Re: Permit No. 74-7143

Dear Mr. and Mrs. Ward:

We received your letter regarding the above-referenced permit on July 16, 1982. In the letter you indicated that you had already submitted a Statement of Beneficial Use for the permit. We have checked our records and found that in fact we have received the properly executed Statement, so the commencement of works card is not necessary. The reason that you received the Commencement of Works letter is that the mailing list had been prepared by computer before the date that we received the Statement of Beneficial Use from you.

You are correct in indicating that the next step in finalizing this water right is for a representative from our regional office to examine your system. Subsequent to that examination we will issue a license for the permit.

Thank you for your interest in this matter.

Sincerely,

DAVID R. TUTHILL, JR.
Supervisor, Water Allocation Section

Dear Mr. Tutthill

Received your letter concerning our water permit and advising us to notify you if construction was started yet.

I contacted the Idaho Falls Office and filled out a form to have the proper authorities come to check our irrigation system.

We have been using this system for approx 3 years now.

Mr. Tutthill you need not waste anymore time on letters and questionnaires. You only need to send some one to inspect the system and validate our permit.

The only item we needed to complete our system was a locking device on our pumps and that was installed Dec 1 1981.

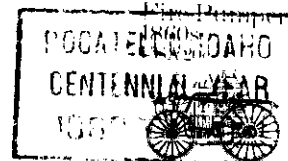

The Idaho Falls Office informs us that you have been notified as to our status with our system and you will follow up.

Please contact us when you are ready to inspect. You are not waiting on us we are waiting on you -

Sincerely R.E. Wood
