RE: License No. 74-7374 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 04 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

74-7374

1. kwilson 9/4/2002 Field Report Narrative

Comment: West well with booster, mainline to a 3/8 mile center pivot, and East well then to a 1/4 mile pivot. Either well can operate independently of each other.

2. S. Keen ^{SWL} 9/12/2002 Licensing Review

Comment: Licensing review by S. Keen on 9/11/2002. Two of the tracts recommended by the examiner as part of the place of use -- SWNE and SENE of Sec. 12, T15N, R26E -- are BLM land. I am eliminating these tracts from the proposed place of use. The overlapping rights are 74-7070, 74-7234, and 7303. Together those three rights total 445 acres under the same two pivots as this right. This right will be limited to 434 acres because that is a more accurate determination of what is being irrigated. However, the four rights will be limited to 445 acres so as not to use this right to take away what was granted under the other rights.

I also recommend limiting this right to 2.45 cfs because that is the diversion rate from the new well, and the entire capacity of the old well is licensed under the three overlapping rights. The annual volume should be 1193 af because that is what 2.45 cfs will produce over the irrigation season. Despite the fact that the other three rights account for nearly the full volume needed for these lands, a volume of 1193 af should be placed on this right because it is the only one that authorizes diversion from the well in the SWNW of Section 12. The combined volume under all four rights will be limited in conditions of approval.

The examiner recommended adding the old well as a point of diversion for this right by amending the permit before a license is issued. I see no advantage to the right holder from adding the old well as an alternative point of diversion. The entire capacity of the old well is licensed for the entire place of use under earlier priority rights.

E. NARRATIVE/REMARKS/COMMENTS

Two wells pumps mainline to two center pivots. Normal operation wells run independantly only used together at start of irrigation season. Water Rights 74-07070, 74-07234, & 74-07303 are licensed to West Well (old well)

The well under this right (74-7374) connected to West Well

Maximum Observed Flow

West (old) Well $Q = 1647 \text{ gpm} = 3.67 \text{ cfs}$

EAST (new) Well $Q = 1100 \text{ gpm} = 2.45 \text{ cfs}$

Note: West (old) well Meter would indicate "Received. Signal Error" then would change back to "Normal" This confirmed that the West well was surging. I was, however, able to observe a good signal strength & flow of 1647 gpm (3.67 cfs) The effect of the West (old) well on the East (new) well flow measurement was minimal. The flow of the East well did fluctuate slightly. Recommend using highest observed flow for both well for a total of $2747 \text{ gpm} = 6.12 \text{ cfs}$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 74-07374

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 74-07374

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1998. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 74-07374

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen

RE: Water Right Nos. 74-07070, 74-07234, and 74-07303

Dear Mr. Coleman:

I have enclosed copies of Water Right Licenses 74-07070, 74-07234, and 74-07303, which were issued on August 18, 1997. I have also enclosed copies of your Applications for Amendment of Permit, which were approved. The licenses are preliminary orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

On your amendment applications for rights 74-7070 and 74-7234 you wrote that you have added another tower to your center pivot so that you now irrigate 330 acres, or 25 more than the 305 acres described on your licenses. The licenses were issued for the 305 acres reported by our field examiner because licenses cannot reflect changes that occurred after the authorized development period of the permits on which they are based.

However, I have received your new application, no. 74-07374, on which you list a total place of use of 460 acres, which totals 15 more acres than the total of 445 described on all three of your licenses. Before I process your new application, I would like to know if 460 acres is an accurate total, or if the total should be 470 acres (330 + 140). If 460 is accurate, please let me know right away so that your new permit can be issued as soon as possible. If 470 is what you intended, then you should amend your new application and have it re-advertised. I will hold your application for 14 days. If I have not heard from you within that time, I will forward it for approval with the 460-acre place of use.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

RE: Notice of Application for Permit No. 74-07374

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application for a water right. This office is currently in the process of advertising the application in the Recorder Herald on June 19 & 26, 1997. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a transfer is issued, you will be sent a copy. A typical processing time for an unprotested application is about twelve weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor
