License of Water Right No. 75-7022 Priority January 17, 1972 Amount 0.10 Cfs

THIS IS TO CERTIFY, that Glenn Franklin
of North Fork, ID, has complied with the terms and conditions of Permit
No. 75-7022 issued pursuant to Application for Permit dated January 17, 1972,
and has submitted proof to the Department of Water Resources on October 20, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.10 cfs of water from Kriley Creek,
tributary to Salmon River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation from	<u>April 1</u> to <u>November 1</u>	at <u>0.10</u> cfs and	<u>18.0</u> Acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.10 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
18.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 1,

Glenn Franklin
North Fork,
Idaho 83466

Dear Mr. Franklin:

A representative of this Department made an examination of the works covered by your Permit No. 75-7022 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.10 cfs Source: Kriley Creek

The maximum quantity diverted shall not exceed 18.0 acre feet
per year.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, Twp. 23N, Rge. 21E, Lemhi County

Beneficial use: Irrigation of 6 acres within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, Twp. 23N,
Rge. 21E

Priority date established: January 17, 1972

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

SYSTEM DESCRIPTION:
Kuley Creek water is diverted into a 2" diam buried plastic conduit at a point located 300 yards up the Kuley Creek canyon. The water is diverted over a 90° V-notch weir before it passes into the pipe. Approx. 6 ac are irrigated via gravity flow flood irrigation. Water being conveyed 900' down canyon via pipeline (which open discharges into a network of ditches at the place of use).
REMARKS:
Water is used for the irrigation of 50 pomegranate trees, 69 cherry trees, and 200 apple trees. There are also a couple of acres of alfalfa irrigated from this source. As Kuley Creek is seldom tributary to the Salmon River after Spring Transflow and as most of the available creek water is lost to seepage and evaporation, it was necessary for the applicant to divert.

Dear Mr. Franklin:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Idaho Falls.

Dear Mr. Franklin:

One of the conditions of approval of your water Permit No. 75-7022 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Franklin:

Your February 11 letter indicates that considerable work has been done pursuant to your water permit no. 75-7022.

If you have completed your project, you may submit the required proof of beneficial use and a form is enclosed for that purpose. This proof is due on or before November 1 of this year and, therefore, if your project is not completed you may wish to wait until after this next irrigation season to submit your proof.

Please do not hesitate to contact us or our Regional Office in Idaho Falls if you have further questions.

RE: Application No. 74-7022
DATE: September 15, 1972

RECEIVED
SEP 18 1972
Department of Water Administration

The above referenced application should now be ready for staff review.

As indicated in the applicant's letter of September 6, 1972, the water loss in the long delivery ditch will amount to more than the additional 0.8 c.f.s. requested for ditch loss. The actual water loss in the ditch may be as high as 3.0 c.f.s.; thus, the excessive diversion rate is needed.

This application is closely associated with Application No. 74-7017. This applicant, Robert Hemming, has protested Application No. 74-7017 on the basis of not enough water, and injury to his existing water rights. If Application No. 74-7017 is not approved because of insufficient water, then this application should also not be approved.

Dear Sir:

Enclosed is the information you requested.

1. Our ditch is over 3 miles long with a tremendous water loss, so we feel it's justified.

2. We plan to use the existing ditch, thus we have an easement through the property already. We're enclosing a copy of this easement.

We hope this information will be sufficient. We're sorry for the delay.

4. Development plans; layout plans; construction, reconstruction, or alteration of improvements; or revision of layout or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; *provided* that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.
5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.
6. This permit is subject to all valid claims.
7. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.
8. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.
9. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the national forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.
10. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.
11. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.
12. Upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.
13. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner provided is qualified as a permittee and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him if, in the opinion of the issuing officer or his successor, issuance of a permit is desirable and in the public interest.
14. In case of change of address, the permittee shall immediately notify the forest supervisor.
15. The temporary use and occupancy of the premises and improvements herein described may be sublet by the permittee to third parties only with the prior written approval of the forest supervisor but the permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.
16. This permit may be terminated upon breach of any of the conditions herein or at the discretion of the regional forester or the Chief, Forest Service.
17. In the event of any conflict between any of the preceding printed clauses or any provisions thereof and any of the following clauses or any provisions thereof, the following clauses will control.

18. (A-13) A service charge in addition to the regular fees shall be made for failure to meet the fee payment due date or any of the dates specified for submission of statements required for fee calculation. The service charge shall be one (1.0) percent per month of the fee from the date statement and fees were due or \$15, whichever is greater. If a due date falls on a nonworkday, the service charge will not apply until the end of the next workday.
19. (B-8) The permittee shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.
20. (B-31) Avalanches, rising waters, high winds, falling limbs or trees, and other hazards are natural phenomena in the forest that present risks which the permittee assumes. The permittee has the responsibility of inspecting his site, lot, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions and, after securing permission from the Forest Service, of removing such hazards.
21. (E-4) Unless sooner terminated or revoked by the Regional Forester, in accordance with the provisions of the permit, this permit shall expire and become void on 12/31/80, but a new permit to occupy and use the same National Forest land may be granted provided the permittee will comply with the then existing laws and regulations governing the occupancy and use of National Forest lands and shall have notified the Regional Forester no less than 3 months prior to said date that such new permit is desired.
22. (X-33) This permit is granted with the express understanding that should future location of Government improvements or road rights-of-way require the relocation of the permittee's improvements, such relocation will be done by the permittee at his expense within sixty (60) days following request to relocate.
23. (X-81) This permit confers no right to the use of water by the permittee.
24. (X-18) This permit supersedes a special-use permit designated: Treasure Brothers, Water Transmission dated 12/3/64.

Dear Sir:

In reference to your letter of August 21, 1972, to Glenn Franklin regarding Application for Water Permit No. 75-7002.

Mr. Franklin has acquired the services of an engineer to survey the land, however, they have run into a problem locating section corners which are needed to establish correct boundary lines.

The proposed easement has been examined by our field personnel and has been determined that upon receipt of the survey information an easement will be granted.

I hope this information will be of help, and if you need any further information, please let us know.

RE: Application for Permit No. 75-7022

Dear Mr. Young:

I am in receipt of your letter dated August 21, 1972 stating that you will cancel permit no. 75-7022 if a copy of a ditch easement from BLM is not received within 30 days.

Please be advised that I have hired a surveyor to determine my boundary lines. This is necessary for an easement from the BLM. I have also contacted the BLM in the past and have received the necessary easement forms.

I request that the permit not be cancelled since I would like to complete the requirements of the permit.

Sincerely,

Glenn Franklin

Dear Mr. Young;

We have done some work for the survey.
We have a copy of survey notes describing
the corners and $\frac{1}{4}$ corners of the section.
Some of them have been located. We
have made several attempts to contact

Dear Mr. Franklin:

We are processing your application for permit to appropriate water from Kriley Creek.

We note, however, that the point of diversion from the creek is located on land owned by the Bureau of Land Management (B.L.M.). A permit to appropriate water does not constitute a right-of-way. Therefore, you will need to obtain an easement from the B.L.M. to allow you to divert the water at the creek.

Before issuing a permit, we need to have a copy of the agreement you obtained from the B.L.M. Please send this agreement to this office at your earliest convenience.
