Gentlemen:

Mr. Edmond Bills of Salmon, Idaho, has asked me to write to you with respect to the enlarging of a reservoir from which he irrigates his property near Salmon, Idaho. This property for many years was owned by C. G. Mathewson and later by a man named Coleman. The reservoir has been in operation for a great many years and serves no other purpose than to irrigate the property now owned by Edmond Bills.

He has been informed that in order to enlarge the capacity of the reservoir, although it interferes with no other water rights, that he must receive a permit from you. We will appreciate any information that you can give us and particularly whether or not any such permission is necessary or has ever been granted to Mr. Mathewson or Mr. Coleman.

Very truly yours,

December 4, 1922.

Dear Sir:—

Under the terms of your permit No... R-201.... you are required to complete your diversion works on or before ~~Mar. 22, 1923.~~ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
