MORATORIUM ORDER

The Director of the Department of Water Resources ("Director"), having responsibility for the administration of the appropriation of water in the State of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state, and the conservation of the water resources of the state, enters the following Findings of Fact, Conclusions of Law, and Final Order.

FINDINGS OF FACT

1. On April 30, 1993, the Director issued an Amended Moratorium Order that stopped the approval of certain applications seeking to appropriate surface water within the Salmon and Clearwater River Basins in Idaho.
2. On December 13, 1993, the United States filed Notices of Claim in the Snake River Basin Adjudication ("SRBA") for federal reserved water rights for the Selway-Bitterroot, Gospel-Hump, and Frank Church-River Of No Return wilderness area designations. On February 27, 1997, a motion to amend the Notices of Claim for all three wilderness area designations was filed with the District Court of the Fifth Judicial District of the State of Idaho (the "SRBA district court") to change the claimed priority dates.

3. As amended, pertinent portions of the claim filed in the SRBA for a federal reserved water right for the Selway-Bitterroot Wilderness are as follows:

Identification Number: A31-11191
Name of Claimant: United States of America

Date of Priority: September 3, 1964, except for Magruder Corridor that has priority date of July 23, 1980

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Selway-Bitterroot Wilderness. This claim is intended to also include those sources of water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Lochsa and Selway Rivers.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Selway-Bitterroot Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Selway-Bitterroot Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, September 3, 1964.

4. As amended, pertinent portions of the claims filed in the SRBA for federal reserved water rights for the Gospel-Hump Wilderness are as follows:

Identification Numbers: 77-12774, 82-11120

Name of Claimant: United States of America

Date of Priority: February 24, 1978

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Gospel-Hump Wilderness. This claim is intended to also include those sources of

water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Salmon River.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Gospel Hump Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Gospel-Hump Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, February 24, 1978.

5. As amended, pertinent portions of the claims filed in the SRBA for federal reserved water rights for the Frank Church-River of No Return Wilderness are as follows:

Identification Numbers: A75-13605, A77-12775

Name of Claimant: United States of America

Date of Priority: July 23, 1980

Source of Water Supply: All streams, lakes, ponds, springs, seeps or other natural sources of water including groundwater, whether named or not and whether perennial, intermittent or ephemeral within the boundaries of the Frank Church-River of No Return Wilderness. This claim is intended to also include those sources of water which are not presently known or not reasonably susceptible of quantification because of the de minimus and diffuse nature of their flow and which supply wetlands, marshes, or other vegetation which serves such wilderness purposes as habitat protection and drinking water for wildlife. Tributary to Salmon River.

Location of Points of Diversion: None

Location of Place of Use: All locations in the Frank Church-River of No Return Wilderness where natural sources of water exist.

Instream Flow Beginning

And Ending Points: All locations in the Frank Church-River of No Return Wilderness where natural sources of water exist

Total Quantity Claimed: The entire unappropriated flow and all other natural sources of water as of the date of designation, specifically, July 23, 1980.

6. On December 18, 1997, the SRBA district court issued *Order Granting and Denying United States' Motions for Summary Judgment on Reserved Water Rights* for claims made by the United States under the Wilderness Act, Multiple-Use Sustained-Yield Act ("MUSYA"), and Hells Canyon National Recreation Area Act ("HCNRA"), referred to herein as "1997 SRBA Reserved Rights Order." In this order, the SRBA district court ruled that: "The United States is entitled to a federal reserved water right for all unappropriated flows in the Frank Church-River of No Return, the Selway-Bitterroot, and the Gospel-Hump wilderness areas." (1997 SRBA Reserved Rights Order, p. 5). The SRBA district court emphasized its ruling by stating: "The amount of water minimally sufficient to fulfill Congressional intent is the total amount of unappropriated water within each [wilderness] area, **such that none is ever available for future appropriation.**" (1997 SRBA Reserved Rights Order, p. 15, emphasis added).

7. On July 24, 1998, the SRBA district court issued *Memorandum Decision Granting, In Part, and Denying, In Part, the United States' Motion for Summary Judgment on Reserved Water Rights Claims* for claims made by the United States under the Wild and Scenic Rivers Act, referred to herein as "1998 SRBA Wild and Scenic Decision." In this decision, the SRBA district court ruled that under the Central Idaho Wilderness Act, the United States " ... **reserved land north and south of the Mainstem of the Salmon River as wilderness, thereby reserving all unappropriated flows of water in the Mainstem**" referring back to the 1997 SRBA Reserved Rights Order in a footnote. (1998 SRBA Wild and Scenic Decision, p. 7, emphasis added). The SRBA district court noted that "Congress declared that the Mainstem of the Salmon River [that segment of the main Salmon River designated as a component of the Wild and Scenic Rivers System] would be administered solely under the Wild and Scenic Rivers Act, not the Wilderness Act." However, the SRBA district court did not describe any limitation on the reservation of unappropriated flows, nor did the court distinguish between that segment of the main Salmon River designated as Wild and Scenic and that segment adjacent to the Gospel-Hump and Frank Church-River of No Return Wilderness Areas that lies downstream of the Wild and Scenic designation.

8. On October 1, 1999, the Supreme Court of the State of Idaho issued 1999 Opinion No. 113 in the case of *Potlatch Corp. et al. v. United States of America* affirming the 1997 SRBA Reserved Rights Order granting the United States reserved water rights for all unappropriated water in the Frank Church-River of No Return, the Selway-Bitterroot, and the Gospel-Hump Wilderness Areas.

9. As of the date of this Order, there are approximately 60 pending applications for permits to appropriate surface water and ground water in the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas, and areas tributary to the wilderness areas. In addition, approximately 90 permits to appropriate water have been issued in these areas for which proof of beneficial use has not yet been submitted.

10. Although the SRBA district court has not issued final decrees for federal reserved water rights in the Selway-Bitterroot, the Gospel-Hump, and the Frank Church-River of No Return Wilderness Areas, the Supreme Court's decision of October 1, 1999, once final, will preclude future appropriations of water within the wilderness areas and in areas tributary to the wilderness areas.

CONCLUSIONS OF LAW

1. The Director is responsible for the allocation of water for new uses in Idaho. Section 42-203A(5), Idaho Code, reads in pertinent part as follows:

... In all applications whether protested or not protested, where the proposed use is such (a) **that it will reduce the quantity of water under existing water rights, or (b) that the water supply itself is insufficient for the purpose for which it is sought to be appropriated,** or (c) where it appears to the satisfaction of the director that such application is not made in good faith, is made for delay or speculative purposes, or (d) that the applicant has not sufficient financial resources with which to complete the work involved therein, or (e) that it will conflict with the local public interest, where the local public interest is defined as the affairs of the people in the area directly affected by the proposed use, or (f) that it is contrary to conservation of water resources within the state of Idaho; the director of the department of water resources may reject such application and refuse issuance of a permit therefor, or may partially approve and grant a permit for a smaller quantity of water than applied for, or may grant a permit upon conditions. (emphasis added)

2. The Director is authorized under the provisions of Section 42-1805(7), Idaho Code, as follows:

After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of the minimum flow provisions of the state water plan.

3. The claims filed by the United States in the SRBA for federal reserved water rights for all unappropriated water in the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas did not limit the claimed amount to unappropriated water arising solely within the wilderness areas as of the date the wilderness areas were reserved, nor did the claims include subordination to existing permits to appropriate water having junior priority dates for private holdings within the wilderness areas. Neither the 1997 SRBA Reserved Rights Order nor the Idaho Supreme Court decision affirming the 1997 SRBA Reserved Rights Order limited the federal reserved water rights to unappropriated water arising solely within the boundaries of the wilderness areas. Therefore, both the SRBA district court and the Idaho Supreme Court have included unappropriated water flowing into the wilderness areas, either above or below land surface, as part of the unappropriated water "in" or "within" the wilderness areas.

4. Neither the 1997 SRBA Reserved Rights Order, the 1998 SRBA Wild and Scenic Decision, nor the Idaho Supreme Court decision affirming the 1997 SRBA Reserved Rights Order excluded portions of the Middle Fork of the Salmon River, the South Fork of the Salmon River, or Big Creek lying upstream of the wilderness area boundaries, or clearly excluded the Mainstem of the Salmon River, from being considered as sources for unappropriated water "in" or "within" the wilderness areas as of the date the wilderness areas were reserved.

5. Although petitions for rehearing are pending before the Idaho Supreme Court, a moratorium on the granting of new permits to appropriate surface water or ground water and on continued development under existing permits is necessary. A moratorium will preserve the status quo until final decrees are issued for federal reserved water rights and limit the potential for resources being expended to develop water rights for which no unappropriated water may be available.

6. Because this moratorium order is issued to preserve the status quo, the order should take effect immediately upon issuance to protect the public interest in accordance with the provisions of Section 67-5247, Idaho Code.

ORDER

IT IS, THEREFORE, HEREBY ORDERED that the prior Amended Moratorium Order of the Director issued on April 30, 1993, remains in effect and the requirements listed below also apply.

IT IS FURTHER HEREBY ORDERED that a moratorium is established on the processing of applications for permits to appropriate surface water or ground water within and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church-River of No Return Wilderness Area, subject to the following conditions:

1. This moratorium order shall be in effect on and after its entry and shall remain in effect until withdrawn or modified by order of the Director, except as provided herein.
2. This moratorium order applies to all applications for permit, previously filed or to be filed, and all existing permits for which proof of beneficial use has not been filed with the Department, seeking to appropriate surface water or ground water within the Salmon River Basin upstream from the location where the Salmon River leaves the Gospel-Hump Wilderness Area in Section 3, T24N, R4E, B.M. and in the Clearwater River Basin upstream from the location where the Selway River leaves the Selway-Bitterroot Wilderness Area in Section 7, T31N, R10E, B.M. The wilderness areas and tributary areas affected by this moratorium order are depicted on the attached map.
3. This moratorium order does not apply to any application proposing a non-consumptive use of water.
4. This moratorium order does not prevent the Director from reviewing an application that otherwise would not be approved under terms of this moratorium on a case by case basis, if the Director determines that the use of the water pursuant to the application would have no effect on other water rights due to:
 - (a) the location of use; or
 - (b) the effect on other water rights would be offset through mitigation provided by the applicant.

5. The holders of all existing permits to appropriate water within the Selway-Bitterroot, Gospel-Hump, and Frank Church-River of No Return Wilderness Areas, and within areas tributary to those wilderness areas, shall upon receipt of this moratorium order immediately stop further development under the permit, and within sixty (60) days of receipt of this order do one of the following:

- (a) file proof of beneficial use documenting the extent of diversion and beneficial use of water that was completed prior to receiving this moratorium order; or
- (b) request a stay in the development period under the permit, in accordance with Section 42-204, Idaho Code, until the conditions that resulted in this order have been alleviated, if such should ever occur.

Dated this 26th day of October, 1999.

DIRK KEMPTHORNE
GOVERNOR

KARL J. DREHER
DIRECTOR

October 26, 1999

CERTIFIED MAIL

RE: Procedures Available upon Issuance of Final Moratorium Order

Dear Applicant or Permit Holder:

The accompanying "Final Order" by the Director of the Department of Water Resources establishes a moratorium on the processing of applications for permits to appropriate surface water or ground water within and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church-River of No Return Wilderness Area. The order is issued pursuant to Section 67-5246, Idaho Code, and is effective as of October 25, 1999.

This letter provides a statement of the available procedures pursuant to Section 67-5246, Idaho Code, and provides the time limits for filing a petition for reconsideration of the order. The statement is required by the Department's Rule of Procedure 740.02.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of the order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be deemed denied by operation of law pursuant to Section 67-5246(4), Idaho Code.

A party may not be required to comply with a final order unless the party has been served with or has actual knowledge of the order. If the order is mailed to the last known address of a party, the service is deemed to be sufficient.

OPPORTUNITY TO REQUEST HEARING

The department did not conduct a hearing prior to issuance of the accompanying order. Section 42-1701A(3) provides, in pertinent part, as follows:

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the department of water resources or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of (a) the service date of the final order, (b) an order denying petition for reconsideration, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

For questions regarding the moratorium order please contact Glen Saxton, Water Allocation Bureau Chief, or me at (208) 327-7900.

Sincerely,

Norman C. Young

Affidavit of Publication

STATE OF IDAHO }
County of Lemhi } ss.

RICKY G. HODGES being first duly sworn, deposes and says he is one of the publishers (print-
ers) of The Recorder Herald, a newspaper published weekly at Salmon, Lemhi County, Idaho,
and of general circulation therein. That the Department Of Water Resources - 74-07387

a true printed copy of which is attached to the margin hereof, has been and was correctly printed
and published in the regular and entire issue of every number of said newspaper and not in any
supplement thereof or thereto for Two consecutive issues, commencing with the
issue dated 2-4-99 and ending with the issue dated 2-11-99

STATE OF IDAHO }
County of Lemhi } ss.

On this 11th day of February in this year of 1999 before me, A Notary Public, person-
ally appeared RICKY G. HODGES, known or identified to me to be the person whose name
subscribed to the within instrument, and being by me first duly sworn, declared that the state-
ments therein are true, and acknowledged to me that he executed the same.

Residing At Salmon, Idaho

RE: Application for Permit #74-07387

Dear Sir:

We are enclosing a copy of the application (s) that may be of interest to your department. Please review the application (s) and submit any comments you may have to our Department as soon as possible. The last date of protest is Feb 22, 1999, and we are required to take final action shortly thereafter.

If we may be of further assistance, please feel free to contact us.

Respectfully submitted,

Harold W. Jones
Water Right Supervisor

RE: Application for Permit #74-07387

Dear Applicant:

This office is currently in the process of advertising the application in the Recorder Herald on February 4 and 11, 1999. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

Legal Notices Department
RECORDER-HERALD
P.O. BOX 310
SALMON, ID 83467

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before FEBRUARY 22, 1999.

Yours truly,

Sharla Cox
Secretary

Encl.
