EXPLANATION OF WATER SOURCE

Although water is diverted from a well approximately 19' in depth, the claimant believes that the ground water source is directly related to the presence of surface water in Brown Creek. During periods of runoff the well is recharged by surface water flows in the Creek. Indeed, the water visibly sinks into an area of gravel located immediately east of Highway 93 and does not again re-appear.

This explanation is necessary in order to protect the claimant's domestic water right in the event of future appropriation of water in Brown Creek. Any appropriation of surface water in Brown Creek would have a marked detrimental effect on the ground water available to the claimant.

Dear Mr. & Mrs. Hoover:

Once again we find it necessary to return your claim because it is not in complete form for advertising.

However, from the information provided we have prepared the attached, partially completed claim form which should meet all necessary requirements when completed.

The original claim was unclear as to whether the water comes from a surface or ground water source. If the water comes from a shallow collection pit or sump, it should be considered surface water. However, if the source is a drilled well more than 18 feet deep, it is ground water.

Please complete Items 1 and 5B on the attached claim form and indicate the location of your property on the contour map, and return the claim for processing.

If you have any questions, please do not hesitate to contact us.

Dear Mr. Hoover:

Enclosed please find the claim to a water right which you submitted without the necessary filing fee of \$10.00.

In briefly reviewing your claim, it is difficult to understand the source of water you are claiming since you indicate spring water from Brown Creek in Item (1), yet in Item (5) you describe a drilled well as the means of diversion. This probably should be clarified before returning this claim.

Also, it will be necessary to attach a map showing the location of your point of diversion and place of use.

For your convenience, I have included an additional claim to a water right form with instructions. If we may be of further assistance in this matter please feel free to contact this office.
