Lambert Title & Abstract Co.,
Salmon, Idaho.

Dear Sir:-

Referring to your letter of the 17th inst., enclosing notices for proof of completion of works under the above permit, would say that, in view of the fact that this permit lapsed through failure of the holder to make required proof of completion of works within the time required, it will be necessary for the holder to proceed under the provisions of Sec. 5534, Compiled Statutes of Idaho, for reinstatement of permit. The first step is notice of cancellation from this office, herewith enclosed. Upon receipt of such notice, the holder should return the notice of appearance, properly filled out, also enclosed, together with depositions of himself and two witnesses who knew the works were fully completed within the time required. If satisfactory showing is made in the depositions, the permit will be reinstated and the certificate of completion of works issued. The statutory fee of \$5.00 should accompany the proof. Where the amount of water claimed does not exceed 400 second feet, notice of proof of completion of works is not required to be published.

When the right has been reinstated, the holder may then file notice of proof of beneficial use of water, forms for which are enclosed. Notice of this proof is required to be published for a period of four weeks prior to the date set for proof.

Very truly yours,

Dear Sir;

We are herewith enclosing Blank Notice of Publication
for Beneficial use for Mr William Wallis,

We have made these blanks in duplicate and on some old forms we
had on hand, not having the proper blanks, but it seems that he should
have made this proof several years ago, but the same was over looked,
and he is due to make final proof in support of his Desert Entry
on or about January 17, 1924, and must have his water papers in shape
or the Land Office will turn his proof down,

Please look into this matter and advise us, and try to arrange so he can
make proof of beneficial use by January 17th, 1924, he has applied the
water to beneficial use and been using same for the past three years.

If anything further is required, please let us know at once.

 Dear Sir:—

Boise, Idaho, **May 1, 1918**

Under the terms of your Permit No. **11432**-----, you are required to complete your diversion works on or before-----**July 30, 1918**----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

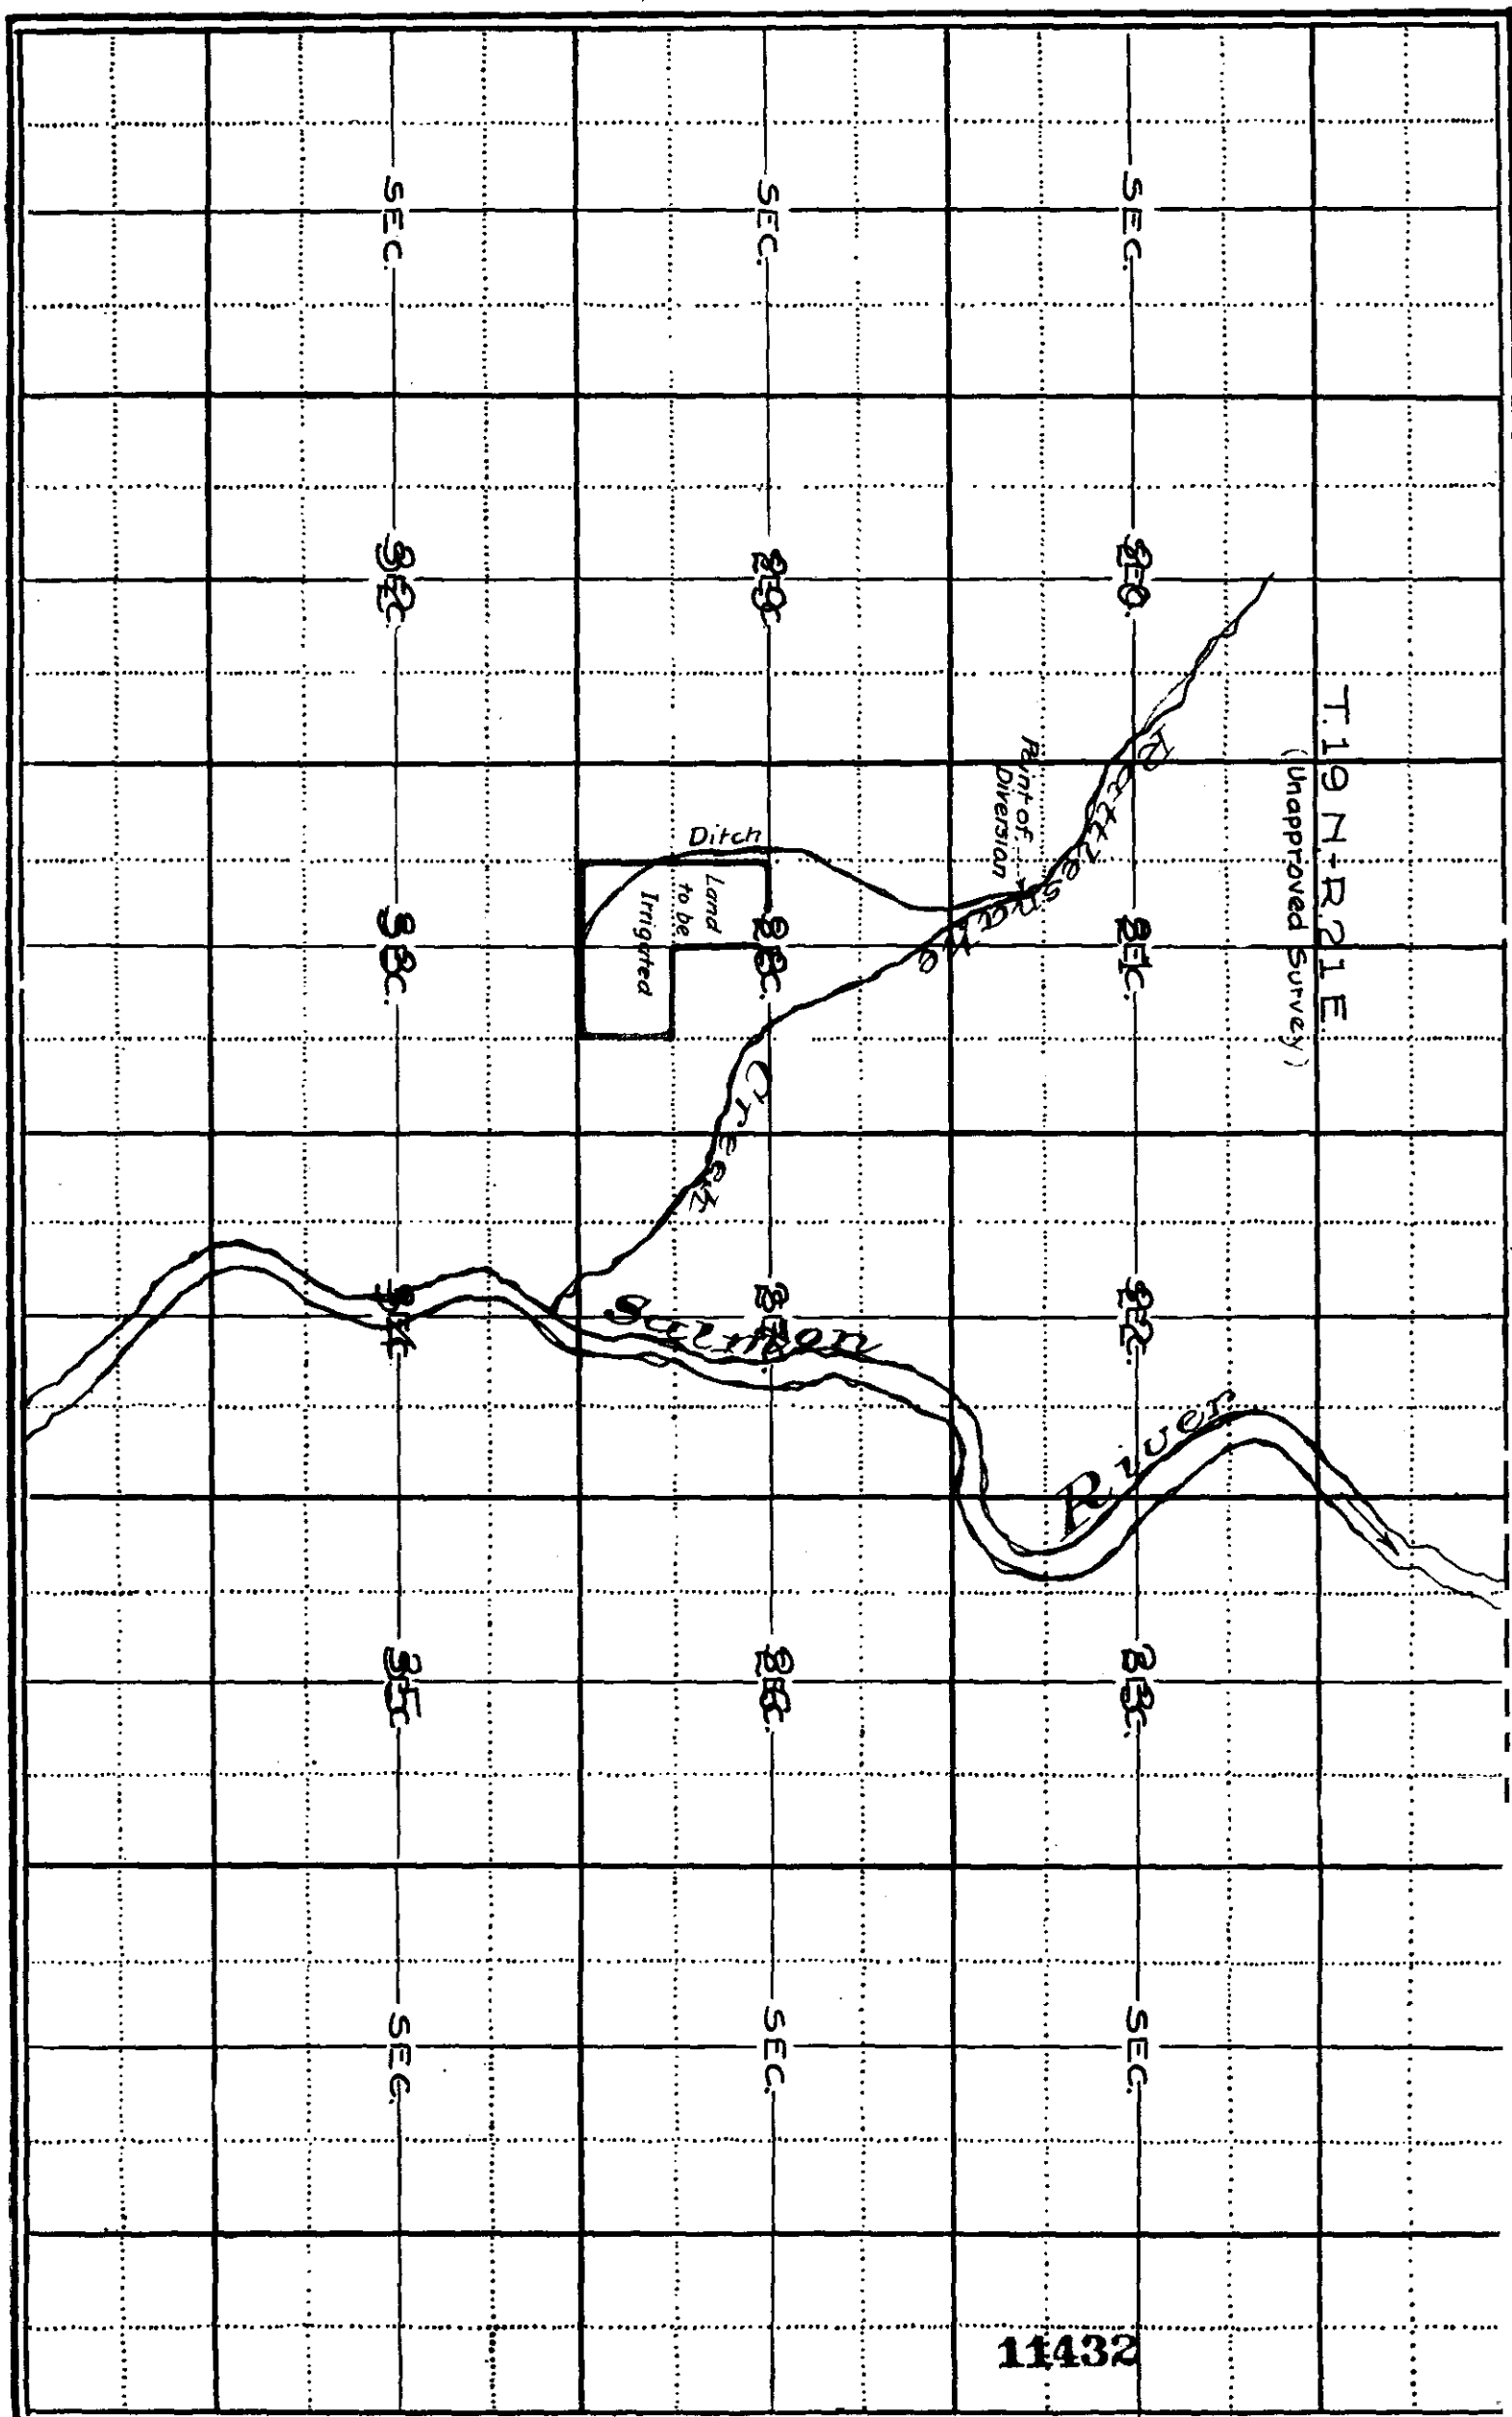

Yours truly,

FRED A. WILKIE
