Dear Mr. Stokes:

Enclosed are your claims submitted to the Department along with your check #92-297 for \$60.00.

The claims appear to be improper order except you may wish to review the quantity of water claimed from wastewater tributary to the Salmon River.

The normal rate of flow used is .02 cfs per acre or for 94 acres 1.88 cfs. The 500 cfs claimed could be considered an excessive amount of water to be claimed for 94 acres.

You may wish to change the quantity of water to reflect a more reasonable amount.

If you have any questions, please feel free to contact me.

Sincerely,

STEVE McCORMICK
Sr. Resource Analyst
