NOTICE OF PROOF
OF COMPLETION OF WORKS
AND APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 P. M. on the 8th day of May, 1957, at Challis County of Custer, State of Idaho, before Jack B. Furev a Notary Public, proof will be submitted of the completion of works for the diversion of 1.9 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22567 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Claus Burstedt, May, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.9 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.9 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N., Range 21 E., B. M.

5. The place where said water is used is E $\frac{1}{4}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N., R. 21 E., B. M.

6. The date of priority which said user is prepared to establish is August 8, 1952.

MARK R. KULP
State Reclamation Engineer

State of Idaho License and Certificate of Water Right

Water License No. G-22567

Amount 2.0 c.f.s.

Water District No.

Priority January 21, 1952

THIS IS TO CERTIFY that CLAUS BURSTEDT
of May, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 21, 1952; that Permit No. G-22567
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.0 second feet, was issued thereunder on October 16, 1957, showing that said works
were completed on the 8th day of May, 1957; and that on the 8th
day of May, 1957, CLAUS BURSTEDT

of May, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-22567 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6129, on the 16th day of October, 1957;
The right hereby confirmed dates from January 21, 1952;

The Point of Diversion is located
in the SE 1/4 SE 1/4, Sec. 13, Tp. 14 N., R. 21 E., B. M. County Custer
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.0 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
14 N.	21 E.	13	NE 1/4 SE 1/4	40	40
			NW 1/4 SE 1/4	20	25
			SE 1/4 SE 1/4	40	35
			Total number of acres irrigated -	- - -	100

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
16th day of October, 1957.

/s/ Mark R. Kulp

State Reclamation Engineer.

APPLICATION FOR PERMIT 73-2141

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 30307
Permit No. G- 22567
District No.

1. Name of Applicant: **CLAUS BURSTEDT**
Postoffice address: **May** County: **Lemhi** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **3.6** or Idaho
Miners' inches **180** or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Drilled well (subterranean flow)**
4. Location of point of diversion or well is in the **SW corner of** $\frac{1}{4}$ of the **SE** $\frac{1}{4}$ of Section **13**
Twp. **14 N.**, Rge. **21 E.**, B.M., County of **Custer**
5. Water is to be used for: **Irrigation**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: **Well and pump**
8. Estimated cost of works: **\$ 5,000.00**
9. (a) Is reservoir to be used? **No**
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Five(5)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

CLAUS BURSTEDT Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 9:45 A. M. January 21, 1952

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-22567

Recorded in Book 80 Page 22567 Approved January 29, 1952

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before March 29, 1952 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before July 29, 1954

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before January 29, 1955

Witness my hand this 29th day of January, 1952

Re: Permit No. G-22567

Mr. Claus Burstedt
May,
Idaho

Dear Mr. Burstedt:

Enclosed is the Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-22567 confirming the right with priority of January 21, 1952, to your use of 2.0 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, for irrigation of 100 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, Township 14 North, Range 21 East, B.M.

Enclosed also is departmental receipt #G-2911 for \$11.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and six dollars for the License fee.

Very truly yours,

MARK R. KULP

Re: Permit No. G-22567

Mr. Claus Burstedt
May,
Idaho

Dear Mr. Burstedt:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-22567 shows that your well is capable of conveying 100 miner's inches (2.0 c.f.s.) of water for irrigation of 100 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$11.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License (six dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of January 21, 1952, to the use of 2.0 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, for irrigation of 100 acres in the E $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, Township 14 North, Range 21 East, B.M.

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. G-22567

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Claus Burstedt

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the SE¹₄SE¹₄ of Section 13

T. 14 N., R. 21 E., B.M. County of Custer

4. Describe works as they exist, giving dimensions and capacities of same: Pump is Jacuzzi 4 stage with 11" bowls. 8" x 185' = Column 208' x 16" = well. h = 150'. Motor is 7.5 hp Cat Diesel. 3 gal fuel per hr. @ 17¢ per gal. Whole is enclosed in large log shed

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

65 acres in E¹₂SE¹₄, 30 acres in NW¹₄SE¹₄ all in Sec. 13., Twp. 14 N., Rge. 21 E., B.M.

See map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

Delivery was thru short 8" pipe to N. to ditch to fields by gravity.

8" pipe was full. Much more possible by opening the motor a bit.

This examination was made on the 8 day of August, 1957

Re: permit No. G-25567
Claus Burstedt

Mr. Blair W. Archibald
Secretary-Treasurer
East Idaho National Farm Loan Association
Blackfoot, Idaho

Dear Mr. Archibald:

In reply to your letter of August 6, 1957 requesting evidence of a water right filing in this department, from a subterran source appurtenant to the following described lands - our records show the following:

Permit No. G-22567, amount filed on, 5.6 c.f.s.; source of supply, Subterranean - Point of Diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, Township 14 North, Range 21 East. Place of use - E $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 13, Township 14 North, Range 21 East; and lots 3 and 4, Section 18, Township 14 North, Range 22 East. Final Proof of Completion of Works and Beneficial Use were made by Claus Burstedt dated May 8, 1957 and filed in this department. Proofs are satisfactory and states that well will produce at least 1.9 cubic feet per second and that 95 acres have been irrigated with said water.

Final action before issuing of License is awaiting engineer inspection report. We are unable at this time to state just when this inspection can be made.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BLAIR W. ARCHIBALD, SECRETARY-TREASURER

FEDERAL LAND BANK LOANS

August 6, 1957

RECEIVED
AUG 7 1957
Department of Reclamation

Mr. Mark R. Kulp,
State Reclamation Engineer
State House
Boise, Idaho

Re: 93448

Dear Mr. Kulp:

We have just closed a Federal Land Bank loan to Jack C. Burstedt. He has offered as security along with other lands the following described property:

E $\frac{1}{2}$ of the SE $\frac{1}{4}$, NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 13, 14 N, 21 E.
Lots 3 and 4, Sec. 18, 14 N, 22 E.

One of the requirements of our loan is that Mr. Burstedt furnish evidence of a deep-well permit for 90 miners inches with a 1950 priority. Mr. Burstedt is unable to locate his application for permit. We would appreciate it if you could furnish us with the number of the permit and verify that he does have such a right.

The well is supposedly located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 13, Twp. 14 N. Range 21 E.

It is very probable that you will have the permit listed under the name of Claus Burstedt. Claus is the father of Jack, and in connection with this transaction Claus has just deeded this security to his son, Jack.

Yours truly,

Blair W. Archibald

Re: Permit # 22567
~~G-25567~~

Claus Burstedt
May, Idaho

Dear Mr. Burstedt

Statutes requires a field inspection in connection with the proofs on Permit # G-25567 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday

August 8th

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

NOTICE OF PROOF
OF COMPLETION OF WORKS
AND APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 P. M. on the 8th day of May, 1957, at Challis County of Custer, State of Idaho, before Jack B. Furey a Notary Public, proof will be submitted of the completion of works for the diversion of 1.9 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22567 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is: Claus Burstedt, May, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.9 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.9 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 13 Twp. 14 N. Range 21 E. B. M.

5. The place where said water is used is E $\frac{1}{4}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 13 Twp. 14 N. R. 21 E. B. M.

6. The date of priority which said user is prepared to establish is August 8, 1952.

MARK R. KULP
6-4 State Reclamation Engineer

ey M. Gridley, manager of The Challis Messenger, weekly newspaper, at Challis, Idaho, hereby swear that the hereto attached and part hereof, was in the regular and entire issue of The Challis

Messenger for 4 consecutive weeks, commencing with the issue dated April 11, 1957, and ending with the issue dated May 2, 1957.

Dear Mr. Furey:

This acknowledges your letter of May 15, 1957, with which was enclosed Proof of Application of Water to Beneficial Use, and Completion of Works in connection with the above captioned Permit by Claus Burstedt.

The depositions have been checked and are in good form, however, on the two depositions of the witnesses, in certifying to the witnesses' deposition, no date of certification was entered. Please enter same and return to this department.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement
of Permit No. G-22567 Under the
Provisions of Section 5594, Idaho
Compiled Statutes.

ORDER REINSTATING PERMIT

WHEREAS, Permit No. G-22567 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit January 29, 1957; and,

WHEREAS, On the 1st day of March, 1957 notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 12th day of March, 1957 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 1st day of April, 1957, ^{Notice of Publication} ~~depositions~~ of the holder ~~and two witnesses~~ were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

WHEREAS, After examination of the said depositions, the Commissioner of Reclamation of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. G-22567, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. G-22567 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 20th day of May, 1957.

Permit No. G-22567

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Claus Burstedt and I reside at May, Idaho. My occupation is stock raising.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #G-22567, dated Jan. 29, 1952, and the date of priority is Jan. 21, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water supply is from a well located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13 Twp. 14 N., R. 21 E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The diversion works consist of a pump from a well powered by a diesel motor of approx. 125 H.P. and it is capable at all times of conveying 1.9 cu. ft. per sec. of time from the point of diversion to the place of use, through a portion of the California Ditch and through other ditches made on the premises. The well is 208 feet deep and a 16-inch casing is also 208 ft. in depth and it is approx. 140 feet to the water, which is approx. 60 ft. deep. The pump discharges at least 1.9 cu. ft. per second of time and this was measured by Clark Fitzgerald, the watermaster of Water Dist. #19, which includes the Pahsimeroi Valley, during the time that he served as watermaster in said district.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation on the E $\frac{1}{4}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 13, Twp. 14 N., R. 21 E., B.M. In the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section, 35 acres have been irrigated; in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said section, 30 acres have been irrigated; and in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section, 30 acres have been irrigated. The meadow land is of a cultivated type and the improvements include an alfalfa crop which produced approximately 200 tons of hay from the three forty-acre tracts described in this paragraph, all as a direct result of the water used. And the water has been put to beneficial use and the works completed prior to Jan. 29, 1957.

22567

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.9 cubic feet per second of time of the pump waters

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Waters diverted under the above permit have been used since the spring of the year in 1952 on the lands described for the purpose of raising hay crops and grain crops and to the full extent of 1.9 cu. feet per second of time of said pump waters and to the extent that approx. 200 tons of hay were cut off said real property during the farming season of the year 1956.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Many years ago waters from the Pahsimeroi River were diverted to said premises from a decree of the Pahsimeroi River with a priority of June 24, 1910, in the amount of 135 inches for the property described herein. These waters have been used during 1956 for a short time but because of the date of priority, are nothing more than high water out of the Pahsimeroi River and they are not too dependable.

Permit No. G-22567

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Alfred R. Skeen, age 39 years, residing at Challis, Idaho.

My occupation is service station operator, and bulk gas & oil distributor.

Ques. 2. Are you acquainted with Claus Burstedt, the holder of Permit No. G-22567? How long have you known him and where does he reside?

Ans. I have known Claus Burstedt fifteen years and know that he resides near May, Idaho, in the Pahsimeroi Valley.

Ques. 3. Have you read or heard read said Permit No. G-22567, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water supply is from a pump to subterranean waters and the place of diversion is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N., R. 21 E., B. M., and the works for conveying water from point of diversion to place of use is by lateral ditches running to the premises.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will safely conduct 100 inches of water to place of use and I have seen approx. 100 inches being so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per-minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver approx. 100 miners inches of water and I estimate the amount on the basis of the ditch being completely full and it being a ditch which would carry at least 100 miners inches of water.

22567

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation upon the E $\frac{1}{2}$ SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N. R. 21 E., B. M. In each subdivision I would estimate I have seen irrigated at least 30 acres on ground which has been farmed and cultivated. The improvements consist of a hay-crop, primarily alfalfa, grown as a direct result of said use of this water.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is of a gravelly type and I would estimate than an inch and one-half to the acre could be properly used for cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I witnessed the application to beneficial use of the waters under this permit every year since 1952 as result of being on the lands hereinabove described; that I have seen said lands using the full amount of water that the ditches and pump would handle and that the pump would deliver. I have seen the water put to beneficial use and the works completed prior to Jan. 29, 1957.

(Signed) *Alfred R. Sheen*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Challis County of Custer, State of Idaho, on this 8th day of May A. Ans. Water is used for irrigation upon the E $\frac{1}{2}$ SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13 Twp. 14 N., R. 21 E., B. M. In each subdivision I would estimate I have seen irrigated at least 30 acres on ground which has been farmed and cultivated. The improvements consist of a hay-crop, primarily alfalfa, grown as a direct result of said use of this water.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is of a gravelly type and I would estimate that an inch and one-half to the acre could be properly used for cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I witnessed the application to beneficial use of the waters under this permit during the year 1954 and several times since; that I have seen said lands using the full amount of water that the ditches would carry and the pump would deliver; and that I have seen the water put to beneficial use and the works completed prior to Jan. 29, 1957.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

RECEIVED
JUL 1 1957
Department of Reclamation

Notice is hereby given that at 2:00 P. M., on the 8th day of May, 1957, at Challis, County of Custer, State of Idaho, before Jack B. Rurey, a Notary Public, proof will be submitted of the completion of works for the diversion of 1.9 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22567 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Claus Burstedt, May, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.9 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.9 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N., Range 21 E., B.M.

5. The place where said water is used is E $\frac{1}{2}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 14 N., R. 21 E., B.M.

RE: Permit No. G-22567

Mr. Claus Burstedt
May, Idaho

Dear Mr. Burstedt:

We are in receipt of your letter dated March 7, 1957, attached to the Cancellation Notice sent you March 1st, 1957.

You state that we did not enclose the forms with the letter of a previous date, which was a notice that your proofs were due not later than January 29, 1957. We herewith enclose the necessary forms for making proof of Completion of Works and Beneficial Use on Permit No. G-22567.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36, setting the time and place and naming the Notary Public before whom the proofs are to be made.

Both copies of Form 36 to be returned to this department together with form 11 which is your authorization for us to have the Notice published at your expense in the designated county newspaper.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by yourself and two disinterested witnesses in making these proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

To Claus Burstedt

May, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 22567 to Appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works & Beneficial Use Proofs were due January 29, 1957

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 22567 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

Said PERMIT NO. G- 22567 claims the use of 3.6 cubic feet per second of the Subterranean Waters of a well with point of diversion located SE 1/4 Sec. 13., Twp. 14 N., Rge. 21 E., B.M., was approved January 29, 1952.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the First day of March, 1957.

Re: Permit No. G- 22567

March 1, 1957

To Claus Burstedt

May, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 22567 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works & Beneficial Use Proofs were due January 29, 1957

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 22567 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

Said PERMIT NO. G- 22567 claims the use of 3.6 cubic feet per second of the Subterranean Waters of a well with point of diversion located SE¹/₄ SE¹/₄ of Sec. 13., Twp. 14 N., Rge. 21 E., B.M., was approved January 29, 1952.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the First day of March, 1957.

Mark R. Kulp
State Reclamation Engineer

DEPARTMENT OF RECLAMATION

November 1, 1956

Mr. Claus Burstedt
May
Idaho

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-22567. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than January 29, 1957.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

RE: Permit No. 22567

Mr. Frederick Hughes Snook
Attorney at Law
Salmon, Idaho

Dear Mr. Snook:

In reply to your letter of May 1, in regard to Permit Nos. G-22567 and R-887 in the name of Claus Burstedt.

Since Mr. Burstedt can only develop 125 inches from the well in Permit No. G-22567, we can accept another filing for 55 inches from Sulphur Creek for use on the same land, thus making a total of 180 inches of water for the 180 acres.

It will not be necessary to reduce the amount applied for in Permit No. G-22567 since proof can only be made on the amount actually delivered.

We enclose application for an additional permit from Sulphur Creek.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation
Boise, Idaho

Dear Sir:

Mr. Claus Burstedt of May, Idaho, has called at my office with the request that I write to you concerning his water permits, #G22567 and R887. One of the permits is for 180 inches of water, but at the present time Mr. Burstedt can pump only 125 inches of water from his pump although he has 180 acres of land to irrigate. His other permit, namely #R887, is in connection with a proposed reservoir which has not been constructed.

Mr. Burstedt is wondering if your office could issue him a permit for 55 inches of high water from Sulphur Creek which would still leave him only 180 inches for his 180 acres, but of course the record as it now exists shows that he has a permit for 180 inches. Is there some procedure whereby this could be reduced to 125, the present capacity of his pump, and then he be granted the additional 55 inches of high water from Sulphur Creek, making a total of one inch to the acre.

Very truly yours,

FHS/fw

RE: Permit No. G-22567

Mr. Claus Burstedt
May
Idaho

Dear Mr. Burstedt:

We enclose Permit No. G-22567 which you will note has been approved for 3.6 second feet (or 180 inches) of water instead of the 4 second feet applied for, since the statutes allow the maximum of 1 inch per acre for irrigation purposes.

We also enclose departmental receipt No. 24119 for the \$5.75 filing fee, and as your check was for \$6.00, there is a refund of 25 cents due you which we enclose herein.

Your attention is directed to the limitations and conditions of this permit as given on the fourth page under approval of the State Reclamation Engineer.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

January 14, 1952

Mr. Claus Burstedt
May
Idaho

Dear Mr. Burstedt:

In reply to your letter of January 8, 1952, we enclose a form of application for permit to appropriate water from a well together with the pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,
