4. Describe works as they exist, giving dimensions and capacities of same: Has ditch from Warm Springs Creek. est capacity 150 inches, leads into small Res., surface of water 20 acres, dam at high pt. 20 ft. 14" pipe out of ditch to pond est capacity 80". Reservoir filled, for 20 running over spill out.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): $NE\frac{1}{4}NE\frac{1}{4}$ & $SE\frac{1}{4}NE\frac{1}{4}$ Sec. 29, Twp. 21 N., R. 22 E.B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake

Remarks: Catches surplus and winter water from Warm Springs Creek and diverts into Reservoir. There was on land. Claimant has another 40 acres about one mile north of 80 that he uses this same water on.

16 acres of grain on 80, about 24 more acres of grass can be and probably has been irrigated. From what I could learn this right would not interfere with anyone else.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Chester G. Mathewson,
Salmon, Idaho.

Boise, Idaho,
December 4, 1922.

Dear Sir:—

Under the terms of your permit No. 14592 .....you are required to complete your diversion works on or before Dec. 22, 1923. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of $5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. SWENDSEN.
