RE: Measurement of Diversions from Double Springs Creek

Dear Mr. and Mrs. Rambelski:

The purpose of this letter is to confirm our telephone conversation dated September 27, 1983, in which we discussed the measuring requirement of diversions from Double Springs Creek pursuant to permit No. 73-7076. As I indicated, a copy of this letter will serve as a request to our Eastern Regional office to provide to you assistance in determining a means of measuring your diversion from the creek.

As I understand your diversion, there is a small flume to a screened intake which feeds a long buried pipeline. Since the piping material is made from aluminum, an access port welding coupling would be difficult to attach. As I indicated, you may wish to give the regional office a call next irrigating season when you are utilizing water diverted under this permit and your other permit. Perhaps by discussing your system with the field examiner, you can determine a means to measure your system so that the two permits can be examined during one field visit. Regional office personnel are normally very pleased to respond to this type of request, which alleviates scheduling difficulties.

As indicated in our letter dated September 20, 1983, we acknowledge receipt of your statement of beneficial use postcard, so all paperwork is completed to enable a field exam early next irrigating season. The telephone number of the regional office is 525-7161.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

Dear Mr. and Mrs. Rembelski:

Re: Permit No. 73-7076

This office acknowledges receipt of the statement of beneficial use postcard and your letter requesting removal of the measuring device requirement.

Enclosed is a copy of the Order the department issued pertaining to the measuring device requirement. Be sure to note that the department has changed the requirement, but did not eliminate it entirely.

Before a license can be issued, a field examination of the system must be conducted by a representative from our regional office. I cannot tell you when this examination will be conducted, but our representative will try to contact you before conducting it.

If you have any questions concerning your permit, please feel free to contact this office at 334-4290 or our regional office at 525-7161.

Sincerely,

RITA I. FLECK
Sr. Secretary

Re: Permit No. 73-7076

Dear Mr. Johnson:

Since we are the only water users of all the water of Double Springs Creek (in conjunction with all of the rights) we feel it would be inappropriate for us to install a measuring device.

We are located seven miles above the Pahsimeroi River and our closest neighbor, and all the water is decreed to this ranch. I have enclosed a letter from the Pahsimeroi Water Master relating to the proposed measuring device.

I hope this will satisfy your conditions for amending the permit and look forward to your reply.

Very truly yours,

Ronald Rembelski
