E. NARRATIVE/REMARKS/COMMENTS

November 5, 1998

On October 3, 1998, I met with Lamont Crogh, permit #67-07929, the new owner of the property located in T19N, R01E, S18 at 10:40 for a beneficial use field examination on an aesthetic pond. The source is a spring that sinks.

The site was GPS'd approximately 50 feet south of the point of diversion. In the spring run-off season water does surface and flows into the ditch system located on the north end of the pond. The ditch system does divert the water to the pond. During my visit there was no water in the ditch. The area of the pond was determined by pacing. From the northeastern corner the pond is 36 paces south and 79 paces west. In the summer months the pond is approximately 10 feet deep on the west end and 3 feet on the east end. Pond use is aesthetics, recreation and fishing. The fish are planted in the pond, they do not enter naturally. Fish leave the pond only through recreational fishing.

Lamont Crogh was informed that if an assignment of permit was not filed with the department the license would be issued in Yalonda Lies name and an ownership change would be necessary. An assignment of permit form was mailed to Mr. Crogh on September 25, 1998 and he was instructed a \$25.00 filing fee was necessary to process the assignment. He was not sure if he would be able to locate the previous owner.

Have conditions of permit approval been met? ☐ yes ☐ no
