CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right when combined with all other rights shall provide no more than 3.5 afa per acre for the lands above.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 17.5 af for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 4th day of OCTOBER, 1996.

RE: WATER RIGHT NO. 74-07323

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit. If you have any questions, please contact me within 10 days of receipt of this license.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

OCT 10 1996

MEMORANDUM

TO: File 74-07323

FROM: Sharla

DATE: September 30, 1996

RE: Telecon

On this date, Mel Skeen from the school district called in response to my letter. He stated that the well drilled around 1982 is used for the irrigation. The previous well drilled in 1956 stopped being used for irrigation at that time and has since been used for domestic use in the associated school buildings.

After speaking to Mel, I transferred his call to Carter Fritschle to discuss what needed to be done about filing the SRBA claim for Right 74-01134. Carter prepared a claim form for the right and is sending a transfer application to add the second point of diversion to that right.

The license can be issued for this right with a condition limiting the total diversion rate to 0.02 cfs/acre and the total combined volume under all rights to 17.5 af for the 5 acres.

KARL J. DREHER
DIRECTOR

School District No. 292
PO Box 119
Leadore, ID 83464

RE: Permit No. 74-07323

Gentlemen:

Permit No. 74-07323 is currently being reviewed for licensing. In checking department records, I find that there is a decreed right, No. 74-01134, in the name of the school district for irrigation of one acre in the same location as your permit. I have enclosed a profile report of the decreed right for your information.

Information in the permit file indicates that the well used under the permit was drilled sometime around 1982. The decree indicates a priority date of 1956, therefore, I assume there were two wells located in the same 40-acre tract. A Snake River Basin Adjudication claim has not been filed on the decreed right and this raises some questions. Was the previous well abandoned or is it still used for irrigation of an acre overlapping the four acres found irrigated under the permit? If it is still used, you need to contact the Adjudication Bureau of this department to file a claim to maintain the validity of the decreed right.

Please contact me at your earliest convenience, either in writing or by phone. My phone number is 327-5452. Once I receive information as to whether the older right is still used, the licensing process for your permit can be finalized.

Sincerely,

SHARLA CURTIS
Water Resource Agent

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 74-07323

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 74-7323

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Recorder-Herald on JANUARY 17 & 24, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

HWJ/rb
