RE: Permit No. 74-07255

Dear Permit Holder:

The Department received your correspondence requesting reinstatement of the above referenced permit on July 26, 1993. The permit lapsed on May 1, 1993, so the 60-day late period during which the permit can be readily reinstated has passed.

Because you failed to file the proof of beneficial use in a timely manner, and pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

- a) Two pieces of evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date, and
- b) Reasonable cause why the proof of beneficial use was filed late.
- c) Proof of Beneficial use and appropriate fee. (Enclosed)

Your correspondence along with any information which may have been submitted with it, will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information. Furthermore, the correspondence you have already submitted will fulfill item b) listed above.

I do want to inform you, however, that you can only submit proof of beneficial use on that amount of water you have indicated the well will produce. i.e. 300 gallons per minute or 0.66 cfs. As you are well aware, this is substantially lower than the amount applied for and authorized on the permit.

You should also be aware, that since the proof was filed late, your priority date has been penalized. Provided you supply the requested information, your priority date of September 27, 1988 will be advanced to the date the proof of beneficial use, appropriate fee, and the requested additional information is received.

If you have any questions or if I can be of any further assistance,
please feel free to contact me.

Sincerely,

Karen L. Gustafson

RECEIVED
JUL 26 1993
Department of Water Resources

Karen Gustason
Idaho Division Water Resources
1301 N. Orchard
Boise, Idaho

July 21, 1993

Dear Ms. Gustason:

On about April 20, 1993, we completed an irrigation well, water right permit number 74-07255. We ended up with a lot less water than we had hoped for and the driller suggested that we test pump in order to get an exact output. This created a delay until about late May. Meanwhile, the permit lapsed and the notification was sent to our ranch in Idaho. It was then forwarded to us in California where I teach in the public schools. This created another delay. When the pump test came back they said it was not a gallon over 300 gal. per minute.

In the meantime, we moved back to the ranch in Idaho and I am now trying to salvage what I can from the well. I would like to be able to use what water I have and would appeal to you to do what you can in this matter.

I might add that we started the well in October but the driller didn't seem in much of a hurry. Everything jammed together at the last minute and then the report was a real shock as the nearest well produced 2400 gal/min. I am on my knees begging assistance on this stupid lapse on my part. Ha.

Sincerely,

James Kruckeberg

RE: PERMIT NO. 74-07255 LAPSE NOTICE

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated February 28, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

Total number of acres irrigated: 142.4

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 20-201, Idaho Code, or the applicable Idaho law.
4. This right when combined with all other rights shall provide no more than 3.5 afa per acre for the lands above.
5. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
6. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
7. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 498.4 af for the lands above.

WATER RIGHT LICENSE

WATER RIGHT NO. 74-07255

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 25th
day of March, 1997.

KARL J. DREHER, Director

RECORDED
APR 23 1997

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 74-07255	)	
	)	
IN THE NAME OF JAMES KRUCKEBERG	)	ORDER OF
	)	REINSTATEMENT

This matter having come before the Idaho Department of Water Resources (Department), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On April 11, 1989, the Department issued Permit No. 74-07255 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before May 1, 1991.

2. On April 2, 1991, the Department granted an extension of time request in which the proof due date was extended to May 1, 1993.

3. On February 28, 1993, the Department sent a proof due notice to the permit holder.

4. On May 6, 1993, the Department sent a lapse notice to the permit holder.

5. Between May 21, 1993, and August 1, 1993, the permit holder and the Department corresponded back and forth several times. The Department informed the permit holder that an acceptable proof would need to be submitted before the file could be reinstated. The Department also informed the permit holder that two (2) pieces of evidence (showing development and a reason why the proof was filed late) would need to be submitted with the proof.

6. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

MISSOURI, MO
APR 20 1994

7. On February 11, 1994, the permit holder submitted an acceptable proof along with a photo showing the well in operation and a copy of an invoice from his pump purchase. The permit holder stated the reason for the late filing was the well did not produce the desired flow and he needed time to evaluate the situation.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used within the authorized development period.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 74-07255 is REINSTATED and the priority is advanced to February 11, 1994.

IT IS FURTHER ORDERED that the condition of permit approval which required a flow measurement port is REMOVED as a requirement.

Dated this 24th day of February, 1994.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 74-7255 and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 91.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The maximum rate of diversion for irrigation purposes under this permit shall not exceed 3.2 cfs.

Witness my hand this 11th day of April, 1989.

A. Glenn Saylor

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant James Kuchaberg Phone 762-8422 or 2441
Post office address 18 Mile Creek Ranch, Lander ID 83464
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of SW $\frac{1}{4}$ Govt. Lot _____
Sec. 7 Township 15N. Range 27E. B.M. Lander County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 6.4 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 6.4 cfs or acre-feet per annum and/or (b) _____ cfs or acre-feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. NAL & Pump to SANITARY SYSTEM.
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet; period of year when water will be diverted to storage: _____ to _____ inclusive.
 - c. Proposed well diameter is 24" inches; proposed depth of well is 200' feet.
 - d. Is ground water with a temperature of greater than 90°F being caught? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in KW. _____
 - Stockwatering; list number and kind of livestock. _____
 - Municipal; show name of municipality. _____
 - Domestic; show number of households. _____
 - Other; describe fully. _____

9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RE: WATER RIGHT NO. 74-07255

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be riled within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the printed name and title.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 74-07255

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating your permit and removing the flow measurement port requirement as a condition of the permit. Please note that your priority has been advanced to June 7, 1990. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RECEIVED

APR 20 1994

RECEIVED
FEB 11 1994
Department of Water Resources

Sirs:

The reason for the delay in submitting proof of use for the irrigation well is basically, it was a dry hole. We began the drilling in October 1993 and finished in Late April of 1993. The driller was not confident of the yield so he suggested we have a test pump done. This took until about early June.

The results of the test pump were a flow not over 300 gal/min. I needed 1000 gal/min so I decided it was over. Since I also pump from a creek, I eventually decided I could use this much water to supplement the stream flow during low water. By this time it was late summer and I needed to have a pump installed. The pump was on back order for a long time. It is now about September. Finally I got the pump installed and since you wanted 2 evidences of use, I assumed the pump bill would be one and a photo of pumping water would be the other evidence. My son came from Idaho Falls and took the picture but didn't give me the pictures till Christmas when we visited them. This cumulative effect was the cause of the delay and reason why I couldn't file before the permit lapsed. Once it had lapsed time didn't seem critical, especially due to the low yield of the well and its supplemental use.

I have enclosed a check for \$100 for the filing fee. If you have any comments or questions, contact me at 23710 Cedar Creek Terrace, Moreno Valley, California, 92557.

Sincerely,

JAMES KUNKEL

RE: Permit No. 74-07255

Dear Permit Holder:

The Department received your correspondence requesting reinstatement of the above referenced permit on July 26, 1993. The permit lapsed on May 1, 1993, so the 60-day late period during which the permit can be readily reinstated has passed.

Because you failed to file the proof of beneficial use in a timely manner, and pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

- a) Two pieces of evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date, and
- b) Reasonable cause why the proof of beneficial use was filed late.
- c) Proof of Beneficial use and appropriate fee. (Enclosed)

Your correspondence along with any information which may have been submitted with it, will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information. Furthermore, the correspondence you have already submitted will fulfill item b) listed above.

I do want to inform you, however, that you can only submit proof of beneficial use on that amount of water you have indicated the permit will produce. i.e. 300 gallons per minute or 0.66 cfs. As you are well aware, this is substantially lower than the amount applied for and authorized on the permit.

You should also be aware, that since the proof was filed late, your priority date has been penalized. Provided you submit the requested information, your priority date will be advanced to the date the proof is received, the appropriate fee, and the requested equipment is received.

If you have any questions or if I can be of any further assistance,
feel free to contact me.

Sincerely,

John E. Gustafson
John E. Gustafson
Secretary/Records Manager

JUL 28 1993
Department of Water Resources

Karen Gustason
Idaho Division Water Resources
1301 N. Orchard
Boise, Idaho

July 21, 1993

Dear Ms. Gustason:

On about April 20, 1993, we completed an irrigation well, water right permit number 74-07255. We ended up with a lot less water than we had hoped for and the driller suggested that we test pump in order to get an exact output. This created a delay until about late May. Meanwhile, the permit lapsed and the notification was sent to our ranch in Idaho. It was then forwarded to us in California where I teach in the public schools. This created another delay. When the pump test came back they said it was not a gallon over 300 gal. per minute.

In the meantime, we moved back to the ranch in Idaho and I am now trying to salvage what I can from the well. I would like to be able to use what water I have and would appeal to you to do what you can in this matter.

I might add that we started the well in October but the driller didn't seem in much of a hurry. Everything jammed together at the last minute and then the report was a real shock as the nearest well produced 2400 gal/min. I am on my knees begging assistance on this stupid lapse on my part. Ha.

Sincerely,

James Kruckeberg

Re: Lapsed Permit No. 74-07255

Dear Mr. Kruckeberg:

The Department is in receipt of the correspondence sent in connection with the above referenced permit.

Permit No. 74-07255 has lapsed and will be of no further force nor effect.

At some time in the future, and in order to secure a larger water source, two steps will need to be taken. First of all, since you are allowing this permit to lapse, you will need to apply for a new water right permit to replace this one. Secondly, you will also need to obtain a new drilling permit to deepen or enlarge the existing well.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Karen L. Gustafson'.

RECEIVED

MAY 21 1993

Department of Water Resources

Mr. L. Glen Saxton
Dept. Water Resources
1301 N. Orchard St.
Statehouse Mail
Boise, Idaho 83720

May 15, 1993

Dear Mr. Saxton:

Regarding your lapse notice on permit 74-07255, we just recently completed the test pump and found the well to be capable of only producing 300 gal/min at most. Since this is not adequate for my purposes, I decided not to go any further with the well at this time.

Am I correct in assuming that I will need a new permit if I want to go deeper in order to secure a larger water source? I am contemplating doing something along this line in another several years but not at this time.

Sincerely,

James Kruckeberg

LAPSE NOTICE

RE: PERMIT NO. 74-07255

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-312a, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated February 26, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Attached again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the owner in question.

JOHN GREEN
Water Allocation Bureau

CONFIDENTIAL
I hereby certify that the above information is true and correct to the best of my knowledge and belief.

RE: PERMIT NO. 74-07255 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 74-07255

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed

diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 74-07255

Dear Mr. Kruckeberg:

As part of the review process for large diversions (greater than 5.0 cfs) the supplementary information indicated in yellow on the attached copy of "Water Appropriation Rules and Regulations" must be supplied by the applicant.

I feel that it would be in your best interest to amend the application for permit. The fourth line in paragraph 4,5,3. waives the requirement for the additional information for filings which seek to appropriate five (5) cfs or less. If you wish to reduce the amount to 5 cfs an amended application will have to be filed (no additional fee required). For your convenience an amended application is enclosed. You will need to sign and return the amended application to this office before 28 December 1988.

Please feel free to contact this office for any additional assistance you may need.

Sincerely,

RE: Application for Permit No. 74-07255

Dear Sir:

This office is currently in the process of publishing notice that the above application was filed with the Department of Water Resources. Since the application may be of interest to you, a copy is enclosed for your examination. Comments concerning the application should be addressed to the applicant with a copy forwarded to this office. Protests objecting to granting a permit should be directed to this Department and received by September 19, 1988. Final action will be taken by this office shortly after this date, provided there are no protests lodged against the applications.

Respectfully submitted,

Ernest Carlson

RE: Application for Permit No. 74-07255

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 74-07255. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Recorder-Herald. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlson
Water Rights Supervisor

EC/cg

The permit(s) will be subject to all prior water rights. Protests must be filed with the Director, Dept. of Water Resources, Eastern Region, 150 Shoup Avenue, Suite 15, Idaho Falls, Idaho 83402 on or before
