ORDER REMOVING MEASURING
DEVICE REQUIREMENT

WHEREAS, on January 7, 1994, the Department of Water Resources issued Permit No. 67-07937 in the name of Nancy E. Hawkins with the requirement that:

A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this right.
and,

WHEREAS, the permit owner requested that the lockable controlling and measuring device be waived for her fish pond because it is non-consumptive;
and,

WHEREAS, the Department of Water Resources has determined that a lockable controlling and measuring device is not required at this time for a determination of the quantity of water appropriated under the permit;

IT IS, THEREFORE, HEREBY ORDERED that Condition No. 5 of Permit No. 67-07937 requiring that a lockable controlling and measuring device be installed is REMOVED.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Pond for recreational use - 12" screened inlet to 40' corrugated pipe to ditch; meandering approx 200 yds to pond. Pond excavated to about 9'. Outlet discharge measured at .33 cfs but flows are low. Fees pd for only .20 cfs.

Overlaps in AD database show irrigation shares from Lost Valley / Lost Creek on permit holder's land. No overlaps in WR database.

* A lockable gate/screen is present at diversion but there is no measuring device. Ditch is too flat for a weir application. I measured @ outlet, where a weir could be installed in an existing concrete structure.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 67-07937

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARERROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 67-07937

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Jim,

Ref: Permit 67-07937

Per our conversation last fall, I spoke with the watermaster re: the need for a measuring device on my fish pond. He concurred with your conclusion that my water appropriation for the pond is non consumptive. At this time my pond is nearly complete, and is being supplied by water from the river through an existing creekbed. I have routed the water out of the pond through the same existing creekbed and back to the river. At this time I am in the process of selecting an appropriate controlling works.

Due to the non consumptive use of the water, I respectfully request that you waive the requirement for a lockable controlling and measuring device.

Sincerely,

Nancy E. Hawkins

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07937

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Sincerely,

Conditions of Approval:

- 26A - Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
- 005 - Use of water under this right is subject to control by the watermaster of State Water District No. 67.
- 01J - A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this right.
- 030 - A separate stream alteration permit from the IDWR is required for any activity in the stream channel other than construction and/or maintenance of the diversion structure. If the proposed construction or operation involves construction of an outfall or any other work in the stream channel other than a water diversion, the right holder contact the Department and obtain a Stream Channel Alteration permit prior to the start of construction.
- 027 - Use of water under this right shall be non-consumptive.

Remarks: Prior to diversion of water under this permit, the permit holder must obtain approval from all the required state and federal agencies.

Recreational storage use is for a wetland pond.
