

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Harry L. Coleman Phone 768-2434
Post office address P. O. Box 70, Leadore, Idaho 83464

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 12 Township 15N
Range 26E B.M. Lemhi County, additional points of diversion if any: _____
SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 12, T. 15N, R. 26E, B.M.

4. Water will be used for the following purposes:

Amount 7.20 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 7.20 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Well, pump, 250 hp. motor with
wheel lines.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 20 inches; proposed depth of well is 250 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is five years (minimum 1 year -- maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

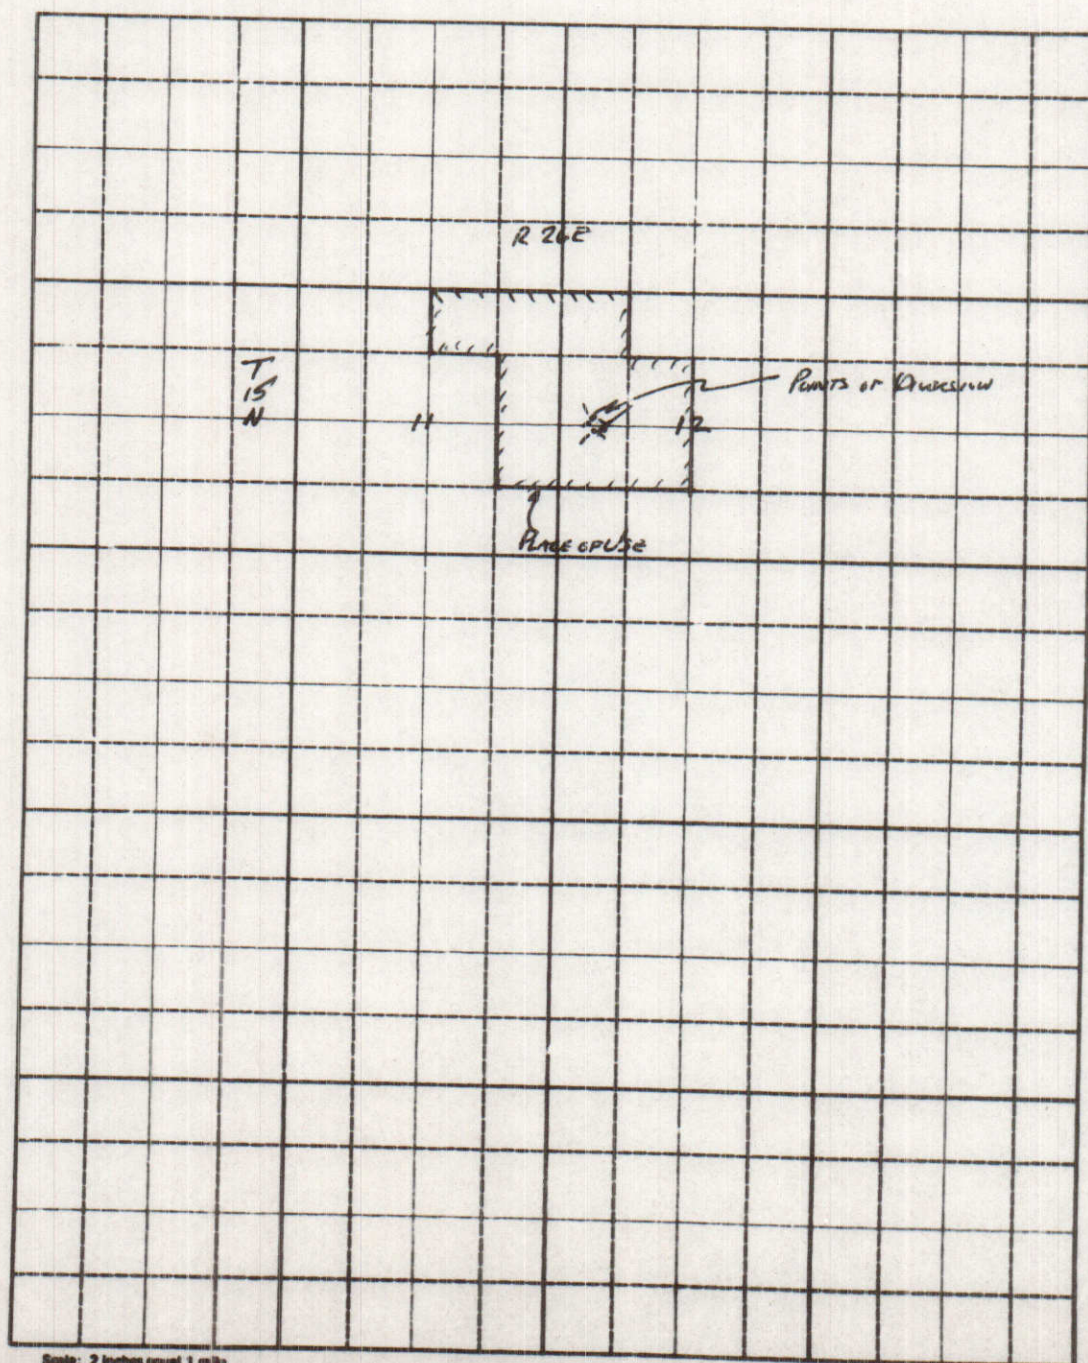

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

LAPSE NOTICE

AUGUST 01, 1984

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-216A OF THE IDAHO CODE, PERMIT NO. 74-7070 HAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE NOTICE THAT YOU HAVE COMPLETED THE PROJECT (PROOF OF BENEFICIAL USE) BY THE DATE REQUIRED ON YOUR PERMIT OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED MAY 31, 1984.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT THE STATEMENT OF BENEFICIAL USE POSTCARD OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED POSTCARD OR THE EXTENSION REQUEST MUST BE RECEIVED BY THIS OFFICE WITHIN SIXTY DAYS OF THE DATE OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A STATEMENT OF BENEFICIAL USE POSTCARD AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT A FEE OF \$15.00 MUST ACCOMPANY AN EXTENSION OF TIME REQUEST AND THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION.

L. GLEN SAXTON
CHIEF, OPERATIONS BUREAU

PROOF DUE NOTICE

MAY 31, 1964

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 74-7070 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE AUGUST 01, 1964. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

ENCLOSURES

December 16, 1961

Harry L. Coleman
P. O. Box 70
Lendore, ID 83464

Dear Mr. Coleman:

Re: Permit No. 74-7070

Enclosed is the statement of beneficial use postcard which you submitted in August along with a blank postcard.

I'm returning the statement for several reasons. First, the number of acres being irrigated was not indicated on the card. Secondly, the permit is conditioned such that an access port or other device is required for the determination of the rate of diversion by the department.

Your permit proposes the irrigation of 360 acres. If you do not have the number of acres developed up to 360 acres and plan to do so, and/or have not installed an access port or other device, then delay submitting the statement of beneficial use until such time as all work is completed on the project. You have until August 1, 1964 to submit the statement.

If you have any questions concerning your permit, please feel free to contact me.

Sincerely,

ALTA L. FLECK
Sr. Secretary

WATER RIGHT LICENSE

WATER RIGHT NO. 74-07070

Priority: June 8, 1990

Maximum Diversion Rate: 2.87 CFS
Maximum Diversion Volume: 927.5 AF

This is to certify, that HARRY L COLEMAN
PO BOX 70

LEADORE ID 83464 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated May 29, 1979; and
has submitted Proof of Beneficial Use on June 8, 1990. An examination indicates
that the works have a diversion capacity of 3.670 cfs of water from a **GROUNDWATER**
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	2.87 CFS	927.5 AF

LOCATION OF POINT(S) OF DIVERSION: SENE , Sec. 11, Township 15N, Range 26E
LEMHI County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
15N	26E	11	NENE 24	SENE 40	NESE 29	94

			SENW 39	NESW 29	NWSW 40	
			SWSW 3	SESW 2		211

Total number of acres irrigated: 305

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

MICROFILMED

WATER RIGHT LICENSE

WATER RIGHT NO. 74-07070

CONDITIONS OF APPROVAL AND REMARKS

6. Rights 74-07070, 74-07234, and 74-07303 when combined shall not exceed a total diversion rate of 3.67 cfs and a total annual diversion volume of 1337.0 af.
7. Rights 74-07070 and 74-07234 when combined are limited to the irrigation of 305 acres.
8. This right is limited to the irrigation of 265 acres within the place of use described above in a single irrigation season. Rights 74-07234 and 74-07303 are also diverted through the point(s) of diversion described above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 18TH day of August, 1997.

Total number of acres irrigated: 305
230

We added 1 more Tract so we now irrigate 330 Acres.

Permit holder asserts that no one will be injured by such change and that such change will be made at permit holder's own risk.

Signed at Coleman Ranch, this 10th day of Aug, 19 97.

Shirley P. Coleman Wife

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 74-7070 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
HARRY L. COLEMAN	)	
_____	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On July 11, 1979, the Director of the Department of Water Resources issued Permit No. 74-7070 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before August 1, 1984.

2. On May 31, 1984, the Department sent a proof due notice to the permit holder.

3. On August 24, 1984, the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On June 8, 1990, Proof of Beneficial Use was received by the Department from the permit holder.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly

MICROFILMED

JUL 27 1990

establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holder submitted evidence to confirm that water has been put to beneficial use. Evidence includes an irrigation electric service agreement and a signed statement from a representative of the Idaho Power Company confirming that service was established to the permit holder for irrigation beginning in 1981. Also included are Agricultural Stabilization and Conservation Service (ASCS) crop report records from 1979 to 1985.

7. The permit holder has stated that proof was submitted late because he believed he had already submitted proof and responded to all prior notices. The Department's records show that the permit holder did submit proof in 1981 but that the proof statement was returned because it was incomplete. The permit holder did not discover that the permit lapsed until filing a claim in the Snake River Basin Adjudication.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 74-7070 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit ~~is~~ advanced to June 8, 1990.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Harry L. Coleman Phone 768-2434
Post office address P. O. Box 70, Leadore, Idaho 83464

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 12 Township 15N
Range 26E B.M. Lemhi County, additional points of diversion if any: _____
SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 12, T. 15N, R. 26E, B.M.

4. Water will be used for the following purposes:

Amount 7.20 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per minute)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per minute)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per minute)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per minute)

5. Total quantity to be appropriated:

a. 7.20 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Well, pump, 250 Hp. motor with
wheel lines.

b. If water is for irrigation indicate acreage in each subdivision in the tabulation below

[illegible]

Total number of acres to be irrigated 360

c. Describe any other water rights used for the same purposes as described above. None

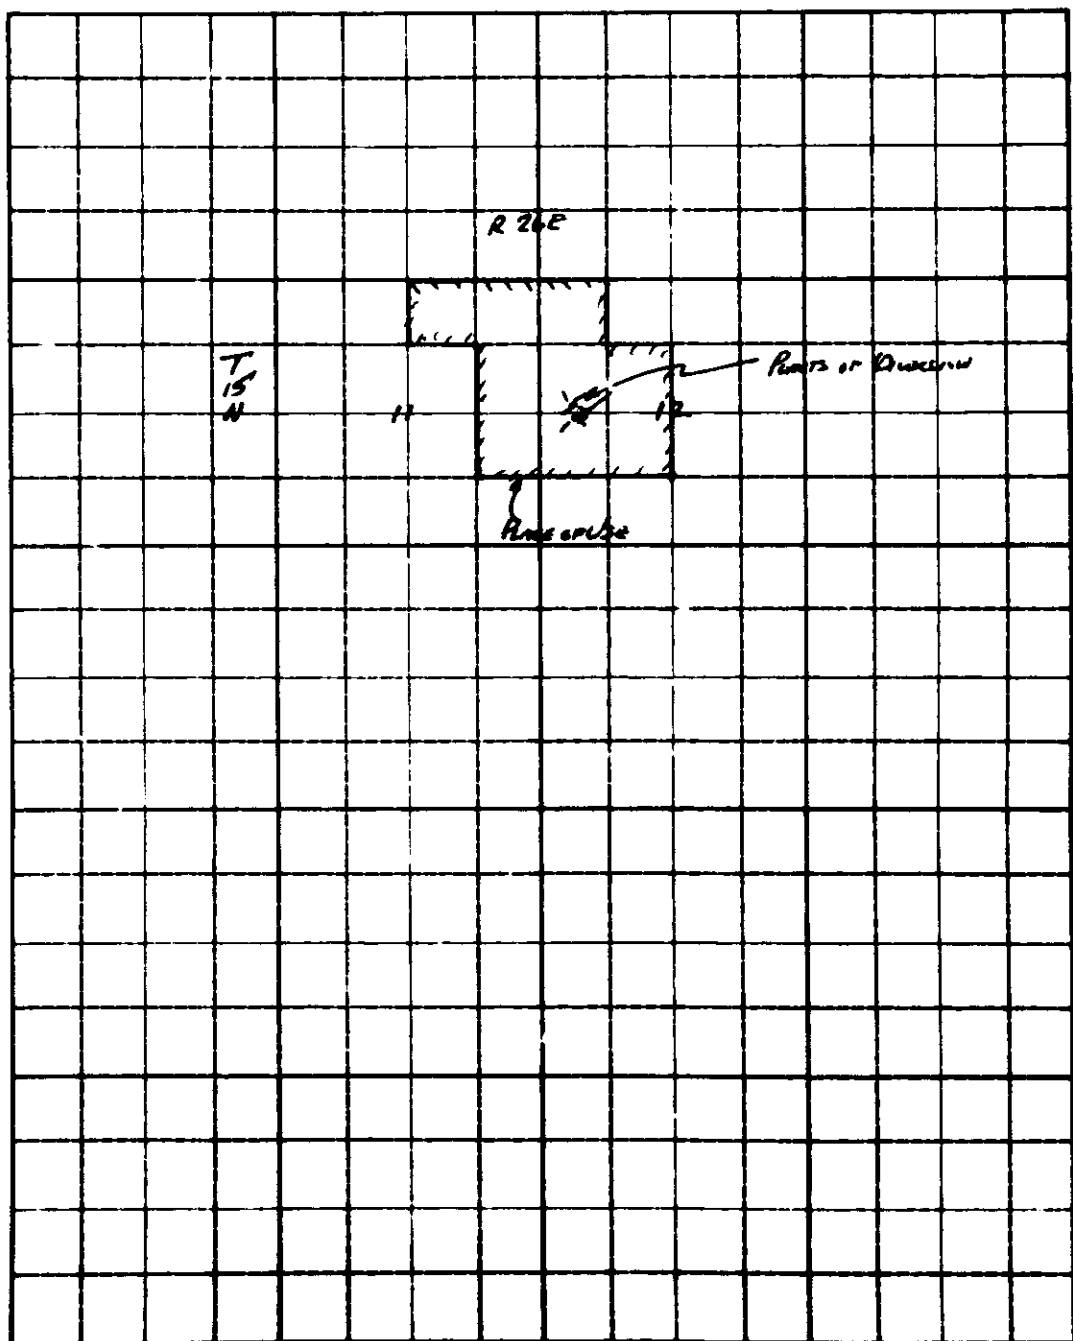

9. a. Who owns the property at the point of diversion Applicant

b. Who owns the land to be irrigated or place of use Applicant

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 74-7070, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 84.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 11 day of July, 19 79.

RE: Water Right Nos. 74-07070, 74-07234, and 74-07303

Dear Mr. Coleman:

I have enclosed copies of Water Right Licenses 74-07070, 74-07234, and 74-07303, which were issued on August 18, 1997. I have also enclosed copies of your Applications for Amendment of Permit, which were approved. The licenses are preliminary orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

On your amendment applications for rights 74-7070 and 74-7234 you wrote that you have added another tower to your center pivot so that you now irrigate 330 acres, or 25 more than the 305 acres described on your licenses. The licenses were issued for the 305 acres reported by our field examiner because licenses cannot reflect changes that occurred after the authorized development period of the permits on which they are based.

However, I have received your new application, no. 74-07374, on which you list a total place of use of 460 acres, which totals 15 more acres than the total of 445 described on all three of your licenses. Before I process your new application, I would like to know if 460 acres is an accurate total, or if the total should be 470 acres (330 + 140). If 460 is accurate, please let me know right away so that your new permit can be issued as soon as possible. If 470 is what you intended, then you should amend your new application and have it re-advertised. I will hold your application for 14 days. If I have not heard from you within that time, I will forward it for approval with the 460-acre place of use.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen
Water Rights Supervisor

Notice of Intent to Void Permits

RE: Water Right Nos. 74-07070, 74-07234, and 74-07303

Dear Mr. Coleman:

As you and I have discussed on several occasions, before water right permits 74-07070, 74-07234, and 74-07303 can be licensed, they must be amended to depict your point of diversion location as it was actually developed. I have already sent the amendment forms to you twice. If I do not receive the amendments from you within fourteen days, I will assume you no longer have any interest in these permits, and I will initiate the proceedings to void them. Please note that the required amendment fee is \$50 apiece (\$150 total).

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen
Water Rights Supervisor

RE: Phone call from Harry Coleman

Harry Coleman called this morning in response to the letter I sent him on July 2, 1997. He said that he still feels that he is entitled to licenses that reflect a diversion capacity greater than the 3.67 cfs measured by IDWR in 1995. He told me that he would like me to talk to Ray Rigby about these water rights. He will have Ray Rigby call me soon.

RE: Water Right Nos. 74-07070, 74-07234, and 74-07303

Dear Mr. Coleman:

In March I sent you amendment forms that must be completed before water right licenses can be issued for water rights 74-07070, 74-07234, and 74-07303. When you received the amendment forms, you contacted me to discuss the diversion rates indicated them. This morning Harold Jones of IDWR's Idaho Falls office informed me that you filed a new application for permit to resolve your concern about the diversion rates. The new application will be advertised and processed in due course by the Idaho Falls office.

Meanwhile, the amendment applications still must be completed. In case you misplaced the ones I sent earlier, I have enclosed new copies. Please review them carefully, sign each one, and return them to me with the required fee, which is \$50 apiece (\$150 total).

If I have not received a response from you within fourteen days, I will assume you no longer have any interest in these permits, and I will move to void them.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

RE: Phone call from Harry Coleman

This morning Harry Coleman and I spoke about the information from Golden West Irrigation that was faxed to me. I explained that it certainly demonstrates intent to to develop a 2250 gpm diversion but that it is not evidence that the system produced 2250 gpm. I suggested filing a new application for permit, but Mr. Coleman feels strongly that he developed a 2250 gpm water right under these permits. To support his position, Mr. Coleman is going to provide some affidavits from people familiar with the historic operation of his system.

DEAR HARRY,

ENCLOSED IS THE ORIGINAL SALES ORDER FOR YOUR IRRIGATION SYSTEM SOLD TO YOU IN 1981. AS YOU CAN SEE THE ORIGINAL SYSTEM REQUIREMENT WAS 2250 GALLONS PER MINUTE. I KNOW YOU HAVE HAD SOME PROBLEMS WITH YOUR WELL SINCE THEN, HOWEVER, THE ORIGINAL OPERATION WAS SET TO BE 2250 GALLONS PER MINUTE.

I HAVE ENCLOSED THE DEEPWELL BOWL PUMP CURVE. IT SHOWS THE DESIGN POINT AT 2250 GPM.

I HOPE THIS INFORMATION IS HELPFUL TO YOU. LET ME KNOW IF YOU NEED ANYTHING FURTHER.

RE: Phone call from Harry Coleman

Harry Coleman called today to discuss the diversion rate being recommended for licensing on the permits listed above. Mr. Coleman said that the yield from his well began to diminish before the 1995 and 1996 measurements of his system and has continued since then. He wants a couple of weeks to gather supporting documentation that he will send to me. He said he believes he was diverting at 2000 gpm before the problem started.

RE: WATER RIGHT NOS. 74-07070, 74-07234 and 74-07303

Dear Permit Holders:

The above referenced water rights are in the process of being licensed. However, before licenses can be issued, your permits must be amended to depict your water rights as they have actually been developed.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendment reflects changes in the location of the point(s) of diversion and the place(s) of use descriptions. Please review carefully and if you concur, sign the amendments and return them with the \$50.00 filing fee for each amendment within 14 days.

The last page of the Application for Amendment forms contain a list of Conditions of Approval and Remarks proposed for the licenses when they are issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Enclosure

SEP 16 1997

MEMORANDUM

TO: Files 74-07303, 74-07070, and 74-07234

FROM: Sharla

DATE: February 26, 1997/March 5, 1997

RE: Recommendation Adjustment(s)

The final license recommendations for Rights 74-07070/07234/07303 are based on the following:

H. RECOMMENDATIONS

74-07070:	Irrigation	4/15 - 10/15	2.87 cfs	927.5 afa
74-07234:	Irrigation	4/15 - 10/15	0.80 cfs	140.0 afa
74-07303:	Irrigation	4/15 - 10/15	2.41 cfs	490.0 afa

In a memo dated 10/4/96 from Ernie Carlson to Don Simpkins concerning the licensing of 74-07070, Ernie stated that the permit holder had work done on his well in the spring of 1996 and the driller or pump company lost a screen in the well column. After failing to recover the screen, the well's output dropped by about 50%. He further stated that in speaking with Skip Jones, Skip's suggestion was to issue the license based on a theoretical calculation. Then the right holder could file a transfer application or new permit, depending on how much water he could get from a theoretical.

This well serves all three rights being reviewed for licensing. There is a copy of a polysonic reading tape in each file dated 1995 and another for 1996. The measurement from 1995 (which was prior to the screen accident) yielded a rate of 3.67 cfs. The field reports were dated 3/95.

Further information supplied by the examiner confirms that only one pivot is in operation at any one time, but both are used alternately during a single irrigation season. When both pivots were in operation simultaneously along with the booster pump, the system cavitated.

Because the measurements were taken prior to problems with the well and in light of the fact that each pivot is used separately, the measurements are being used for licensing rather than the theoretical calculation.

10/10/97

SEP 10 1997

Page 2

In response to questions raised by Shelley Keen, I spoke with Skip Jones on March 5. Each pivot is operated at different times during the same irrigation season. They have always been operated this way; this method is not the result of the damage to the well in 1996. Since rights 74-07070 and 74-07234 are under the same pivot, they can be licensed as a permissible place of use.

There are three acres not covered by 74-07303. These lands cannot be picked up under 74-07234 (this right having capability of picking up the three extra acres without going beyond permitted number of acres) because this pivot wasn't in operation at the time proof of beneficial use was filed for 74-07234.

Finally, Skip had no problems with issuing the licenses using the measurements rather than theoretical calculations. After further thought on the matter, he feels that is the appropriate path to take.

E. NARRATIVE/REMARKS/COMMENTS

SEE ATTACHMENTS

THE SYSTEM IS A 283 ACRE, 360° CIRCLE PIVOT (LOW PRESSURE).
THE NORTHEAST 22 ACRES IS NOT INCLUDED, IT IS A DESERT
LAND ENTRY.

SYSTEM CONSISTS OF A 100 HP MAIN PUMP WITH A 75HP BOOSTER
PUMP. THE PUMP BOWLS ARE PLACED AT 165 FEET IN
A 250' DEEP WELL. ON 3/15/95 THE STATIC WATER IN
THE WELL WAS 38 FEET. A 10" MAIN LINE CARRIES
WATER TO THE LARGE PIVOT (74-7070), THE LINE
THEN BRANCHES OFF TO THE SMALLER PIVOT (74-7303).

DURING TIME OF TEST ONLY ONE PIVOT COULD BE USED
AT A TIME. WHEN BOTH SYSTEMS (PIVOTS) WERE ATTEMPTED
TO BE USED AT THE SAME TIME THE BOOSTER PUMP
WOULD CAUSE SYSTEM TO CAVITATE. SYSTEM AT TIME OF
TEST WAS 60 PSI.

PERMIT # 74-07070 IS LIMITED TO 5.79 CFS.

THIS RIGHT (74-07070) IN COMBINATION WITH PERMITS
74-07303 AND 74-07234 SHALL NOT EXCEED 5.79 CFS.

Have conditions of permit approval been met? ☒ yes ☐ no

MICROFILMED
SEP 16 1997

F. FLOW CALCULATIONS

Measured Method:

☒ Additional Computation Sheets Attached

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{283 \text{ ACRES} \times 3.5 = 990.5 \text{ AFA}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{5.79 \text{ CFS} \times 183 \times 1.9835 = 2,101.6}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{990.5 \text{ AFA}}$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<u>IRRIGATION</u>	<u>4/15/</u>	<u>10/15</u>	<u>5.79</u>	<u>990.5</u>
			<u>3.41</u>	
			<u>3.41</u>	
Totals:			<u>5.79 CFS</u>	<u>990.5 AFA</u>

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☐ Change P.U. as reflected above ☒ Add P.U. as reflected above ☐ Other

Reviewer _____ Date _____

SEAL
MICROFILMED
SEP 16 1997

Memo

From: H.W. Jones

To: Files 74-07234, 74-07303 & 74-07070

The flow calculations show 3.676 cfs done on the large pivot which takes in 74-07070 and 74-07234. There is a total of 305 acres licensed under these 2 permits.

$$\frac{3.676 \text{ cfs}}{305 \text{ acres}} = 0.0120 \text{ cfs/acre}$$

74-07070 has 283 acres $\times 0.0120 = 3.41 \text{ cfs}$

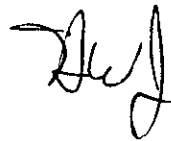

74-07234 has 22 acres $\times 0.0120 = 0.26 \text{ cfs}$

A second flow reading was taken for 74-07303 (small pivot)

This was 2.41 cfs

The theoretical flow for this common well is 5.79 cfs!

The 3 permits above used in combination should be then conditioned not to exceed 5.79 cfs.

1-200-1MEL
SEP 16 1997

FLOW CALCULATIONS:

$$Q = \frac{(100 \text{ HP} + 75 \text{ HP BOOSTER})(8.814)(.70)}{(38' \text{ STATIC} + 10' \text{ DRAW}) + (2.308 \times 60 \text{ PSI})} = \frac{1,079.7}{186.48} =$$

$$Q = 5.79 \text{ CFS THEORETICAL}$$

SONIC METER PUMP FLOW = 3.03 CFS ON LARGE PILOT ONLY. WHEN BOTH LARGE AND SMALL PILOTS WERE IN OPERATIONS, IN CONJUNCTION WITH BOOSTER PUMP, THE SYSTEM CAVITATED AND READINGS WERE NOT ABLE TO BE TAKEN.

RECOMMEND USE THEORETICAL PUMP FLOW OF 5.79 CFS.

RE: Licensing of Permit 74-07070

Harry Coleman called yesterday about what he can do to get a greater diversion rate for licensing purposes. You may recall he did some work on his well this spring and the driller or pump company ~~dropped~~ ^{lost} a screen in the well column. After failing to recover the screen the well's output dropped by about 50%.

I spoke with Harold (Skip) and his suggestion was to issue the license based on a theoretical diversion rate. Then Harry can either file a transfer application or new permit application, depending on how much water he gets with a theoretical.

Please put this permit at the top of your stack of "write ups pending". If we expedite licensing Harry may have enough time to get something done by next spring.

Thanks.

Ernie.

Dear Permit Holder(s):

We acknowledge receipt of the statement of beneficial use and the supporting documentation for reinstating the above referenced permit. Before a license can be issued, a field examination will be made by a representative of this Department. Enclosed is an Order of Reinstatement. Please note that the priority date has been advanced to June 8, 1990.

If you have any questions regarding this matter, please contact this office or our Western Regional Office at 334-2190.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Account 0273-005777-0
Installation of 3-Phase Power to
175HP Irrigation Pump

Dear Mr. Coleman:

This irrigation pump is located in the NW $\frac{1}{4}$ of Section 12, Township 15 N., Range 26, E., B.M. We installed electric service to this facility in June of 1981; to be more specific, construction was completed on June 26, 1981.

A total of \$2,845.94 was billed during the 1981 irrigation season. For the 1982 season, the total was \$4,823.94. Our records indicate that this pump has been in operation each year since 1981.

Please find enclosed a copy of the original contract pertaining to the installation of this facility.

I hope this information is sufficient for your use.

Sincerely,

Paul T. Schneider
District Manager

Harry Coleman Leadore, Id. 83464
(Name) (Mailing Address)

herein called Customer, agrees to receive and pay for, and IDAHO POWER COMPANY, herein called Company, agrees to supply electric service to the amount of 175 HP, in the form of three phase alternating current at approximately 60 cycles per second and approximately 480 volts, within a range of plus five and eight tenths percent (5.8%) to minus eight percent (8.0%) at sustained voltage level (voltage level may vary in excess of this range due to switching operations, motor starting, etc.), for Customer's Pumping operations, at or near Leadore, in Lemhi County, State of Idaho for a term of seven year(s) from and after the beginning of the irrigation season, 19 81, in accordance with and subject to the Company's rules and regulations and Schedule No. 24, as now or hereafter in effect at the time of delivery of service. The point of delivery of power shall be where the Company's wires or apparatus are connected with those of the Customer at or near NW 1/4 of Section 12 T. 15N R. 26E B. M.

All payments shall be made at Company's office at Salmon, Idaho. The Customer agrees to pay, regardless of the amount of power actually consumed, the minimum charges as provided in the rate schedule, rules and regulations applicable to service hereunder. A copy of the rate schedule and the rules and regulations as now in effect are attached hereto as part of this agreement.

It is understood and agreed that the initial date of delivery of power and energy under this agreement is subject to the Company's ability to obtain required labor, materials, equipment, satisfactory rights-of-way and comply with governmental regulations.

In consideration of the special investment to be made by the Company in extending its lines and facilities to supply the Customer's pumping power service requirements, Customer guarantees a minimum annual* payment in the amount of \$ 4025.00 to the Company during the term of this contract, such annual minimum to run with the land and pumping power service hereinabove referred to and to be payable by the Customer's successors or assigns as a condition of service during the term of this agreement.

*The annual period hereunder shall be the twelve month period beginning March 1 of each year.

Customer further agrees to make an additional cash payment to the Company thirty (30) days prior to construction, which, based upon the minimum annual payment agreed to above, is in the amount of \$24,314.00. Customer further agrees to pay, in addition to charges computed under Rate Schedule No. 24, an annual facilities charge payment of \$1458.84. Such additional cash payment and annual facilities charge payment are subject to adjustment in accordance with Schedule No. 71 - Overhead Line Extensions.

Extend contract one year. Work order not completed until 6-26-81.

SKETCHES OR REMARKS

Slides indicated Cua was questionable. Ted visited farm on 7.27.83. The ground is dry land pasture which has not been cropped. Ted requested that Ted Adams also inspect field & report to you at Committee meeting, scheduled for August 4. Ted's findings were the same as C & D's. Committee determined Mr. Coleman was not eligible for program benefits under 1983 program.

Rexburg, ID 83440

RE: Permit No. 74-7070/Harry L. Coleman

Dear Mr. Rigby:

The Department received your correspondence dated May 15, 1990 concerning the above referenced permit. You requested that the Department review its records to verify whether proof of beneficial use had been submitted and if the Department had provided proper notice of lapsing.

I have personally reviewed the file containing all records pertinent to permit no. 74-7070. The file indicates that Mr. Coleman did submit proof in 1981. However, that particular proof statement was returned to Mr. Coleman because he did not adequately describe the extent of development or beneficial use under the permit (see attached copy of correspondence dated 12/16/81). The Department's file does not show that the proof statement was ever re-submitted.

The Department sent a proof due notice to the permit holder on May 31, 1984, which was 60 days prior to the proof due date. On August 8, 1984, the Department sent a lapse notice to the permit holder because proof had not been submitted. The file was then microfilmed and destroyed in January of 1985 and has remained lapsed since that time.

As you mention in your letter, the Department can reinstate the permit but the priority date will be advanced to the date that proof is submitted (i.e.; 1990). I have enclosed a proof of beneficial use form and instructions for your use. A license examination fee must be submitted with the proof statement. If proof is submitted, additional information is required before reinstating the permit. Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.

b) Reasonable cause why the proof of beneficial use was filed late.

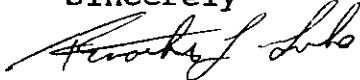

MICROFILMED

JUL 27 1990

A second option available to your client is to file a new application. A new application will of course have the same priority as the reinstated permit. In filing a new application, your client will have to pay an application fee and then submit a proof of beneficial use statement and exam fee within one year. The advantage of filing a new application is that you do not have to submit the information required by Section 42-218A, Idaho Code. The disadvantage to filing a new application is that your client will have to pay an application fee in addition to an eventual exam fee. An application fee for the diversion rate shown on the lapsed permit would be 275.00 dollars.

I hope I have addressed all of your questions concerning this matter. Please feel free to contact this office if you have additional questions.

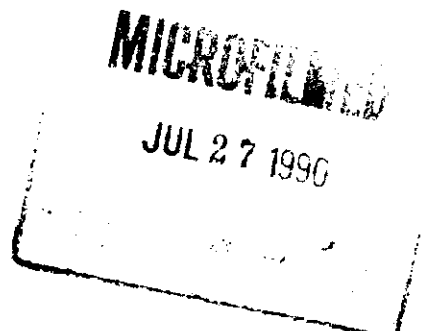

Sincerely

TIM LUKE

Sr. Water Resource Agent

Department of Water Resources

Dear Keith:

Re: Permit No. 74 7070
Harry L. Coleman

When Harry L. Coleman met with your department personnel in Idaho Falls to file his claim in the adjudication case, he was advised that the above-numbered permit had been canceled for his failure to file his final proof. This shocked him greatly because he and his wife were definitely of the opinion that they had done everything that had been required of them, that they had put the water to beneficial use in accordance with the provisions of the permit, and had used it at all times since the date of the permit, July 11, 1979.

Upon questioning about any notices, the Colemans said they had responded to all notices. I asked them if they had responded to the notices in the Swan Falls case, and they said to the best of their knowledge, they had. In any event, they were very definite in their opinion that they had submitted all things they had been required to submit, and had no notice that their permit was being canceled.

Is there a possibility that there could have been a lack of communication, due to the Swan Falls matter and the delays pursuant thereto? They feel it would be very unfair to require them to file a new application and go through the permit process again. When reasonable excuses have been given before, the department has been willing to reinstate the permit, if it is in fact canceled on the department's records, and to advance the priority date. Is that possible in this case? Before that occurs, however, they ask that the records be reviewed, and particularly the Swan Falls filings,

MICROFILMED

JUL 27 1990

R KEITH HIGGINSON, DIRECTOR
IDAHO DEPARTMENT OF WATER RESOURCES

because they are so sure that proof has been submitted, and no notice of cancelation has been received.

Please investigate this matter and advise.

Sincerely,

Ray W. Rigby

LAPSE NOTICE

AUGUST 09, 1984

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-210A OF THE IDAHO CODE, PERMIT NO. 74-7070 WAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE NOTICE THAT YOU HAVE COMPLETED THE PROJECT (PROOF OF BENEFICIAL USE) BY THE DATE REQUIRED ON YOUR PERMIT OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED MAY 11, 1984.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT THE STATEMENT OF BENEFICIAL USE POSTCARD OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED POSTCARD OR THE EXTENSION REQUEST MUST BE RECEIVED BY THIS OFFICE WITHIN SIXTY DAYS OF THE DATE OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A STATEMENT OF BENEFICIAL USE POSTCARD AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT A FEE OF \$15.00 MUST ACCOMPANY AN EXTENSION OF TIME REQUEST AND THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION.
