, regarding my application for permit for the waters of Little Fourth of July Creek. Your letter states that a measuring device is to be installed at point of diversion. May I draw your attention to the number of diversion points, amounting to ten, on your accompanying map of proposed project. We are not in need of any main specific measuring devices, as each heading is handled merely by a canvas dam or a simple board device large enough to take a portion of the stream flow in each heading. In other words what I am trying to point out is the ditches are small, and the terrain is steep, whereby only a small stream of water is needed in each ditch. Also, all water runs back into the main stream source and is picked up in a new heading at a lower elevation. Also I might point out that we are the only land owner and water user on Little Fourth of July Creek.

Do you have a representative inspect these applicant properties? If so, I think it might be a good idea on this particular one, so that you will understand what our needs are.

Very truly yours,

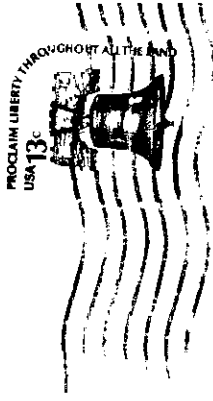

BLAINE COOK

September 29, 1972

Re: Application No. 75-7027

Mr. Elaine Cook
P.O. Box 127
Salmon, ID

Dear Mr. Cook:

The Idaho Code limits the rate of diversion for irrigation purposes to .02 c.f.s. per acre. It is indicated in the above referenced application that 69 acres will be irrigated. Thus, the maximum rate of diversion for this application would be 1.38 c.f.s., unless you can provide us with written justification for the higher rate requested. A higher rate of diversion can be justified by unusual soil conditions or irrigation systems. We accept as adequate justification, statements to this effect from the S.C.S. or other soil experts.

Please provide this office with the written justification for the higher rate requested within ten (10) days from the date of this letter, or we will reduce the amount to be diverted to 1.38 c.f.s.

Very truly yours,

NORMAN C. YOUNG
District Engineer
