Dear Rita Fleck

I'm very sorry that I'm just getting to your letter. Madell S. Wartzig owned the place but we brought her out last year & these letters went to her & she just gave them to us. Also I have been gone for a week. Anyway Water Permit No (73-7031) is a well that is used on wheel lines it is sanded in & we took the Meter ^{or Measurement device} off to get it fixed & didn't get it back on. We'll have it back on by next season or before. But we do have the Measurement device for Water Permit No 73-7031. Please let me know if you have any more questions.

Dear Mr. Latimer:

After our telephone conversation, I reviewed Permit No. 73-7031, filed in the name of Madell S. Waetzig, which shows the point of diversion (well) as being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, T. 15N, R. 22E, Custer County. While I was looking over the permit, I noticed it listed the county as Custer instead of Lemhi. I notified the Boise office; they will correct the original permit there. I have made the correction in our office. If you would cross out Custer County and add Lemhi County, that will correct the error.

I mentioned that Ken Flowerdew had inspected the drilling site and found no cap welded to the top of the casing, nor was the seal to the land surface as required. He found the location to be in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, T. 15N, R. 22E. The well driller, Eugene Richards, located the well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, also. I have prepared a map showing the well as described on the permit in blue and the penciled location as described by Ken and Gene. Each one of the squares in Section 29 and 30 is a 40 acre subdivision of that section. We can correct the permit when you add the other new well by amending the permit to show the correct locations of the wells.

If you have any further questions, please feel free to contact this office.
