SWNW

PLACE OF USE:

DOMESTIC, same as STOCKWATER use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for up to 4 homes.

To appropriate the public waters of the State of Idaho

1. Name of applicant Clements F. and/or Dorothy J. Zook Phone (208) 768-2625
Post office address P.O. Box 183, Leadore, Idaho 83464

2. Source of water supply Developed Groundwater (Mine Tunnel) which is a tributary of ~~Texas Creek &~~
~~Lemhi River~~

3. Location of point of diversion is NW* ¼ of NE* ¼ of SE* ¼ Govt. Lot _____
Sec. 23 14 Township 13N Range 26E B.M. Lemhi County; additional
points of diversion if any: None

4. Water will be used for the following purposes:

Amount 0.04 for Mining purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.04 for Stockwater purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

* Amount 0.04 for Domestic purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 0.04 and/or (b) N/A
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Water Delivery System (Gravity-flow)
Includes Pipeline (Circumference, 1½-inches) and Network of Ditches (Approximate
Width, 12-inches).

b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total
reservoir capacity N/A acre-feet; period of year when water will be diverted to storage:
N/A to N/A inclusive.

c. Proposed well diameter is N/A inches; proposed depth of well is N/A feet.

d. Is ground water with a temperature of greater than 90°F being sought? N/A No

7. Time required for the completion of the works and application of the water to the proposed beneficial use is

** N/A one years (minimum 1 year).

MAR 06 1986

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in KW. _____
 - Stockwatering; list number and kind of livestock. Zero to Six Head of Horses and/or Pack-mules.
 - Municipal; show name of municipality. N/A
 - Domestic; show number of households. (*) Serving One to Four Housing Units
 - Other; describe fully. General Mining Purposes, (i.e., Underground Drilling, Etc.)

9. Description of place of use: (**) Specific purposes for stockwater and general mining could apply to each and all claims of the Mountain Boy Mine.
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RECEIVED

AUG 22 1996

MEMORANDUM

TO: File 74-07325

FROM: Sharla

DATE: July 9, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 74-07325 are based on the following.

H. RECOMMENDATIONS

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Stockwater	1/1 - 12/31	0.01 cfs	0.1 afa
Domestic	1/1 - 12/31	0.04 cfs	2.4 afa

In a letter dated October 1, 1992, the Zook's attorney (Curt Thomsen) explained that the proof of beneficial use form was being submitted for only stockwater and domestic use. The permit holders had determined not to make a mining application and Mr. Thomsen stated that no mining was contemplated. The examiner proposes the inclusion of mining on the license and has made an 'assumed' volume calculation. If water was being used for mining at the time of the inspection, obviously it had not been developed for that purpose at the time proof of beneficial use was filed. Mining should not be included in this license. Two conditions placed on the original permit were solely used for the mining purpose. Because mining is not to be included in this license, the conditions do not need to be carried forward.

The proof also indicates that only 2 homes were presently used and that up to 4 homes were planned. Photos included with the exam report show the spigot serving at least the one home next to it. It appears that any and all domestic units which would be served under this permit don't fall into the usual "stubbed" scenario. They may all share the same spigot. Domestic use will be listed for 4 homes, but the annual volume will not include irrigation ($4 \times 0.6 = 2.4$ af).

Finally, the examiner has used the word spring in his narrative as well as photos. The development resembles a spring, however, it is a mine tunnel. While one could argue that the source be identified as an unnamed stream, groundwater, or a spring, the source shown on the original permit, groundwater, will continue to be used to describe this diversion.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 74-07325

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

RE: Proof of Beneficial Use - Zook Permit No. 74-07325

Dear Ms. Skaggs:

Enclosed is an original proof of beneficial use executed by Mr. and Mrs. Zook concerning permit No. 74-07325. The permit allowed 0.04 cfs for stock water, mining and domestic use. However, Mr. and Mrs. Zook have determined that they will not make any mining application, but will proceed on the basis of stock water and domestic use. The proof of beneficial use is filled out accordingly. As far as Mr. and Mrs. Zook know, this water is not discharged into a natural channel or subsurface system from their domestic and stock water use. Inasmuch as no mining is contemplated, bonding requirements from the governmental entities and permits from the governmental entities for mining are not required.

Please feel free to contact Mr. and Mrs. Zook at your earliest convenience concerning a time for the inspection.

As I review the inspection license fee, there would be no fee required for a diversion of 0.04 cfs under the circumstances. If we are incorrect, please advise and we will remit the required license fee immediately.

Thank you for your assistance.

Sincerely,

Curt R. Thomsen

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 74-07325

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Skaggs".

RE: Application for Permit #74-07325

Dear Mr. Reynolds:

I am writing you regarding Application for Permit to appropriate water #74-07325 filed by Clements F. and Dorothy J. Zook. The applicants propose to divert 0.04 cfs of groundwater for mining purposes on National Forest land administered by the Salmon National Forest.

Your letter of April 11, 1991 requested that the Department defer action on the Application until the required Special Use Permits had been obtained from your agency. I wrote the Zooks on September 12, 1991 informing them that their Application would be withheld from processing until we had received evidence of these permits.

On October 10, 1991, Dana Horton, Resource Specialist for Leadore Ranger District called to inform me that the Zooks had filed for the Special Use Permits. He said that there should be no problem and would notify the Department when approved.

This Application was deferred at the Forest Service request. Please inform the Department if the required permits have been obtained and the status of your objection to the Application, so that processing may resume or the Application can be voided.

Thank you for your prompt attention to this matter.

Sincerely,

Pamela Skaggs

RE: Application for Permit #74-7325

Dear Applicants:

The above referenced Application for Permit has reached the State Office for final review and action.

The application was protested by the U.S. Forest service because the proposed point of diversion and place of use are located on National Forest land administered by the Salmon National Forest. You are required to have a Special Use Permit and approved operating plan for mining operation from the Forest Service prior to occupying National Forest land. We have no evidence that you have applied for either of the necessary permits.

You must provide evidence of permission to use the land or show possessory interest in the land described on the Application for Permit before the Department can approve your application. Lack of possessory interest in the land designated as the place of use amounts to speculation and the application may be rejected.

If you cannot provide the information requested or have no further interest in pursuing the application, please fill out and return the enclosed withdrawal form. The application would become null and void and be removed from our records.

Failure to respond to this inquiry within thirty (30) days, with either the withdrawal or the requested information, is cause for the Department to void the application.

Sincerely,

Pamela Skaggs

Dear Mr. Reynolds:

Your protest against approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protest. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code): the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. That it is contrary to conservation of water resources within the State of Idaho.

Idaho Department of Water Resources
150 Shoup Ave., Suite 15
Idaho Falls, ID 83401

Dear Mr. Carlson:

We are writing in regards to Application for Permit No. 74-07325 filed by Clements and Dorothy Book. The Applicants propose to use 0.04 cfs of groundwater for mining purposes. Both the point of diversion and place of use are on National Forest land administered by the Salmon National Forest.

Diversion of 0.04 cfs will not adversely affect National Forest resources. However, the Applicants must have a Special Use Permit for the well and water system prior to occupying National Forest land and an approved operating plan prior to mining operations. So far, they have applied for neither. Therefore, please defer action on their Application until they have the appropriate occupancy permits from the Forest Service.

Sincerely,

for *Gray F. Reynolds*

RE: Application No. 74-07325

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in RECORDER-HERALD on April 4 & 11, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: Application for Permit Point of Diversion & Place of Use

Dear Applicants:

The application for permit that you submitted to this office requires additional information to complete the review process.

I received the maps that you sent; however, you indicated a different place of use, and the point of diversion on each of the maps. To assist you in determining the point of diversion and the place of use I requested a copy of the mining claim on file with the BLM. Enclosed is a copy of the mining claim that I received. Please review the map determine the location of the point of diversion (opening of the mine shaft), and the place of use for the water for mining purposes, stockwater, and domestic.

To clarify the information on the application, please review the enclosed information then contact this office on or before 13 March 1991 so that corrections can be made to the application.

Your prompt response will be appreciated.

Sincerely,

Keith C. Wilson

Re: Application for Permit

Dear: Mr. Wilson

The source of the water at the Mt. Boy mines is on the Silver Bell mining claim. The water comes from the Silver Bell Mining tunnel and is piped down the mountain 250 feet to the cookhouse. Any other water used on the claims has to be hauled there from the pipe at the cookhouse, such as drilling water and any other water that is used in the process of mining.

We are enclosing the maps and have tried to indicate the proper location and use of the water.

Please contact us if further information is necessary.

Sincerely,

Clements F. Zook

Dear Mr. Jones:

In response to your letter dated October 31, 1990, I enclosed **Notice of Claim No. A74-07099, Application for Permit**, and personal check No. 7739 in the specified amount of \$55.00. If you have any further questions or require additional information, please advise.

Thank you for your attention to this matter.

Yours truly,

Clements F. Zook
