RE: WATER RIGHT NO. 74-07251

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

KLJ/DA 1070

AGG 20 1997

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

Sub: Water- Water right application permit no 74-07251

To: Dept. of Water Resources
1301 North Orchard Street
Statehouse Mail
Boise, ID.

This letter is written on behalf of Arla Boots as a portion of her proof of beneficial use of water. The system in my opinion does not need a water measuring device for the following reasons. 1) Water is picked up with a sump pump out of an unnamed stream that is fed by a spring that originates about 200 yards upstream from the sump. There are no other water users on this stream (only a very small amount of water is available). 2) The water is delivered for irrigation through a mainline to a single high pressure sprinkler nozzle. The flow could be calculated by the nozzle opening and the pressure or by placing a hose over the nozzle and timing the flow into a 50 gallon drum.

I examined the system and it is complete and in working condition.

PROOF DUE NOTICE

RE: PERMIT NO. 74-07251

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Conversation Memo

Party: Helen Smith

11 December 1987

Employee: Ernest Carlsen

Subject: Telecon

Mrs. Smith owns property adjoining and west of the applicants property. Historically the irrigation waste water from Mrs. Smith's property has flowed down a gully paralleling the drive way used by both her and the applicant. Irrigation waste water from property north of the applicant's also flows into this gully. Mrs. Smith indicated there was no live stream in the gully. Meaning the origin of the unnamed stream on the application would have to be irrigation waste water.

We briefly discussed when irrigation water becomes waste water and the lack of any obligation for her to provide water to satisfy a waste water appropriation.

I recommended she question the applicant about the intent of the application and the applicant's position concerning the source of water.

RE: Application for Permit

Dear Ms. Boots:

I have received your application for permit and found the major parts in order. I have made some minor changes and had the application typed. The changes include: item 5 - total amount of water appropriated is 0.08 cfs; item 7 - 2 years to complete project; and item 13 - copy of USGS map showing area.

I am also returning your check No. 92-1 for \$45.00. The filing fee for 0.08 cfs is \$30.00 rather than \$45.00.

Please review the application for any errors I may have made, sign and return it to our office along with the \$30.00 fee.

Your prompt attention is appreciated and if I may be of more assistance, please let me know.
