PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07953

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

MEMORANDUM

TO THE FILE: Isaacson, J. Lynn
W.R. # 67-07953

FROM: Deborah Drew-Ellis *De*

DATE: April 18, 2000

RE: Response from Mr. Isaacson to my letter dated April 17, 2000

In my April 17, 2000 letter to Mr. Isaacson I requested proof of a drilling permit or a well log for the well permitted to him for irrigation purposes. He did not have a copy of those documents, and he believed the well driller would be unable to produce the documents. The following information is what he was able to give me according to a Deed when he purchased the property:

He has an easement dated Jan. 20, 1981;
Previous owner was Edgar and Arlene Givens; and
Previous water right (adjudicated) was A67-11714 (.04 cfs for domestic as of 3/15/93).

Additionally, he mentioned that the well was used as a test well for water quality by Dept. of Agriculture (Gary Barr or Kirk Campbell).

RE: Permit No. 67-07953

Dear Permit Holder:

I am in receipt of the Proof of Beneficial Use form submitted in connection with the above referenced water right permit. Before I can process the proof, I need some additional information.

I have been unable to locate a drilling permit or a well log for the well(s) drilled in connection with this permit. A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987, (Section 42-235, Idaho Code). The driller is responsible for filing the well log with the department within 30 days of the completion of the well. Please submit a copy of the drilling permit and the well log to me either by mail or by delivering it to this office. If you do not have these copies, please contact your driller and ask that he send me the documents.

Please return the requested information within **15 days** of receipt of this mailing.

If you have any questions concerning this matter, please contact me at (208)327-7953.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07953

Dear Permit Hclder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

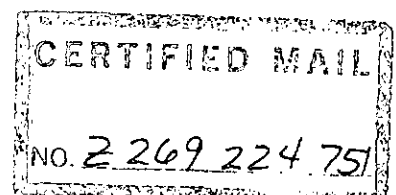

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use to **May 1, 2000**. The department has granted this extension based on governmental agency delay. It is important that you work diligently toward the completion of the development during the construction period allowed since the department may not be able to grant additional extensions in connection with this permit.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me directly at (208)327-7953, if you have any questions regarding this matter.

RE: TELEPHONE CALL

Date: April 27, 1998

The permit holder called today wondering whether he should file the proof of beneficial use or another extension request. I generally advised him of his options without having reviewed the file. He plans to file another extension of time request, since the highway took about $\frac{1}{2}$ acre of the property he intended to irrigate and he wants some time to purchase that much adjacent land from his neighbor.

Even though we have granted a request based on diligence, it seems reasonable to grant more time since the state transportation reportedly was involved in his loss of $\frac{1}{2}$ acre.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07953

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to **May 1, 1998**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed since the department **will not** be able to grant additional extensions based on due diligence.

Please contact me at (208)327-7953 if you have any questions regarding this matter

Sincerely,

JULIE L. YARBROUGH

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07953

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,
