Dear Mr. Sprinkle:

In response to your letter of inquiry dated December 16, 1988, I have researched department records for existing water right filings for your property near Gibbonsville, Idaho.

Enclosed are copies of three (3) filings from Anderson Creek identified as license 75-2083, claim 75-4041 and claim 75-4470 for use near your property. I cannot determine if any of these filings include your property, since the place of use is described to the nearest 40-acre tract. The filing in the name of Gibbonsville Improvement Association appears to include your land. If so, there is no need for you to make a separate filing. You could probably determine this for sure by inquiring locally of the intent of the claim when it was filed by the association.

As general information, adjudication claims eventually will need to be filed by all water users in Lemhi County in connection with the ongoing Snake River adjudication. The department will provide specific notice of this requirement, however, when Lemhi County is included in the adjudication.

Also returned are the maps which you sent with your letter. Please feel free to contact the department if you have additional questions.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

Dear Sirs:-

I am writing regarding
a water right on said
Anderson Creek - A small
stream which shows on

ditch which taps the little
stream about a quarter of a
mile above a pond at the
mouth of the canyon
was dug and made to
carry water by George

At the time this ditch
was put in there was

no other parties involved
in using water out of
same. We feel we
should have a pryer right
to use water out of the
ditch for house hold, trees,
and grass. We have
maintained and taken
care of same for a great
many years.

We would like to
have our names put on
record for the use of
this water as described.

Dear Ms. Dixon:

As a follow-up to your phone call today relative to water rights for your property near Gibbonsville, we have researched Department records.

Enclosed are copies of three (3) claims and a license for property in the vicinity of your parcel of land. As I advised you on the phone, it is often not possible to determine if a recorded water right includes a small tract of land, since the place of use is usually described only to the nearest 40-acre tract on water right documents. Such is the case here.

If any of these rights do include your land, the most likely ones are Water Right Claim Nos. 75-4041 and 75-4042 in the name of the Gibbonsville Improvement Association. Sources of water for these claims are Anderson Creek and Dahlenega Creek. You may wish to inquire locally to determine if the original intent when the claims were filed was to include tracts such as yours.

Please feel free to contact this office if you have additional questions.

RE: Amended Claims to Water Rights Nos. 75-4041 & 75-4042

Gibbonsville Improvement Association
c/o D. W. Peters, Chairman
Gibbonsville, ID 83463

Dear Mr. Peters:

The Department of Water Resources has completed the processing of your amended claim to a water right and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your amended claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your amended claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your amended claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

RONALD D. CARLSON
