Notice of Publication

OF IDAHO

OF TWIN FALLS } - SS.

Emily McKnight

I am *Principal Clerk* of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as attached, was published in the regular and entire issue of said newspaper, and not in any part thereof, for *Two* consecutive *weeks*,

beginning with the issue dated *July 2*, 19 *98*,

and ending with the issue dated *July 9*, 19 *98*.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Falls News, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Sunday, of which newspapers prior to consolidation had been published under said names in said city and county and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper was discontinued and a new newspaper was published under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published; and that at the head of the editorial column of said combined newspapers, and in each issue, the day on which said legal notices will be published.

IDAHO

OF TWIN FALLS

Att day of *July* in the year of *1998*, before me,

a Notary Public, personally appeared *Emily McKnight*, known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

Permit To Appropriate Water

NO. 67-08020

CONDITIONS OF APPROVAL AND REMARKS

6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

Application No. _____

Mitigation

Yes, I agree to accept a condition of approval on my application that will require mitigation related to fishery resources based upon a finding by the Director of Idaho Dept. of Water Resources. I understand that mitigation is not needed now but may be needed in the future. I also understand that the Director will not invoke this condition until I have an opportunity to participate in the process by which mitigation is identified and quantified.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-08020

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure

7 : 3 4930

to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the printed name and title.

Shelley W. Keen

I hereby certify that on the 12th day of February, 1999, I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Permit) to the person(s) listed below:

Water Right No. 67-08020

MILTON MEYER
2004 GRANGER RD
INDIAN VALLEY ID 83632

Kari Lynn Townsend
Secretary

RECORDED-FILED

APR 13 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 13 1997

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

FR: Lori Graves
RE: Large Diversion Info

The applicant briefly addressed the Large Diversion Information requirements in a typed page submitted 08/28/1998. I feel that this brief amount of information is sufficient since the acres and system have been previously examined and licensed in 1989. The only difference is acreage listed in the NE quarter of section 20, otherwise 740 of the 770 acres listed on the application have been licensed under 67-07108. The applicant is not proposing an additional well, only increased horsepower to the existing system. The licensed system capacity is only .005 cfs/acre. Applicant is filing for full appropriation of .02 cfs/acre. Applicant owns surrounding property within a 1/2 mile radius of the p/d, so the additional diversion of ground water should not have any adverse effects on surrounding water rights. For further information, attached is a copy of the 1989 field exam for license 67-07108.

C.

This permit will have no effect on our existing water rights other than to let us utilize more of the water that is in our existing well.

D.

There is a very sufficient supply of water in this well as has been the case for many years.

E.

We are making this request in good faith to better utilize what we were under the opinion was already in place. The well has been there for years and all the main line has been in place for years.

F.

All of the elements are already in place and paid for with the exception of additional pivots that will be installed at a future date.

G.

There will be no additional construction and the ground that would be watered by the additional pivots is already being farmed on a dry land basis and located in the middle of our ranch which is located 25 miles from the small town of Midvale.

Sincerely yours

William Meyer

RE: Application for Permit Large Diversion Requirements

Dear Applicant:

Your Application for Permit was received 4/14/1998 and will be advertised and processed but cannot be approved until additional information is submitted.

Pursuant to Idaho Code 42-203A(5)(a-e) and 42-203C(2), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Required information relating to the proposed water right, as outlined in the attached copy of Water Appropriation Rules 37.03.08.05.c through g, covers the following items:

- c) effect on existing water rights,
- d) sufficiency of water supply,
- e) good faith, delay, or speculative purposes,
- f) financial resources, and
- g) local public interest.

The local public interest criteria may be met by soliciting comment letters from the Washington County Board of Commissioners. Comments should address the effect of the construction and operation of the project within the local area.

You may summarize any of the answers with a brief statement where appropriate.

To avoid further delays, please submit the above information as soon as possible to our Western Region office, at the above address. Let me know if I can be of any assistance.

Sincerely,

Lori Graves
Sr. Water Resource Agent

Re: Application for Permit No. 67-08020

Dear Mr. Meyer:

NOTICE OF PENDING ORDER VOIDING APPLICATION

On April 27, 1998, Lori Graves of the Idaho Department of Water Resources (IDWR) sent you a letter requesting additional information regarding application to appropriate water no. 67-08020. A copy of the letter is enclosed. IDWR has not received a response to its inquiry. This letter is notice that you must submit the requested information within thirty (30) days of the date of this letter or IDWR will void your application pursuant to Idaho Code § 42-202.

Respectfully,

Gary Spackman

RE: Application for Permit Large Diversion Requirements

Dear Applicant:

Your Application for Permit was received 4/14/1998 and will be advertised and processed but cannot be approved until additional information is submitted.

Pursuant to Idaho Code 42-203A(5)(a-e) and 42-203C(2), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Required information relating to the proposed water right, as outlined in the attached copy of Water Appropriation Rules 37.03.08.05.c through g, covers the following items:

- c) effect on existing water rights,
- d) sufficiency of water supply,
- e) good faith, delay, or speculative purposes,
- f) financial resources, and
- g) local public interest.

The local public interest criteria may be met by soliciting comment letters from the Washington County Board of Commissioners. Comments should address the effect of the construction and operation of the project within the local area.

You may summarize any of the answers with a brief statement where appropriate.

To avoid further delays, please submit the above information as soon as possible to our Western Region office, at the above address. Let me know if I can be of any assistance.

Sincerely,

Lori Graves
Sr. Water Resource Agent
