THIS IS TO CERTIFY, that BILL R. MULLER
of Longview, Washington, has complied with the terms and conditions of Permit
No. 69-7003 issued pursuant to Application for Permit dated May 22, 1972,
and has submitted proof to the Department of Water Resources on September 18, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.02 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

I'm NOT sure how I would be able to show the system to him - Since I reside 600 miles away. Besides - there isn't much to show. A small holding tank over the well - which by the way is out of operation right now due to a faulty relay switch on the pump. This don't matter much no how, cause

MICROFILMED

the place is NOT being lived on. It rests
there - unused - It may possibly remain
this way for quite a long time - as I
see no immediate plans to return to Idaho.
The only way it would change is if I
should move back home which I'd like to
some day if its possible - but till then
its just a summer place, the system
is used NOT AT ALL right now - could
later on fix the relay switch and use
it occasionally in the summer time for
summer outings.

OR - IF I should sell the place -
it would have new owners - I have
been considering this some.

Let me hear from you please
in regard to this.

Dear Sirs:

I'm writing to you in regard to this deal on my water. I don't mean to sound like I don't have no sense, but I'm not sure if I've done the right thing or not, or filled this out properly.

You see - I do want the water right because I do intend to use it once in a while, as I am treating the place now like recreation property. I also may move back one day there and live there permanently or at least retire there one day.

However - I am not living there now, and have not since 1974. There is no home there, the water is not being used, the well is shut off.

Now you will have to let me know if I have filled this out proper

Dear Mr. Muller:

One of the conditions of approval of your water Permit No. 69-7003 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. Muller:

We received your October 31 letter concerning your water right permit no. 69-7003, a copy of which is enclosed. Enclosed also is a copy of the driller's log of your well.

We need you to fill out the enclosed Proof of Application of Water to Beneficial Use form, if you have finished your project and the water has been beneficially used during the past five years.

If you have not entirely completed your project such as the house or plumbing, you may request an extension of time by completing the enclosed Extension of Time Request form.

Your permit lapsed on October 1, 1977, and one day of priority is being lost each day. Priority will continue to be lost until either the proof of beneficial use affidavit is submitted or an extension of time is requested. Either the proof of beneficial use or the extension of time request must be received by this office on or before December 10, 1977, or this permit cannot be reinstated.

HELLO, WASHINGTON
OCT 31, 1977

DEAR DICK:

I'm pretty confused on this matter. This makes the second letter, I have wrote to you regarding it and you have yet to answer my questions or explain this further. I may be just a country boy thats a little backwoods or something, but I cant make heads or tails out of what you want.

--- In the first place, as I explained in an earlier letter, I am not living on the property, and have not for 3 years. The water is not being used, everything is turned off. I'll ask it again - what effect does this have on the information you want? I also do not plan to reside on the property or use the water for perhaps quite sometime. I may even sell the property, I have not decided definite.

NEXT - I work on the road, do a lot of travelling. I did not receive your first letter about the lapse date until after it had lapsed, because the letter had been forwarded to me 2 or 3 places. I ask you before - what effect does this have on the situation, and what do I do about it now?

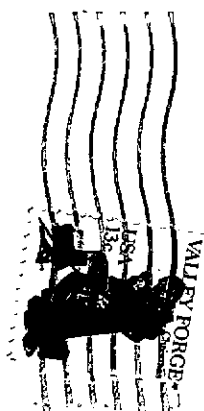

I have 2 address's I can be reached when I'm not travelling. They are as follows:

Bill R. Muller

Please explain this further. I don't know exactly what you want, or what effect the above mentioned detail has on it. Also - you never did send me any papers regarding my original application for permit. I don't even have a record of my well capacity and pressure - ect that was filled out for me by my well driller and then mailed to you. I didn't know we had anything else to do and now - six years later this comes up. I'll be waiting to hear from you.

Dear Sirs:

I have been travelling quite extensively the past year with my work. I have NOT had ANY real permanent address in that amount of time. This letter was forwarded to me twice, and upon returning to my mothers in Cove Oregon recently, I found it waiting for me there.

What I need to know now is that since I recieved the letter later than OCT 1ST, 1977, what effect will it have on what I'm supposed to do, and so forth? What do I do now, since I recieved it only 2 days ago?

Also - what bearing if ANY does this have on the thing - I still own the property at Council AND I do plan to use the water in the future, however I have NOT lived on the property for nearly three

years, the property is vacant, the water does NOT get used AT ALL, AND IT WILL be sometime before it does again, AS I PLAN to do NOTHING with the property FOR AT least a year, maybe longer.

Please advise me as to what you want done now with these things in mind and the latest date. I'll be waiting to hear from you. THANK you -

Re: Permit No. 69-7003

Bill R. Muller
c/o Vern Bechtel
Box 66
Cove, Oregon 97824

Dear Mr. Muller:

Your recent letter asked several questions concerning your right on Permit No. 69-7003.

This permit when originally issued in October of 1972, was given a period of five years in which to develop the project and beneficially use the water. The proof of application of water to beneficial use form was sent to you to determine if the project has been completed and if the water has been beneficially used. If a project is completed then a field examination is made and a water right license is issued. If a project is not completed but the permit holder has diligently proceeded with the project, then an extension of time request may be filed in order to complete the project.

The proof of beneficial use on your permit was due October 1, 1977, and your permit automatically lapsed on that day. One day of priority will be lost until either a proof of beneficial use or extension of time is received after that October 1st date. Therefore, if you are interested in continuing with your project, you should submit either the extension of time request or if your project is completed, the beneficial use affidavit, as soon as possible.

The other alternative of course, is to submit nothing and allow the permit to expire and then when you are prepared to continue with the project, to file another application for a water right permit.

We are returning the proof of application of water to beneficial use form which should be completed if your project has been developed and you are using the water. We are also enclosing an application for extension of time which should

Page 2

Re: Permit No. 69-7003

be completed if you have been proceeding with diligence in your project but have not yet finished it. Please complete the proper form and return it to us as soon as possible as a day of priority is being lost for each day it is late. If you have any questions, please do not hesitate to contact us.

Sincerely,

Dear Mr. Muller:

We are returning your application for permit, as there are several questions that need clarification before we can process it. Item #4 should list a specific quantity of water in cubic feet per second and nature and period of use for each beneficial use that you are intending to make of the water. Under normal conditions, the Department of Water Administration could approve 0.02 cubic feet per second for the domestic needs of each single family unit and 0.02 cubic feet per second for each acre irrigated.

Item #5 should also be completed, listing the total quantity of water to be appropriated and item #6 should be completed, giving a brief description of your proposed diverting works. Also, please complete item #7a, indicating the time required for the completion of your project and the application of the water to your proposed beneficial uses.

If the water is to be used for domestic or stockwatering purposes, then item #8a,1 should also be completed, listing the 40 acre subdivision, section, township and range that the place of use will occur within. If the water is to be used for the irrigation of more than one-half acre, then item #8b should also be completed, describing the number of acres in each 40 acre subdivision, section, township and range that will be irrigated.

The filing fee for this application is based on the quantity of water that you are intending to appropriate. This fee may be determined from page four of the enclosed instructions.
