14N	03W	3	SWSE	0.6		0.6

Total number of acres irrigated: 0.6

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

E. NARRATIVE/REMARKS/COMMENTS

This system used two wells. The kilow well was 10' deep and had a static level of 4'. This is the primary irrigation well. The casing on this well is 6". It is an open well with a surface pump. Once it is dry a 8", 80' well is used to irrigate the lawn. This well has static water at 14' and is also used in the house. We cannot irrigate with house around the lawn.

* There are no overlaps that have the same Point of Discussion.

Have conditions of permit approval been met? ☒ yes

☐ no

RE: PERMIT NO. 67-07888

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07888

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

MEMORANDUM

TO: Application 67-07888
FROM: Brenda
DATE: September 2, 1992
RE: MORATORIUM EXEMPTION INFORMATION

=====

The above referenced application should be considered exempt from the Snake River Moratorium criteria because it is a pre-1987 development. See copy of Director's July 1, 1992 memo in file which exempts pre-1987 development from the Snake River Basin Moratorium and allows said applications to be processed as permanent permits.

However, per 8/31/92 conversation with the applicant, it will be acceptable to him if we have to limit the irrigation use to 1/2 acre.

MEMORANDUM TO: Staff

FROM : R. Keith Higginson *RKH*

DATE : July 1, 1992

SUBJECT : Snake River Basin Moratorium

As expected, the moratorium on new uses of surface and ground water of the Snake River Basin upstream from the Weiser gaging station has generated several questions concerning intent.

You will recall that the moratorium provided several exceptions:

- domestic uses
- nonconsumptive uses
- drought wells
- drilling permits to replace or deepen

It appears that a number of situations have been identified where applications for permits have been filed to cover presently existing uses of water. I see no reason to hold up the processing and approval of such permits since it will make no difference on the quantity of water that is being withdrawn in the basin during this drought period. If we are not going to consider issuing permits to cover such existing uses then we need to issue cease and desist orders to stop the use. I don't want to take that action where there is an alternative.

Therefore, the purpose of this memo is to advise that it is the intent of the moratorium order issued on May 15, 1992 to hold up the issuance of permits authorizing new or expanded uses of water within the Snake River Basin. The moratorium may be interpreted to allow the continued processing and approval of applications proposing to cover an existing use. Such existing use must predate the start of the Snake River Basin Adjudication in November 1987.

RE: Application for Permit No. 67-07888

Dear Applicant(s):

We are in the process of reviewing your application for permit. The Moratorium Exemption Questionnaire you submitted is somewhat confusing. You stated that the 1 acre lawn and garden you propose to irrigate has not been irrigated by surface water from a canal company or irrigation district in the past. However, you listed that surface water had been available for the past 10 years.

According to the Snake River Basin Moratorium (issued May 15, 1992), groundwater applications may be processed if the land in question has an existing normally adequate water right from a surface water source.

We can issue you a permit which allows irrigation for up to 1/2 acre. The balance of the application's 1/2 acre can be put on hold until the Moratorium is lifted, or we can place the entire application on hold until that time.

I will delay any further action on the application until I hear from you.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

MORATORIUM EXEMPTION QUESTIONNAIRE

Department of Water Resources

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

House lawn & Garden 1 Acre

- Do you summer fallow any of your irrigated land? If so, how many acres?

None

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the canal company or water district.

None

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

*JLP None - Strictly well water.
SHALLOW well - in since early 1900's.
Deep well - in at least 10 yrs.*

- What crops have you grown in the past ten years?

Grass, Alfalfa, Corn, berries, beets, beans, peas, potatoes, squash, Tomatoes, broccoli, carrots, cucumbers, peppers

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 28 day of July, 1992.

RE: Application for Permit No. 67-07888

Dear Applicant(s):

On May 21, 1992, the Department of Water Resources sent you a letter explaining that a moratorium had been declared on the approval of certain pending and future applications to appropriate water in the Snake River Basin.

The letter included a request to complete and return to us a "Moratorium Exemption Questionnaire". The information would determine whether your proposed use(s) would qualify for the supplemental irrigation exemption, be partially approved, or be held without action. As of this date, the Department has not received the questionnaire. Enclosed is another one for your convenience.

Please return the questionnaire within twenty (20) days of the date of mailing of this letter, or the Department will initiate proceedings to void your application.

If you have any questions regarding this request, please contact me immediately at 327-5452.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Miller".
