Water Right License

WATER RIGHT NO. 67-08008

Priority: September 16, 1997

Maximum Storage Volume:

2.5 AF

This is to certify, that US DEPT OF INTERIOR

BUREAU OF LAND MANAGEMENT

3948 DEVELOPMENT AVE

BOISE ID 83705

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 16, 1997; and has submitted Proof of Beneficial Use on January 13, 1998. An examination indicates that the works have a storage capacity of 3.100 af of water from:

CABIN CREEK

tributary to NORTH CRANE CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER STORAGE	01/01 to 12/31		2.5 AF
WILDLIFE STORAGE	01/01 to 12/31		2.5 AF
	Totals		2.5 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 5, Township 10N, Range 01E
WASHINGTON County

PLACE OF USE: STOCKWATER STORAGE

TWN RGE SEC

10N 01E 5

NESW

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
2. This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
3. The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
4. Place of use is located within Foothills Allotment #362.
5. Place of use is locally known as Cabin #1 Project 9083.

PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 67-08008 Telephone No. _____

2. Name(s) of Permit Holder(s): US Dept. of the Interior, Bureau of Land Management

3. Mailing Address: 3948 Development Ave., Boise, ID 83705

4. Source of Water: Cabin Cr. Trib. N. Crane Cr. If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____

a. Well Driller: NA Drilling Permit Number: _____ - _____ - _____

b. **OPTIONAL:**

Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): NA Stockwater (No. and type of stock): 200 range cattle

Irrigation (No. of acres): NA Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: _____ cfs OR 2.5 acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No _____
Has the measuring device been installed? Yes _____ or No _____

Flow Measurement Port: Is a flow measurement port required? Yes _____ or No _____
Has the measurement port been installed? Yes _____ or No _____

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Jon Haupt Telephone Number: _____

Address: 3948 Development Ave., Cascade Res. Area, Boise, ID 83705

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

RE: WATER RIGHT NO. 67-08008

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MICRO
JUN 2 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MAILED
JUN 2 5 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: WATER RIGHT NO. 67-08008

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the point(s) of diversion and place(s) of use developed are in locations other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form describes the point(s) of diversion and place(s) of use and other information that will be included on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 60 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

DATE: April 26, 1999
TO: File No. 67-8008
FROM: Cindy Lou Zimmermann *CLZ*
SUBJECT: Review of Beneficial Use Field Report

The original exam was returned to region for "as-built" plans or other verification of construction as required by Permit Processing Administrative Memorandum No. 8. The exam was re-sent to state office along with a copy of the department's dam safety inspection report since "as-built" plans were not available from BLM. The dam safety report calculates the capacity of the reservoir at 3.1 AF. The permit limits the storage volume to 2.5 AF.

The following adjustments¹ were made on the field report:

H. Recommendations.

MEMORANDUM

RECEIVED
MAR 09 1999
Department of Water Resources

Date: March 9, 1999
To: Cindy Zimmerman
From: Dan Tomich
Subj.: BLM Field Exams, Verification of Construction,
67-08007, 67-08008, and 67-08009.

For verification of construction, I added a couple of paragraphs to the report on how the information was obtained from BLM, and a copy of the Safety of Dams report for each water right.

The dams and reservoirs for stockwater on these rights were constructed by BLM Equipment Operators after being located and staked by BLM engineering personnel in the Operations Division. Normally, the engineering personnel visit the sites during construction, and check the project at completion. However, the equipment operators normally do not develop "as built" drawings or correct the location, if needed, on the map. The engineering personnel are required to do "as built" drawings, correct map locations as needed, do a construction report, cost report, and some other documentation for the project file. This work is very seldom done due to lack of time and engineering funding. The BLM office only has one engineer and one engineering technician to do all the engineering services for the four resource areas in the district.

I went out with John Westra on the Safety of Dams initial inspection and survey for these rights, and a copy of the report is enclosed for each site.

I would recommend that we do field exams on all Federal water rights as there are not a large number of new permits, and we could work them in with other exams in the same area.

Let me know if you need anything else on these or others! (I'm sure you will!).

Dan Tomich

WFOPTMEE

2002-1-10

E. NARRATIVE/REMARKS/COMMENTS

1. This was done as an office exam at the BLM office in Boise.
 2. The dam was located to a different site after BLM filed their application.
 3. This project is called Cabin #1, BLM Project # 9083.
 4. The dam and reservoir provides water for the Foothills Allotment # 362. The grazing periods for the allotment are as follows:

200 Head	6/16 to 9/30
160 Head	5/16 to 6/15
86 Head	4/15 to 5/15

The max. number of range cattle in the permit and pool is 200 Head.
 5. This is a new dam and reservoir and was constructed in Oct., 1997.
 6. Information was obtained from notes in the BLM Project file, and ~~some~~ ^{Conversations} with Tom Haupt, and John Bryan (Operations Division). There were no "as-built" drawings in the BLM files. The dam and reservoir was built by BLM Equipment operator, who normally would not make "as-built" drawings.
- Have conditions of permit approval been met? ☒ yes ☐ no
7. A Safety of Dams inspection was conducted to the site on 10-21-98, and a copy of the report is enclosed. The dam was found to be at a different location.

Additional Computation Sheets Attached

For 200 Head, $Q_{allowed} = 0.05$ cfs.

$$\text{Vol. of reservoir} = \left[\left(\frac{1}{2} \right) (225') \left(\frac{1}{2} \right) (305' + 336') (15.8' - 5.6') \right] \frac{\text{AF}}{(66)(66)(1.0)}$$

$$= 8.44 \text{ AF storage}$$

1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{DB} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{IB} \text{ and } V_{DB} =$$

2. Volume Calculations for Other Uses: *Stockwater - 3 Grazing Periods / Ann.*

$$1) AFA = \left(\frac{12 \text{ GPD}}{1 \text{ Head}} \right) \left(\frac{208 \text{ Head}}{1} \right) \left(\frac{105 \text{ Days}}{\text{Ann}} \right) \left(\frac{AF}{325,850 \text{ Gal.}} \right) = 0.80 \text{ AFA}$$

$$2) AFA = (12)(160)(30) \left(\frac{AF}{325850} \right) = 0.20 AFA$$

$$3) AFA = (12)(86)(30) \left(\frac{323,850}{1000000} \right) = 0.10 AFA$$

Sub-Total	<u>1.10 AFA</u>
Losses	<u>0.40</u>
Allow	<u>1.50 AFA</u>

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Stockwater Storage	01/01	12/31		1.50
Wildlife Storage	01/01	12/31		1.50
Totals:				1.50

☒ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ Other

- 1) P/O, P/A were moved to NESW.
- 2) AFA allowed is 1.5, not 2.5 AFA in permit.

Field Examiner's Name Don Smith Date 12-1-98

Reviewer	Date
----------	------

APR 25 1969 ^{SEAL} The old location
in the application
would have been
a larger reservoir.

However - the AFA is still based on the cattle using the Foothills Allotment.

MEMORANDUM

DATE: February 4, 1999
TO: Steve Lester, Western Region
FROM: Cindy Zimmermann
THRU: Shelley Keen (SWK)
SUBJECT: BLM field exams

The attached field exams on 67-08007, 67-08008, & 67-08009 do not contain the information required under Permit Processing Administrative Memorandum No. 8 (copy attached). Specifically, "as-built" plans or other verification of construction were not included in the field exams.

In follow-up to our telephone conversation this afternoon, I am returning these exams to you for verification of my findings and any action you deem appropriate.

Thanks,

Cindy

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-08008

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's Western Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-08008

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for

stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, reading "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Shelley W. Keen

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED
JAN 12 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Applications for Permit Nos. 67-08007 & 67-08008

Dear Mr. Myers,

Enclosed are copies of applications for water rights within your water district. These applications represent development for stockwater and wildlife storage facilities. A standard condition put on approved permits for storage located within water districts is:

The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

The purpose of this condition is to give you the ability to regulate the diversions. It is possible, however, that measuring devices may not be necessary for the regulation of some small reservoirs.

The purpose of this letter is to seek your comment on including this condition on the permits. Please review the applications and the condition. I will hold processing on the applications for 14 days pending your response. For your convenience, I have provided a self-addressed pre-posted envelope.

If I do not receive a response from you within the 14 day period, I will assume that you agree with including the condition on the permits. If you have questions or need additional information, you may contact me directly at (208) 327-7944.

Respectfully,

Cindy Zimmerman
