Clinger Enterprises

Dear Mr. Purcell:

In a letter dated April 9, 1987 you expressed a desire to protest the above captioned application should it propose to change the point of diversion.

A review of the application reveals the entire right will continue to be diverted at the historic point of diversion. There should be no change in the watermaster's procedure for regulating the water rights.

With regard to protesting the application, the final date of protest was April 6. Your letter was not received until April 10, and therefore could not be accepted as a protest.

Respectfully submitted,

RE: Application for Transfer of Water Rights 74-0037/74-0039A,
Clinger Enterprises, Inc.

Dear Mr. Ogden:

The enclosed application for transfer has been initiated by
Clinger Enterprises, Inc. pursuant to an agreement between you
and the corporation dated March 15, 1985.

The intent of the application is to provide you with water and
thereby resolve your objections to the application for exchange
of water rights 74-0996/74-0031 filed by Marjorie and Earl McRea.

Though payment of the filing fee for the transfer application
was not addressed in the March 15, 1986 agreement it was our
understanding from notes taken at the conference held in Leadore
on January 30, 1986 that you were to pay the filing fee of
\$50.00.

Your prompt attention to payment of the fee would be appreciated
and would allow us to proceed with processing of the application
for transfer.

Dear Ms. Armstrong:

A copy of the memorandum agreement between Clinger Enterprises Incorporated and Roger and Penny Ogden was sent to this office with a request by Allen C. Stevens that an application for transfer be prepared pursuant to that agreement.

After reviewing the memorandum agreement I prepared the enclosed application. This application essentially changes the nature of use for approximately one miners inch of water from irrigation to stock water. The irrigation water was appurtenant to two acres in the NE1/4SE1/4 of Sec. 29, T. 16N, R. 26E. Based on the application it would become appurtenant to Mr. Ogden's property in the SW1/4 of Section 28 for stockwater usage.

If you have any questions concerning the application or there are changes you feel should be made please call me. Should your review indicate the application is in conformance with the agreement then you will need to sign the application in the presence of a notary and return it to this office. It is my understanding that Mr. Ogden has consented to pay the filing fee on the application. Once its returned with your signature, I will therefore contact Mr. Ogden's attorney to make arrangements for payment of the fee.

Your prompt attention to this matter would be appreciated. It will help us expedite processing of the transfer application and also reinstate administrative consideration of the exchange application filed by Marjorie and Earl McCrae in June of 1985.

Dear Mr. Ogden:

On January 30, 1986, the Department of Water Resources conducted an administrative conference on your protest against the above captioned application for exchange. Based on the information presented at the conference it was the Department's understanding that you would pursue preparation of an application for transfer to change the nature of use and place of use for approximately one inch of water under water rights 74-0037 and 74-0039A in the name of Clinger Enterprises, Inc.

Those present at the conference agreed action on the exchange application should be deferred while you pursued transferring a portion of the Clinger right. To keep our file on the exchange current, we would like a status report on what action has taken place regarding the application for transfer and when you expect the application will be filed with the Department. If it appears it will be some time before the application is filed, the McReas' may wish to proceed with administrative action on their application for exchange.
