BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Earl P. Smith
(Applicant)

74-7005

NOTICE OF APPLICATION FOR WATER

Notice is hereby given that Earl Pyeatt, Box 11, Tendency, Idaho has on May 23, 1968 applied for permit to divert 0.1 cubic feet per second of water from a subterranean source under application No. 75-7004. Water will be diverted by well, and storage tank within the NW 1/4 SE 1/4, sec. 26, T. 19 N, R. 24 E, B.M., Lemhi County and is to be used from January 1 to December 31 for domestic use and from May 1 to October 15 for irrigation in the NE 1/4 SW 1/4, sec. 26, T. 19 N, R. 24 E, B.M.

Any protest against this application must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

LICENSE OF WATER RIGHT

License of Water Right No. 74-7005 Priority May 23, 1968 Amount 0.02 cfs

THIS IS TO CERTIFY, that EARL PYEATT
of Tendoy, Idaho, has complied with the terms and conditions of Permit
No. 74-7005 issued pursuant to Application for Permit dated May 23, 1968,
and has submitted proof to the Department of Water Administration on Sept. 11, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 0.02 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 0.02 for domestic from Jan. 1 to Dec. 31 (both dates inclusive)

Amount 0.02 for irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 0.02 cfs of water be diverted at
any one time, said waters to be diverted within the _____

NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 26, Twp. 19 N, Rge. 24 E, B.M.

in the county of Lemhi; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 3.00 acre feet per year or _____
3.0 acre feet per acre. for irrigation purposes and 0.57 acre feet per
year for domestic purposes.

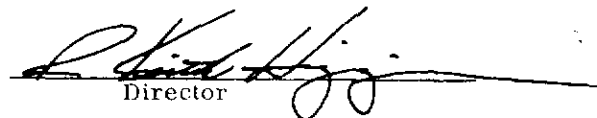

Description and location of place of use:

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. M^{rs}. Eldowney:

Please advise me why I have not received a license for Permit No. 74-7005.

In your correspondence of July 16-1971 you stated that if I concurred with the findings stated, a license would be issued within 10 days.

I did concur with these findings after receiving your correspondence of July 21, in which you explained more clearly the benefits under proposed license. What is holding up the issuance of this license?

As I wrote in July the waters of the Lemhi River are in the process of being adjudicated and time is running short for filing claims for water rights.

Please give this your immediate attention.
Very truly yours
Earl Pyeatt

Re: Permit No. 74-7005 - Earl Pyeatt

Earl Pyeatt
Box 11
Tendoy, Idaho 83468

Dear Mr. Pyeatt:

When your application was originally filed, it was assigned the number 75-7004. Later it was found to be in the wrong basin; therefore, the Department has renumbered it to Permit No. 74-7005.

We feel the examiner that conducted the investigation of your system recommended a maximum rate of diversion of 0.02 cfs as being diverted under your system. The Department's letter of July 16, 1971 was not clear as to total benefits under the proposed license. The license would be issued in the following manner:

0.02 cfs for Domestic purposes from January 1 to December 31 with a maximum volume per season of 0.57 of an acre foot; and 0.02 cfs for Irrigation from May 1 to October 15 with a maximum volume per season of 3.0 acre feet with the restriction that a maximum rate of diversion under this license shall not exceed 0.02 cfs and the maximum volume per season shall not exceed 3.57 acre feet per season.

Domestic use under Idaho statutes normally includes up to $\frac{1}{2}$ acre of irrigation. If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

74 7005

Tuesday, Idaho.
July 20-71.

Department of Water Administration
Boise, Idaho.

RECEIVED
JUL 21 1971
Department of Water Administration

Dear Mr. M. E. Eldowney:

Your correspondence of July 16th at hand in which I note only .02 cubic feet per second for domestic use from Jan 1 to Dec 31 is all the water recommended. Does this mean we will have no license for sprinkling a lawn, of which we have quite an area or the small garden, both of which are less than an acre. In a letter dated July 1-1968 we were advised that 0.02 for domestic and 0.02 for one acre or less could be considered and these are the figures in the approved application, 0.04, with the sprinkling 0.02 cubic feet from ~~May~~ May 1 to Oct 1.

Will you please explain if the domestic use includes garden and lawn sprinkling, if not why were we not allowed recommendation for same.

Very truly yours,

Earl Pyett

by M. Pyett 74 7005

This may be of no importance but
The permit is No. 74-7004 instead of No. 74-7005

July 16, 1971

Re: Permit No. 74-7005 - Earl Pyeatt

Earl Pyeatt
Box 11
Tendoy, Idaho 83468

Dear Mr. Pyeatt:

The Department has completed an examination of the beneficial use under your permit. The results of the examination recommends for licensing .02 cubic feet per second for domestic use from January 1 to December 31 with a maximum per year of .57 of an acre foot per season.

If you concur with these findings, the Department will within 10 days issuance of this letter issue a license as referenced above. If you do not concur with these findings, please advise us.

Your assistance in this matter is greatly appreciated.

Very truly yours,

Donald W. McEldowney

Boise, Idaho.

Sir:

I have at hand a letter dated Sept. 29, 1969 which acknowledges receipt of my affidavit submitted as proof of beneficial use for permit 75-7004. You advised in this correspondence that a field examination must be made before a license could be issued.

Your field men were here during the summer of 1970 and made this examination, telling me the report would be favorable. However I have never received a license for this permit, or heard further from you.

Since the waters of the Lemhi River are being adjudicated it is necessary to put in claim for all water being used, and water rights for same.

Will you kindly advise me when I can expect the license for above permit.

Very truly yours,

Earl Pyatt

Dear Mr. Mc Eldowney:

Department of Reclamation

Your correspondence of July 1 at hand and the information concerning application for water is appreciated. I can see that I have been mis-informed as to the proper amount to apply for for domestic use.

The lawn and garden plot are under an acre in size. Will you correct my application for amount of water applied for from 0.10 to 0.02 cubic ft per sec. for domestic and for one acre or less, 0.02 cubic ft per sec. for irrigation, as recommended.

Sorry to be in error,
Very truly yours,

Earl Rydett.

Mr. Earl Pyeatt
Box 11
Tendoy, Idaho 83468

Dear Mr. Pyeatt:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit 75-7004.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. 75-7004

Earl Pyeatt
Box 11
Tendoy, Idaho 83468

Dear Mr. Pyeatt:

One of the conditions of the approval of your permit no. 75-7004 was that proof of application of the water to beneficial use be submitted to this office on or before November 1, 1969.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. Keith Higginson

State Reclamation Engineer

Dear Mr. Pyeatt:

Per your request of August 20, 1969, we are enclosing an affidavit for your use in submitting proof of application of the water to beneficial use for permit 75-7004.

It is no longer required that a notice be published in the newspaper when a permit holder makes proof of beneficial use.

If we may be of additional service, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

C. Stephen Allred,
Assistant State Reclamation Engineer
Boise, Idaho
Department of Reclamation

Dear Sir:

My approved application to appropriate the public waters of the State of Idaho, has been received. Thank you.

By your correspondence I see there has been a misunderstanding concerning the construction of water development. There is no well at all.

The excavation was made by a bull-dozer digging a cross-cut in the bottom of a narrow gulch in the mountains. We dug to sufficient depth to get the necessary flow of water into this excavation, which was again partially filled with large rock.

Plastic pipe was attached to the installed cement active storage and the water comes to dwelling by gravity flow.

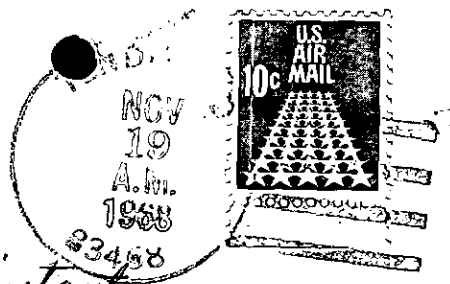

Hope this clarifies the situation.

Yours truly,

Errol Ryland

Q
Dear Mr. Pyeatt:

P
Y
The irrigation of garden and lawn as indicated in your application apparently is less than an acre in size, as you have not supplied any information to the contrary. However, if you intend to irrigate more than an acre of ground, we should have the additional information concerning the public land survey subdivision that the land is located in, the number of acres, the section, township, and range that the ground is located within. It is also noted that you have requested 0.1 cubic feet per second for your use. There are existing department policies and State Statutes that the maximum the department could consider would be 0.02 cubic feet per second for domestic and for one acre or less, 0.02 cubic feet per second for irrigation. We realize that it is extremely difficult to irrigate with this small amount of water; however, in order for the department to justify approval of additional water, we would request that you supply either information concerning the soils that you are irrigating or the capacity of your diversion system and the method of irrigation. In addition we would like a specific request from you for water in excess of the maximum legal rate of diversion.

Your assistance is most appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

(Do not sign this letter)

Signature of claimant

Very truly yours,

Donald W. McElkdowney
Appropriation Examiner

Re: Application No. 75-7004

Earl Pyeatt
Box 11
Tendoyl, Idaho 83468

Dear Mr. Pyeatt:

The department has received your application for permit; however, it is noted that under 3a of the application, you have listed the point of diversion as being in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, sec. 26, T. 19 N, R. 24 E, B.M. The map you have submitted would indicate that if the point of diversion is in the SW $\frac{1}{4}$, it would be in the NE $\frac{1}{4}$ SW $\frac{1}{4}$. We are returning your application for your clarification of this issue. Please make the correction and return the application as soon as possible.

We also request that you supply an answer to Items 8c, 9a, 9b, and 9c of the application. Thank you for your assistance in this matter.

Very truly yours,

Donald W. McElldowney
Appropriation Examiner
