ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

E. NARRATIVE/REMARKS/COMMENTS

and Stockwater

1. This permit is for 20 Ac. of irrigation, from a well located on the west side of U.S. Highway 95. The 20 Ac. is part of a 21.8 Ac. tract that is gravity irrigated from ditches (2), that divert flows from a tributary of Mill Creek with WR's 67-04336, 67-04337 and 67-04445.
2. The well was drilled to provide supplemental irrigation water during dry periods, and stockwater when the ditches are dry. The stockwater use was mistakenly not included in the Proof of Beneficial Use filed on 10-28-96, but it should be part of the license.
3. The well pumps water through a 2" steel and PVC pipe into a 6" concrete pipe which discharges into an irrigation ditch. This ditch can gravity irrigate all of the 21.8 Ac. tract. Another ditch from the same tributary of Mill Creek enters the 21.8 Ac. tract about $\frac{1}{3}$ of the distance down - or can add water to about $\frac{2}{3}$ of the land.
4. The 140 head of range cattle drink from the ditch served by the well, and from the lower ditch.

Have conditions of permit approval been met? ☒ yes ☐ no

Additional Computation Sheets Attached

Investigation:

$$Q = \frac{(8.8)(5 \text{ HP})(70\%) }{11' + (35 \text{ psi.}) \left(\frac{34'}{14.7 \text{ psi.}} \right) } = 0.33 \text{ cfs } > 0.14 \text{ cfs}$$

$$\phi_{\text{allowed}} = (0.02 \frac{\text{cfs}}{\text{Ac}}) (20 \text{ Ac.})$$

$$= 0.40 \text{ cfs}$$

Allow the 0.14 cfs
Supplemental water in
Permit.

Stockwater - 140 Head
 $Q_{\text{allowed}} = 0.05 \text{ cfs}$

1. Volume Calculations for Irrigation:

$$V_{I.R} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (20.0)(3.0) = 60 \text{ A-F-A}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.14)(214)(1.9835) = 59.43 \text{ Acre}$$

$V = \text{Smaller of } V_{L,R} \text{ and } V_{D,R} = \underline{V_{EE} \text{ GO AFA}}$

stock water:

$$AFA = \left(\frac{12 \text{ Gpd}}{\text{Head}} \right) \left(\frac{140 \text{ Head}}{1} \right) \left(\frac{365 \text{ Days}}{\text{Ann.}} \right) \left(\frac{AF}{325,850 \text{ Gal.}} \right)$$

$$= 1.88 = 1.9 \text{ AFA}$$

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion - Q (cfs)	Annual Volume V (afa)

RE: Water Right No. 67-07983
Drilling Permit No. 67-94-N-0087-000

Dear Permit Holder:

I have enclosed copies of the Proof of Beneficial Use form submitted in connection with the above referenced water right along with Drilling Permit No. 67-94-N-0087-000. The proof form and your permit to appropriate water both indicate that water is being diverted for irrigation use with a total rate of diversion of 0.14 cfs. However, the drilling permit issued only authorizes a single family domestic use. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to ½ acre of land.

You were properly charged \$35.00 for the domestic well drilling permit, however, because of the use and amount you have indicated, the drilling permit is no longer considered domestic and must be upgraded to non-domestic status. The fee for a non-domestic drilling permit is \$200.00.

Before the Department can accept the proof of beneficial use as filed, you will need to submit the additional \$165.00 fee to upgrade the drilling permit. Please submit the fee within **60 days** of receipt of this letter. **Please address your correspondence to my attention.**

Please contact me at (208)327-7953 if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

ACTION OF THE DEPARTMENT OF WATER RESOURCES
APPROVED

This Permit is _____

Date 10-14-94

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

USE FROM THIS WELL IS
LIMITED TO "DOMESTIC"
PURSUANT TO I.C. 42-111.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07983

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

Shelley W. Keen
Water Rights Supervisor
