Permit To Appropriate Water

NO. 67-07905

Proposed Priority: July 21, 1992 Maximum Diversion Rate: 0.02 CFS

This is to certify, that US DEPT OF AGRICULTURE
PAYETTE NATIONAL FOREST
106 W PARK ST
PO BOX 1026
MC CALL ID 836381026

has applied for a permit to appropriate water from:

DERRICK SPRING NO 2	tributary of	DERRICK CREEK
ROCK CREEK SPRING	tributary of	ROCK CREEK
LEFT FORK POND NO 1	tributary of	NORTH HORNET CREEK, LEFT FORK
LEFT FORK POND NO 2	tributary of	NORTH HORNET CREEK, LEFT FORK
TIMBER GULCH POND	tributary of	TIMBER GULCH
ROBINSON GULCH POND	tributary of	ROBINSON GULCH

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	05/16 to 10/31	0.02 CFS	
WILDLIFE	01/01 to 12/31	0.02 CFS	
WILDLIFE STORAGE	01/01 to 12/31		1.0 AF
	Totals	0.02 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SESWNE , Sec. 6, Township 18N, Range 02W
SESENEW , Sec. 6, Township 18N, Range 02W
NWSENE , Sec. 9, Township 18N, Range 02W
NENESW , Sec. 12, Township 18N, Range 02W
SESWSW , Sec. 12, Township 18N, Range 02W
NENESE , Sec. 14, Township 18N, Range 02W
ADAMS County

PLACE OF USE: STOCKWATER
TWN RGE SEC

18N 02W	6	SWNE	SENEW
	9	SENE	
	12	NESW	SWSW
	14	NESE	

PLACE OF USE: WILDLIFE, same as STOCKWATER use

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1996.
2. Subject to all prior water rights.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07905

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 67-07905

Dear Permit Hlder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

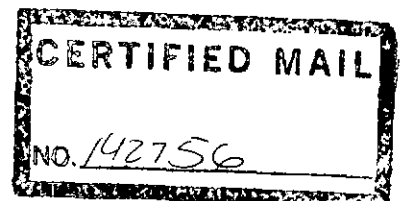

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07905

Dear Permit Holder:

Enclosed is a copy of your approved application for permit.
Please be sure to thoroughly review the "CONDITIONS/REMARKS:"
listing on the permit.

As a permit owner you must commence the excavation or
construction of the diverting works within one year of the date
the permit was issued, and you must proceed diligently until the
project is completed. The date shown under condition no. 1
is the date when the project must be completed. You will receive
a "Proof Due Notice" from this Department approximately 60 days
prior to the completion date requiring you to file either a Proof
of Beneficial Use form stating that the project has been
completed or file a Request for an Extension of Time in which to
file the proof statement.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

This permit has six seperate sources, each with its own system
consisting of headbox, pipe and trough or earthen berm dam.

Audit: 06/18/93 ZIMMERMA

MEMORANDUM

Date: November 23, 1992
From: Jim Johnson
To: Dave Tuthill *DM*
Subject: Too many Sources on Application

=====

This application lists six (6) sources that are not interconnected by a common (single) distribution system.

Rule 3,3,2,2 States in part " Only one source shall be listed on an application unless the application is for a single system which will have more than one source."

Lori Graves has corresponded with Karen Walters of Payette National Forest Service indicating that it is permissible to file one application for permit to appropriate public water for combined spring developments per "drainage area". I am not aware of such a policy.

ADJUDICATIONS MEMO #12

TO: Adjudications Bureau Staff
FROM: Lynne Krogh-Hampe
DATE: August 17, 1988
RE: Multiple Sources on a Single Claim

More than one source of water may appropriately be claimed on one notice of claim under certain circumstances.

The Adjudications Rules permit more than one source to be claimed if the claim is for a single water delivery system that has more than one source (in other words, if more than one source was developed as part of the same project), or the claim is for a single licensed or decreed right that covers more than one water delivery system. (Rule 10,3,3. and 10,5,3.)

More than one source may also be claimed where the claimant developed an additional point of diversion after the water right was initiated. (An example is where a person is using water from an artesian spring, but the flow of the spring decreased, and the water user later dropped a well near the spring to be able to continue to get the full amount of the appropriation.) Note however that where the additional point of diversion is used for additional uses, to irrigate additional acres, or to divert additional water than was originally appropriated, then there has been an expansion and there may be a second water right for the additional use, irrigation, or diversion. (Another memo will be coming on expansions and the amnesty provisions of §42-1416.)

The specific example that has been discussed is the use of multiple springs for stockwatering use. If there is more than one spring on the claimant's parcel of land, and the use of water for stockwatering was initiated on all of the springs at the same time or as part of the same project, then all of the springs can be claimed as one water right. The same rule applies if the claimant has more than one parcel, so long as the parcels are contiguous. (Note that where there is a water right with a diversion system, the place of use may consist of noncontiguous parcels where the parcels are linked up by a single water delivery system.)

Also note that where there are two water rights with different priorities, the claimant may in some instances be able to claim both as a single water right if the claimant wants to claim both with the later priority date. For example, the claimant has a parcel with a spring and the claimant started using the spring to water stock in 1935. The claimant then acquired a contiguous parcel with a spring and started using the spring to water stock in 1940. The claimant could submit one notice of claim for both springs if a 1940 priority date is claimed. (Or, the claimant started using a spring to water 100 head of stock in 1935, and added an additional 100 head in 1940. The claimant could submit one notice of claim for watering 200 head with a 1940 priority date.)

RE: Applications for permit

Dear Karen:

On July 21, we received the enclosed three applications for permit for three separate forest service allotments. The spring developments can be combined on a application per drainage area, not per allotment. Please make the necessary corrections so that we can continue with the processing of these applications. Let me know if you have any questions.

Sincerely,

Lori Graves
Sr. Water Resource Agent

MESSAGE

Good Morning,

I have reviewed the enclosed applications and determined them to be correct in that water developments are grouped together on applications by major drainage area as requested by your letter dated July 28, 1992. I also referred to the Idaho Water Law Handbook, appendix section under filing instructions. I am returning the three applications for further processing. Thank you for your help.
