LEGAL NOTICE

NOTICE OF APPLICATION FOR AMENDMENT OF WATER RIGHT

Notice is given that **HOBIE ALTER, SR.**, 502 N. 3rd St., Ste 176, McCall ID 83638 has applied to the Department of Water Resources to change the Point of Diversion and Nature of Use of the following water right in Adams County pursuant to I.C.S 42-211 (all sections are in T19N R1W):

RECORDED RIGHT

Permit #67-07996; sources are ground water, springs and unnamed stream; priority date 7-29-1996; for domestic, irrigation, diversion to storage, irrigation storage and irrigation from storage uses. Diversion points and place of use are in SW 1/4 S1 (springs) and NWNW S12 (ground water and unnamed stream); total of 15 irrigated acres. Total amount of water is 1.00 cfs, including 5 af of storage in 1 pond. Surface water in this right is tributary to West Fork Weiser River in Price Valley.

PROPOSED AMENDMENT

Reduce irrigation from .30 cfs to .28 cfs (1 acre's worth) and use the resulting .02 for aesthetic and fire protection uses. Add a second diversion from unnamed stream to fill and maintain a 1.0 af pond for year around new uses. Overflow from new pond will return to unnamed stream. All new activities will be in NWNW S12. Total use will remain at 1.00 cfs but with 6 af of storage in 2 ponds.

The permit will be subject to all prior water rights. Any protest against approval of the proposed amendment must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705-5082 together with a protest fee of \$25.00 for each application on or before April 19, 1999. The protestant must also send a copy of the protest to the applicant.

**REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT**

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 67-07996

Name(s) of Permit Holder: Hobie Alter, Sr.

Mailing Address: 502 North Third, Suite 176, McCall, Idaho 83638

Date Proof is Due: October 1, 1998 Telephone No. (208) 347-2866 (H)

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Storage pond and other diversion works have been partially constructed. Pond is storing
some water. Well is drilled and domestic use is in place. Water is being put to beneficial use
to extent diversion works are in place.

Costing \$ 35,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

An Army Corps permit was also needed and was issued. However, that permit restricts work to "the late fall when no flow
or low flow conditions exist." See attached. By the time those conditions exist, we only have a few days each year before
winter snows and freeze-up. In fact, in 1996, the conditions allowed no work at all.

Permit holder(s) request an extension to January 30, 2001, assuming that weather conditions are favorable so that conditions of the Army Corps permit can be met.

FEE \$50.00

12. The applicant proposes to impound meltwater and 0.09 cfs from undeveloped springs into a 5 acre-foot storage pond. The storage pond will be used to rear fish for domestic consumption and aesthetic value. Approximately 15 acres of applicant land will be irrigated by pumping irrigation water from storage at a rate of approximately 0.60 cfs.

The groundwater well will deliver approximately 0.36 cfs of which 0.06 cfs will be for domestic use and 0.03 cfs will be supplemental pond fill water in the event that the impounded meltwater and spring water is not sufficient to irrigate the proposed 15 acres. The applicant recognizes that there exists a 1944 claim for stockwater use from the undeveloped springs (see claim # 67-4130). The applicant proposes to continue using stockwater claim.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07996

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise (208) 334-2190.

Sincerely,

Deborah J. Gibson

PROOF DUE NOTICE

RE: PERMIT NO. 67-7996

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

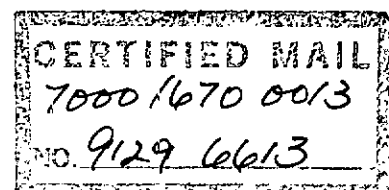

Sincerely,

Deborah J. Gibson, Admin. Assistant
Water Allocation Bureau

RE: Water Right 67-07996

Dear Mr. Alter:

The Department of Water Resources (IDWR) has issued the enclosed Amendment of Permit approving your application to amend the water right referenced above. Please be sure to review every element of the Amendment of Permit, including the conditions of approval and remarks.

The Amendment of Permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions regarding this matter, you may call me at 208-327-7940.

Sincerely,

Jeff Peppersack, Manager

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

NOT RECORDED

SEP 30 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: AMENDMENT TO ADD MINOR POND

The applicant wants to add a small fire protection/aesthetics pond to the system. The change includes a small ditch diversion from an unnamed stream to the proposed pond, a return flow ditch to the stream and a gravity pipeline from the pond to fire hydrant connections around the homesite. Based on information confirmed by the applicant's attorney, the amendment was revised prior to advertising (additional fee n/a). This right was amended a few months ago to change the irrigation P/U.

*
The current amendment replaces withdrawn right 67-08021 -- the applicant seeks his new pond with this amendment in lieu of 67-08021. Note that a comment letter to the protestant (Robert Norris) in the withdrawn right is included in processing the new amendment.

The permit authorizes one diversion from an unnamed stream in NWNW S12. That diversion is the irrigation pump at the irrigation pond. The permitted storage of 5 af covers the irrigation pond. The proposed ditch and pond will be upstream from the permitted P/D on the same stream. See the map with the revised amendment for details.

SCA does not apply to the return flow plan for the intermittent stream. Dam Safety does not apply to the proposed pond (too small plus no d.s. conditions on the permit with respect to the larger irrigation pond).

The 5 af irrigation pond is already built according to the applicant's attorney. One acre of irrigation will be sacrificed to provide water for the new uses. The total amount of water will remain at 1.00 cfs, although the storage component will show 6 instead of 5 af. Irrigation in the Price Valley area includes .02 cfs and an implied diversion volume of 4 afa. The proposed uses listed in application Attachment A are not an expansion since an acre provides plenty of water to cover the new uses. Additionally, the use of the new pond outside of the irrigation season will be minimal given the site location. From 67-08021 information, the new pond will cover less than 1/2 acre. Note that the right already allows some uses outside of the irrigation season.

RECOMMENDATIONS

1. The amendment should be approved.
2. Total storage capacity should be limited to 6 afa.
3. The proposed change should include filling/maintaining the minor pond for new uses.

RE: Amendment Appl. received 2/1/99.

WE discussed several issues to revise Amendment:

① Permit allows single pld univ. stream now S.12, which is irrig. pump from irrig. pond. So looks like new pld proposed from univ. stream.

② Don't need div. to storage .02 cfs since permit already allows 1.00 cfs for that purpose.

③ To add .02 cfs aesthetics and 1 Afd storage for fire protection & aesthetics, need to show corresponding reduction in use.

Since 5 Afd pond already ~~constructed~~ built, suggest reduce irrig. by 1 Afd to free up .02 cfs & 4 Afd div. volume (implied) for new use.

④ Attorney will confirm such revisions with Applicant before processing continues.

NOTICE OF APPLICATION FOR AMENDMENT OF WATER RIGHT

Notice is given that **HOBIE ALTER, SR.**, 502 N. 3rd St., Ste 176, McCall ID 83638 has applied to the Department of Water Resources to change the Point of Diversion and Nature of Use of the following water right in Adams County pursuant to I.C. § 42-211 (all sections are in T19N R1W):

RECORDED RIGHT

Permit #67-07996; sources are ground water, springs and unnamed stream; priority date 7-29-1996; for domestic, irrigation, diversion to storage, irrigation storage and irrigation from storage uses. Diversion points and place of use are in SW 1/4 S1 (springs) and NWNW S12 (ground water and unnamed stream); total of 15 irrigated acres. Total amount of water is 1.00 cfs, including 5 af of storage in 1 pond. Surface water in this right is tributary to West Fork Weiser River in Price Valley.

PROPOSED AMENDMENT

Reduce irrigation from .30 cfs to .28 cfs (1 acre's worth) and use the resulting .02 for aesthetic and fire protection uses. Add a second diversion from unnamed stream to fill and maintain a 1.0 af pond for year around new uses. Overflow from new pond will return to unnamed stream. All new activities will be in NWNW S12. Total use will remain at 1.00 cfs but with 6 af of storage in 2 ponds. The permit will be subject to all prior water rights. Any protest against approval of the proposed amendment must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705-5082 together with a protest fee of \$25.00 for each application on or before April 19, 1999. Re: Permit No. 67-07996 and Application for Permit No. 67-08021

Dear IDWR:

As you know, this firm represents Hobie Alter, Sr. The purpose of this letter is two-fold. First, by this letter, Application for Permit No. 67-08021 is hereby withdrawn. And second, rather than asking for the water right for the fire pond via a new water right (e.g., 67-08021), Mr. Alter is now asking for the fire pond water right to be part of his existing Permit No. 67-07996. Accordingly, an Application for Amendment of that Permit accompanies this letter. Furthermore, Mr. Robert J. Norris (the Protestant under Application No. 67-08021) has indicated that he will not protest the fire pond water right if it is obtained in this manner as part of existing Permit No. 67-07996.

Also enclosed is a check in the amount of \$50.00 to cover the filing fee for the accompanying Application for Amendment of a Permit.

Once you have processed these documents, please send your responsive documents directly to my attention. Thank you for your attention to these matters.

Sincerely,

Brian L. McMahon

NOTICE OF APPLICATION FOR AMENDMENT OF WATER RIGHT

Notice is given that HOBIE ALTER, SR., 502 N. 3rd St., Ste. 176, McCall ID 83638 has applied to the Department of Water Resources to change the Point of Diversion and Nature of Use of the following water right in Adams County pursuant to I.C. § 42-211 (all sections are in T19N R1W):

RECORDED RIGHT

Permit #67-07996; sources are ground water, springs and unnamed stream; priority date 7-29-1996; for domestic, irrigation, diversion to storage, irrigation storage and irrigation from storage uses. Diversion points and place of use are in SW 1/4 S1 (springs) and NWNW S12 (ground water and unnamed stream); total of 15 irrigated acres. Total amount of water is 1.00 cfs, including 5 af of storage in 1 pond. Surface water in this right is tributary to West Fork Weiser River in Price Valley.

PROPOSED AMENDMENT

Reduce irrigation from .30 cfs to .28 cfs (1 acre's worth) and use the resulting .02 cfs for aesthetic and fire protection uses. Add a second diversion from unnamed stream to fill and maintain a 1.0 af pond for year around new uses. Overflow from new pond will return to unnamed stream. All new activities will be in NWNW S12. RE: Water Right 67-07996

Dear Mr. Alter:

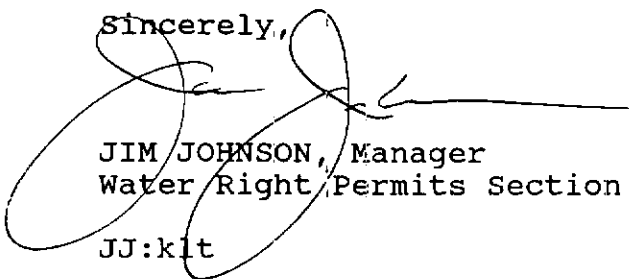

The Department of Water Resources (IDWR) has issued the enclosed Amendment of Permit approving your application to amend the water right referenced above. Please be sure to review every element of the Amendment of Permit, including the conditions of approval and remarks.

The Amendment of Permit is a **preliminary order** issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions regarding this matter, you may call me at 208-327-7947.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Permit No. 67-07996 and a New Application for Permit

Dear IDWR:

This firm represents Hobie Alter, Sr. His Special Power of Attorney accompanies this letter, as do the following:

1. Request for Extension of Time on Permit No. 67-07996;
2. Application for Amendment of Permit No. 67-07996;
3. Application for Permit (new); and
4. A check payable to you in the amount of \$150 to cover the filing fees for the above-referenced documents.

The Request for Extension of Time, and the Application for Amendment of Permit, are self-explanatory, but we would ask, to the extent possible, for expedited processing of the new Application for Permit. The purpose for the new Permit is to provide fire protection storage for the Applicant's home, and it is hoped that the storage pond can be excavated and put into service before winter sets in and the ground freezes up.

Once you have received and processed these documents, please send your responsive documents directly to my attention. Thank you for your attention to these matters. Expedited processing of the Application for Permit will be especially appreciated.

Sincerely,

Brian L. McMahon

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit, which extends the time within which to submit proof of beneficial use to **October 1, 2002**. Please note that the department granted the extension based on due diligence. It is important that you work diligently towards completion of this project since the department **will not** be able to grant additional extension requests based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter.

3. Application for Permit (new); and
4. A check payable to you in the amount of \$150 to cover the filing fees for the above-referenced documents.

The Request for Extension of Time, and the Application for Amendment of Permit, are self-explanatory, but we would ask, to the extent possible, for expedited processing of the new Application for Permit. The purpose for the new Permit is to provide fire protection storage for the Applicant's home, and it is hoped that the storage pond can be excavated and put into service before winter sets in and the ground freezes up.

Once you have received and processed these documents, please send your responsive documents directly to my attention. Thank you for your attention to these matters. Expedited processing of the Application for Permit will be especially appreciated.

Sincerely,

Brian L. McMahon

SUBJECT: NPW No. 962100060

Mr. Hobie Alter
502 North 3rd. Street, suite 176
McCall, Idaho 83638

Dear Mr. Alter:

This is in regard to your proposal to discharge fill material into wetlands (approximately 0.05 acre) associated with constructing an earthen berm to create a small wildlife pond. Additional work in wetlands would include excavating a temporary diversion channel (approximately 0.02 acre) and constructing three (3) culverted roadway crossings (0.04 acre) to access your home site and barn. Your project is located in Sec. 12, T.19N., R.1W., B.M., near New Meadows, Adams County, Idaho, and was the subject of your Joint Application for Permit, dated September 16, 1996.

Section 404 of the Clean Water Act (33 U.S.C. 1344) requires a Department of the Army permit be issued for the discharge of dredged or fill material into waters of the United States, including wetlands. This includes excavation activities which result in the discharge of dredged material and destroy or degrade waters of the United States.

Based on the information provided in your application, your project complies with the terms and conditions of Nationwide Permit 26 (33 CFR 330, Appendix A) and is authorized, subject to the enclosed list of conditions and the following special condition:

a. Work within intermittent stream channels and associated wetlands is to be conducted in the late fall when no flow or low flow conditions exist. Conducting the work at this time would reduce turbidity impacts and reduce overall project impacts.

Please carefully review these conditions. If these required conditions cannot be met, the nationwide permit is not valid and an individual permit must be processed and issued prior to the start of construction. If you should change your project from

MICROFILMED

OCT 27 1998

the description provided in your application, the nationwide permit may not be valid and you should contact us prior to the start of construction.

This notification is valid until the nationwide permit is modified, reissued, or revoked. All the nationwide permits are scheduled to be modified, reissued or revoked by January 21, 1997. It is incumbent upon you to remain informed of changes to the nationwide permits. We will issue a public notice announcing the changes when they occur. Furthermore, if you commence or are under contract to commence this activity before the date the nationwide permit is modified or revoked, you will have 12 months from the date of the modification or revocation to complete the activity under the present terms and conditions of this nationwide permit.

This determination is applicable only to Department of the Army permits administered by the Corps of Engineers. It does not relieve you of the responsibility to obtain other Federal, state, and local permits which may be required. Authorization is required from the Idaho Department of Water Resources for your project. You should contact them to obtain any necessary permits prior to the start of construction.

Your project may also be subject to a local floodplain management ordinance adopted pursuant to the National Flood Insurance Program. I recommend that you contact your city or county zoning office regarding any approvals required under their jurisdiction.

Please contact me at 208-343-0671 with regard to any questions you may have in this matter.

Sincerely,

Gregory J. Martinez

RE: NEW POND FOR FIRE PROTECTION

Dear Mr. Alter:

You recently filed Joint Application for Permit No. 67-S-523 to do some stream alteration work related to installing a new pond for fire protection use. The joint application is under review at this time.

It appears from the information that you provided that a new water right permit will also be needed. The new water right will cover the development of the pond for fire protection in excess of your existing water right (permit no. 67-07996). Enclosed please find an application for permit and instructions to be used to secure a new water right.

Please contact this office if you need any help with the water right process. The completed water right application can be returned to this office at your earliest convenience.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Steve Lester'.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07996

Dear Permit Hclder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

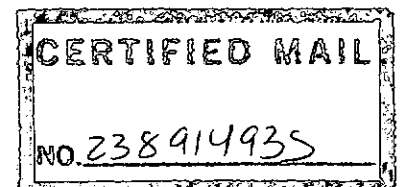

SINCERELY,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07996

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "Conditions of Approval and Remarks" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

RE: Price Valley - Alter Property

Dear Mr. Lester:

Enclosed you will find the Application for Permit to appropriate the public waters of State of Idaho for Mr. Hobie Alter Sr. Also enclosed is the application for the New Property Owner Notice of Change of Water Right Ownership for a stockwater water right split. The former owner has this application and will sign and return it to us shortly. I will forward the signed application at that time. Please give me a call if you have any questions.

Thank you for your time and consideration.

Sincerely,

TOOTHMAN-ORTON ENGINEERING COMPANY
