**NOTICE OF CLAIM TO A
WATER RIGHT
NO. 75-4013**

Notice is hereby given that Rodney B. or Wanda S. Tibbetts, Colson Creek, Shoup, Idaho has filed a claim to a water right established by diversion and application to beneficial use of 12.06 cubic feet per second of water from Colson Creek, tributary to Salmon River with point of diversion on the H.E.S. 199, approx. 1200 feet northerly from H.E.S. Corner No. 4, T. 23N, R. 17E, B.M., Lemhi County (unsurveyed).

The water is claimed to be used from Jan. 1 to Dec. 31 for domestic purposes for a commercial lodge, and power generation with a priority of November 10, 1916. The place of use is within H.E.S. 199, T. 23N, R. 17E, B.M. (unsurveyed).

Any exception to this claim of water right may be filed with the Idaho Department of Water Administration, 240 South Holmes, Idaho Falls, Idaho, 83401.

DEPARTMENT OF WATER ADMINISTRATION

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Rodney B. or Wanda S. Tibbetts
 post office address Colson Creek, Shoup, Idaho
on H.E.S. 199, approx. 1200' northerly from H.E.S. corner #4
2. The point of diversion is in 1/4 of 1/4 Section 23N.
 Range 17E B.M. located on Colson Creek
(name of source)
 tributary to Salmon River in Lemhi County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:

<u>November 10, 1916</u>	amount: <u>0.06</u>	c.f.s. or	acre feet
<u>November 10, 1916</u>	amount: <u>12.0</u>	c.f.s. or	acre feet
	amount: _____	c.f.s. or	acre feet
Total claimed _____ c.f.s. or _____ acre feet.			
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use <u>Domestic</u>	period of use from <u>January 1</u> to <u>December 31</u> (both dates inclusive)
use <u>Power</u>	period of use from <u>January 1</u> to <u>December 31</u> (both dates inclusive)
use _____	period of use from _____ to _____ (both dates inclusive)
use _____	period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works: *See remarks
 - a. Surface water diversion dam ~~and/or headgate~~ material is composed of native rock
and dirt; length is 50 feet; height is 12 feet;
 width at bottom is 30 feet; with at top is 15 feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known Dam has periodically been re-built as older structure became unstable.
 - b. Underground water diverting works: is well flowing or pumped pumped; depth of well is 38 feet; diameter of well is 6 inches; type of pump is submersible
 capacity of pump is 60 g.p.m.; name and address of well driller is Charles Dahle

75-4013

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain Remark: Domestic well was drilled approx. during the fall (Aug. or Sept.) 1967.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible. None known. Claimant plans to renovate his headworks at the dam and his generating system.

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe Unknown.

[illegible]

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? No If yes, give the name of the ditch
_____. The other users and their respective
interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered Approx. 12
head of horses.

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

- The small (1.7 AF) storage structure built on Colson Creek has a dual purpose. Water for domestic use is stored in it and the water is also used to generate electricity. The distance from the dam is about 1000'. A 14" pipe 1000' long is reduced to a 6" nozzle. A double cup pelton wheel of 5 foot diameter turns a 30 KVA generator. The 52 foot static head gives 7 psi at the nozzle.
- The domestic well in item 4-b above was drilled as an alternate water supply should the dam or 14" pipe fail and negate the domestic water from that source.
- Claimant owns a commercial lodge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s. or</u>	<u> </u> acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s. or</u>	<u> </u> acre feet
		Total claimed:	<u>1.2 c.f.s. or</u>	<u> </u> acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Water Administration, Statehouse, Annex 2, Boise, Idaho, 83707, is \$10.00.

North Fork, ID 83466

Dear Mrs. Sharp:

The information you sent in your letter of January 23, 1983, was of help in researching water rights in the general vicinity of Colson Creek and the Salmon River.

I note that Claims 75-4012 and 75-4013 were filed in June 1972 by Rodney and Wanda Tibbetts. The claims show a November 10, 1916 priority date for domestic, irrigation and power purposes. The irrigation use is for 69 acres somewhere within H.E.S. #199. From the information I have, I cannot determine exactly which 69 acres are included in the claim. If the lot you own, however, is a part of the 69 acres, it is not necessary for you to submit a claim for the uses already claimed by Tibbetts. The title company or perhaps the courthouse could tell you whether Tibbetts was a prior owner of the land which you now own. (Enclosed is a copy of those claims for your information.)

I also noted in my research that several claims have been submitted by individuals for irrigation and domestic use from Colson Creek. Such claims have been submitted by William F. Bilger, Blaine J. White and Ralph and Bonnie Gray. All these claims show a priority date of November 10, 1916. Enclosed for your information is a copy of one of these claims.

If you cannot determine whether the claims filed by Tibbetts covers your land, I suggest you file a claim similar to the example individual claim enclosed. This assumes, of course, that you and/or a previous owner of the property are using or have used water from Colson Creek.

Enclosed is a Claim to a Water Right form and instructions. If you decide to file such a claim, it should be completed and mailed with a \$30.00 fee to our Eastern Regional Office at 150 Shoup Ave., Suite 15, Idaho Falls, 83401.

I am returning the copies of the warranty deed and plat which you sent with your letter.

Sincerely,

L. Glen Saxton

Re: File No. 75-4013

Claimant is claiming a 1916 priority for power generation for January 1 to December 31 on Colson Creek, tributary of the Salmon River. Provision of Idaho Constitution requires that in connection with the appropriation for power purposes that the Department may set regulations to govern specific appropriations. In 1937, Section 42-205 and 42-206 of the Idaho Code were enacted providing that no permit to appropriate power purposes shall be granted unless the appropriater is a bondified resident of Idaho or qualified organization to do business in the state of Idaho; nor may a permit be assigned, transfered or used, etc. without complying with these provisions as the Idaho residency. Even though these provisions speak to permits, the Assistant Attorney General working for the Department at this time assures us that these provisions, in connection with the constitutional wording, provide that a right for power purposes may not be initiated after 1937 under the constitutional provisions, ~~and~~ only appropriations be permit. Further providing that even if a right was prior to 1937 and established under constitutional provisions that any changes of ownership after 1937 must be in compliance with these provisions. Therefore, clarification as to the status of Mr. & Mrs. Tibbets' Idaho residency should be clearly provided in the claim and if no Idaho residence or clarification is forth coming then the Department should file an exception to the claim.

Re: Claim No. 75-4013

Rodney E. or Wanda S. Tibbetts
Colson Creek
Shoup, ID 83469

Dear Mr. & Mrs. Tibbetts:

During the processing of your claim to a water right No. 75-4013, one item was overlooked.

The Idaho Code (Sec. 42-206) requires that the appropriation of water for power purposes can only be accomplished by a resident of the State of Idaho. It is necessary to demonstrate residence by completing an "Affidavit to Establish Residence". Enclosed are the forms necessary to do this.

Please complete the enclosed forms and return in duplicate to this office, where we will file them as a part of your completed claim.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Colson Creek
Shoup, ID 83469

Dear Mr. & Mrs. Tibbetts:

The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Re: Claim No. 75-4013

Mr. Rodney B. Tibbetts
Colson Creek
Shoup, ID

Dear Mr. Tibbetts:

We have begun the initial processing of the above referenced Claim to a Water Right. As part of the claim, you indicated you had drilled a well in the fall of 1967 to be used as a supplemental water supply to the water of Colson Creek. We can process your claim with the exception of including the well.

It will be necessary for you to submit an application for permit as provided by Section 42-229, Idaho Code, effective date March 25, 1963, since your domestic use of the well is a commercial use in nature. An application with instructions to aid you in making the application is enclosed.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

LOY H. JOHNSON
Water Resource Supervisor
