Dear Mr. Snook:

Returned herewith are proof of completion of works and three depositions of proof of beneficial use of the water under permit 27847 which you submitted.

In all cases the point of diversion is shown as being in Township 13 North whereas the permit and our map of the area show it should be in Township 14 North, the same as the land being irrigated. That should be corrected.

You neglected to sign the Proof of Completion of Works. The \$5.00 fee for the Certificate of Completion of Works is missing.

The affidavit of publication should be enclosed with these papers, after correction, and all remitted to this office with the \$5.00 fee for the Certificate.

Dear Mr. Snook:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 27847, in the name of John Lloyd Horn. Final Proof is to be made before you, as Notary on the 26th day of February, 1960, at 2:00 o'clock P.M., at Salmon, Idaho. 60

As of this date we have mailed the Notice to the Recorder Herald with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Sir:

Under the terms of your Permit No. 27847 you are required to make proofs of completion of works and application of water to beneficial use on or before March 24, 1960.

We enclose Form 6 to be filled in and sworn to by you before a Notary Public, and returned to this department on or before the above date, for making proof of completion under the permit. Upon receipt of this affidavit, provided same satisfactorily shows the completion of works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Dear Mr. Snook:

Enclosed is application with attached checks, \$5.25 signed by Beulah Horn and \$2.00 signed by Fred H. Snook, carbon copy of this application and two blue prints of the works.

The application shows source of water supply is Falls Creek with point of diversion in the NE 1/4 NW 1/4, Sec. 19, T. 14 N., R. 22 E. The maps show the ditch diversion from Falls Creek in the SE 1/4 SW 1/4, Sec. 1, T. 14 N., R. 22 E. We could correct the point of diversion however at bottom of the page under 10 and 11, there will probably be other changes necessary.

Under 12, the time required for the completion of such works is "no time required" and no additional time to make complete application of the water to the proposed use. The time for completion of works should not be less than 1 year to provide ample time to make the proofs before the due date.
