PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 67-7981

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

You requested that the measurement device and lockable controlling works requirement condition for this permit be waived. You have supplied me with a letter from the water master for water district 67 agreeing that this condition is unnecessary, therefore, the department has issued the enclosed Order waiving the measurement device and lockable controlling works requirement from this permit.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Western** Regional Office in Boise at (208) 334-2190.

To Whom It May Concern:

I have discussed with the Miller's, and Dan at IDWR, about the measuring device that is required for the application #67-07981, and as the Watermaster of District 67, I don't see a need for a device. The permit is so junior, that as soon as I go to adjudicated water, the Miller's will be shut off completely. I personally have no problem with this pump being there with no measuring device!

If you have any questions or comments to me, call, write, or email me.

RE: PERMIT NO. 67-7981

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit, which extends the time within which to submit proof of beneficial use to **March 1, 2003**. Please note that the department granted the extension based on due diligence. It is important that you work diligently towards completion of this project since the department **will not** be able to grant additional extension requests based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter.

SUBJECT Ext. of Time for 67-07981

Millers visited office today to file Extension. They have made some progress in this case. Their own, plus elderly parent's, health problems plus out-of-focus BREA site have prevented completion of development (the site is a possible retirement place & can only work on it as time, weather etc. allow).

It looks like all the standards have been met to approve this request.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07981

Dear Permit Holders:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Please note that this permit authorizes the development of a surface water use in a highly appropriated drainage that is regulated by a watermaster. In most years water will not be available to fill this right through the entire irrigation season. Therefore, you should be sure to analyze the availability of water before making a major investment in your project.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Sincerely,

Shelley Walter Keen
